

The Tragedy of Hamlet, Prince of Denmark: Analysis

Topic: Literature | Words: 1378 | Pages: 5

William Shakespeare and his works occupy an honorary place in world literature. At the same time, the play *The Tragedy of Hamlet, Prince of Denmark*, briefly referred to as *Hamlet*, is one of the most famous. The plot reveals complex themes of revenge, mortality, deception, madness, and other issues. The main character, Prince Hamlet, is full of internal torment, and his experiences reveal most of the themes. Despite the fact that the motive of revenge is the basis for the plot, the theme of mortality, fear of death, and afterlife questions is more revealed in the play.

The play's plot describes the actions in the royal court in Denmark, where the king recently died. His son Hamlet is upset by his father's death and disappointed with the behavior of his mother, that married her late husband's brother a few months after the funeral. Having met the ghost of the king, Hamlet learns that his uncle is also a murderer, and his father calls him for revenge. The prince comes up with a plan to kill his uncle Claudius, part of which is a simulation of madness.

In his game, Hamlet becomes sure of the guilt of the new king. At the same time, the mother and stepfather try to learn by deception whether the prince is really insane. They even involve Ophelia, Hamlet's sympathy, and the prince's two friends, Rosencrantz and Guildenstern. Moreover, the king is plotting a new murder and gives an order to kill Hamlet. Intrigues lead to tragic deaths - the father of Ophelia, the young woman herself, and the friends of Hamlet. There is also a duel in the finale, where Ophelia's brother Laertes, Hamlet's mother and stepfather, and
