Tolkien's Utopianism and the Classics* Hamish Williams,2023-02-09 This book opens up new perspectives on the English fantasy writer J R R Tolkien arguing that he was an influential thinker of utopianism in 20th century fiction and that his scrutiny of utopias can be assessed through his dialogue with antiquity Tolkien s engagement with the ancient world often reflects an interest in retrotopianism his fictional places cities forests homes draw on a rich post classical narrative

imagination of similar spaces. Importantly for Tolkien such narratives entail eutopian thought experiments: the decline and fall of distinctly classical communities provide an utopian blueprint for future political restorations; the home as oikos becomes a space where an ideal ethical reciprocity between host and guest can be sought; the ancient forest is an ambiguous unsettling site where characters can experience necessary forms of awakening. From these perspectives tokens of Platonic moderation, Augustan restoration, Homeric xenophilia and the Ovidian material sublime are evident in Tolkien's writing. Likewise his retrotopianism also always entails a rewriting of ancient narratives in post classical and modern terms. This study then explores how Tolkien's use of the classical past can help us to align classical and utopian studies and thus to reflect on the ranges and limits of utopianism in classical literature and thought.
