The Tyranny Of Work Alienation And The Labour Process:

The Tyranny of Work James W. Rinehart, 2001 **Work and Labour in Canada, Fourth Edition** Mark P.

Thomas, Adam D.K. King, Andrew Jackson, 2025-05-30 Over the last several decades the workplace in Canada has experienced profound changes Work has become increasingly insecure for a growing number of workers and income inequality has deepened New technologies have reshaped labour processes and have enhanced elements of employer control over work and workers Entry into the labour market is itself a difficult process as young workers struggle to match qualifications and credentials with jobs while for many older workers retirement with a secure income is a diminishing prospect The demographic composition of the labour market is transforming yet this change is conditioned by longstanding patterns of inequality in terms of gender race disability and immigration status Work and Labour in Canada explores the changing world of work mapping out major trends and patterns that define working life and identifying the economic social and political factors that shape the contemporary workplace Evaluating working conditions and the quality of jobs from a critical perspective this text presents an analysis of recent trends in employment and unemployment as well as outlines the role and impact of unions and other workers organizations The fourth edition includes a new chapter on work and technology updated statistical data and additional content on the basic income debate labour and climate change and COVID 19 This thoroughly revised and updated edition is essential for teachers researchers labour activists and students of labour studies sociology political science political economy and economic geography programs The Sociology of Work Stephen Edgell, 2005-12-18 Stephen Edgell is to be commended for his ability to provide an overview of how work has been influenced by social structures over time This book is divided into 10 chapters which cover the complexity of how work in its many forms has been studied and explored primarily in European and North American contexts As a survey text of occupations related to work this is a good starting point for readers interested in obtaining a broad grounding in understanding theoretical perspectives and their application Lynn Cockburn Journal of Occupational Science Steve Edgell has written an up to date comprehensive guide to the sociology of every type of work paid and unpaid standard and non standard under and unemployment Sweeping in its historical reach and rigorous in its analysis of key issues of work this book charts the rise of work from the first human societies and provides nuanced understanding of the issues at stake in standard non standard unpaid and voluntary work Drawing on classic and contemporary theorists the author covers key issues regarding paid work alienation post industrial society network enterprises in the informational society flexibility Fordism McDonaldization the destandardization of work and the social impact of unemployment and underemployment discusses key issues regarding non paid work domestic work as work the impact of technology the impact of feminism feminization and globalization offers a historical perspective of work and gender The overall sweep of the book from pre capitalist industrial to post globalism is attractive and challenging The extension of the study of work beyond paid office factory work is to be welcomed In short this

book will make a wise and welcomed addition to the existing range of sociological texts Professor Huw Beynon Director School of Social Sciences Cardiff University Stephen Edgell's Sociology of Work is a reliable comprehensive and accessible text He has taken a number of central themes in this field and engaged with the relevant literature and debates in a thoughtful and authoritative way The comparative and historical treatment of the topics offers an illuminating perspective on the contemporary world of work Students will find this book to be an invaluable resource I predict that their copies will become much thumbed and annotated John Eldridge Emeritus Professor of Sociology University of Glasgow Work in the Digital Media and Entertainment Industries Tanner Mirrlees, 2024-11-06 This book is a first of its kind critical interdisciplinary introduction to the economic political cultural and technological dimensions of work in the rapidly growing digital media and entertainment industries DMEI Tanner Mirrlees presents a comprehensive guide to understanding the key contexts theories methods debates and struggles surrounding work in the DMEI Packed with current examples and accessible research findings the book highlights the changing conditions and experiences of work in the DMEI It surveys the DMEI's key sectors and occupations and considers the complex intersections between labor and social power relations of class gender and race as well as tensions between creativity and commerce freedom and control meritocracy and hierarchy and precarity and equity diversity and inclusivity Chapters also explore how work in the DMEI is being reshaped by capitalism and corporations government and policies management globalization platforms A I and worker collectives such as unions and cooperatives This book is a critical introduction to this growing area of research teaching learning life labor and organizing with an eye to understanding work in the DMEI and changing it for the better Offering a broad overview of the field this textbook is an indispensable resource for instructors undergraduates postgraduates and scholars *The Sociology of Work (RLE: Organizations)* Parvin Ghorayshi, 2013-08-21 This reference volume reflects the changing world of work It includes research on the various dimensions of work such as the structure of the labour force labour market segmentation technology employment unemployment trade unions and industrial democracy This book provides an integrated view of the various dimensions of work its distinguishing characteristics and issues both peculiar as well as common to industrialized countries By adopting an interdisciplinary and interactional perspective this volume provides the scholar and the lay reader with a range of approaches and debates that have made a significant contribution toward understanding the changing nature of work and its social impact **Contracting Masculinity** Gillian Creese, 1999-12-15 The history of labour in Canada is most often understood to mean and presented as the history of blue collar workers especially men And it is a story of union solidarity to gain wages rights and the like from employers In Contracting Masculinity Gillian Creese examines in depth the white collar office workers union at BC Hydro and shows how collective bargaining involves the negotiation of gender class and race Over the first 50 years of the office union's existence male and female members were approximately equal in number Yet equality has ended there Women are concentrated at the lower rungs of the job hierarchy while men start higher

up the ladder and enjoy more job mobility men's office work has been redefined as a wide range of technical jobs while women's work has been concentrated in a narrow range of clerical positions As well for decades Canadian Aboriginals and people of colour were not employed by BC Hydro which has resulted in a racialized gendered workplace What is the role of workers and their trade unions in constructing male and female work a process that is often seen as the outcome solely of management decisions How is this process of gendering also racialized so that women and men of different race and ethnicity are differentially privileged at work How do males in a white collar union create and maintain their own image of masculinity in the face of a feminized occupation and a more militant male blue collar union housed within the same corporation What impact does the gender composition of union leadership have on collective bargaining How do traditions of union solidarity affect attempts to bargain for greater equity in the office These are the central questions that Contracting Masculinity seeks to answer in this in depth look at a Canadian union

Defining Work Muriel Mellow, 2009-07-15 Based on interviews with forty rural Protestant clergy Mellow argues that male and female clergy challenge gendered definitions of work by focusing on obligation context visibility and time She also considers how clergy's work is shaped by the rural setting arguing that we must consider how work is placed as well as gendered

Regulating Professions Tracey L Adams, 2018-08-08 Self regulation has long been at the core of sociological understandings of what it means to be a profession However the historical processes resulting in the formation of self regulating professions have not been well understood In Regulating Professions Tracey L Adams explores the emergence of self regulating professions in British Columbia Ontario Quebec and Nova Scotia from Confederation to 1940 Adams's in depth research reveals the backstory of those occupations deemed worthy to regulate such as medicine law dentistry and land surveying and how they were regulated Adams evaluates sociological explanations for professionalization and its regulation by analysing their applicability to the Canadian experience and especially the role played by the state By considering the role of all those involved in creating the professional landscape in Canada Adams provides a clear picture of the process and illuminates how important this has been in building Canadian institutions and society

Youth Development in Identity Societies James E. Cote, 2018-10-31 This book explores the causes and consequences of the contradictions in young people's lives stemming from the affluence purpose paradox a lack of purpose in life among many of those living in the most affluent societies in human history This paradox is endemic to identity societies where people experience a choice contingent life course and is examined using an interdisciplinary approach largely with an integration of developmental psychology and sociology but also using historical anthropological economic and political perspectives The transition to adulthood is now commonly a prolonged process with young people facing a number of psychological challenges and sociological obstacles in their identity formation Challenges include difficulties in making prudent choices about goals Obstacles involve cross pressures in the wider society as well as in educational institutions Consequently many youth experience their education as alienating and

stressful rather than as an opportunity for personal development Those without a sense of purpose have more difficulties with their identity formation that can produce symptoms of anxiety and depression The current student mental health crisis is examined in this context An additional challenge is an ambiguously defined adulthood Young people who are confused about appropriate adult roles often value hedonistic activities rooted in narcissism and materialism rather than in more fulfilling long term goals Conversely those who are agentic in their personal development can thrive in adulthood especially when they combine agency with generativity This book ends with a series of recommendations for researchers and policy makers to help youth cope with the affluence purpose paradox Practical Ethnography Sam Ladner,2016-08-25

Ethnography is an increasingly important research method in the private sector yet ethnographic literature continues to focus on an academic audience Sam Ladner fills the gap by advancing rigorous ethnographic practice that is tailored to corporate settings where colleagues are not steeped in social theory research time lines may be days rather than months or years and research sponsors expect actionable outcomes and recommendations Ladner provides step by step guidance at every turn covering core methods research design using the latest mobile and digital technologies project and client management ethics reporting and translating your findings into business strategies This book is the perfect resource for private sector researchers designers and managers seeking robust ethnographic tools or academic researchers hoping to conduct research in corporate settings More information on the book is available at <http://www.practicaethnography.com>

Capitalism and Classical Sociological Theory John Bratton,David Denham,Linda Deutschmann,Linda Bell Deutschmann,2009-01-01 This is one of the sharpest and most rewarding textbooks for teaching classical social theory The emphasis on depth over breadth pays off handsomely providing students with a badly needed foundation in the classics of sociology Philip Walsh York University **Culture and Social Change** Marguerite Mendell,1992 The Democracy That Never Was Gary Teeple,2025-02-28 Liberal democracy is usually treated as an independent variable as possessing the absolutes of democratic rule Its variable forms changing principles and practice and conscious destruction by its own advocates in particular the United States however suggest that it is not what it appears to be This book argues that it is a dependent variable the political form required by the changing configurations of national capital and their countervailing forces The forms of liberal democracy have always shifted in concert with the mode of production as their premise The absolutes of liberal democracy the author contends have never been anything but the abstracted principles of the marketplace Their nature has now become especially visible for what they have been because the premise as national capital development has changed leaving liberal democracy as a form without its original content and its present content out of keeping with a national jurisdiction As a political form it persists but its role has been transformed from the regulation of national capital accumulation to the enforcer of the demands of global configurations of capital It is a role that its citizens implicitly understand as revealed in widespread political cynicism decreasing electoral participation and declining legitimacy

that require ever greater measures of deceit from political leaders and increased means of coercive social control including militarized police forces and pervasive electronic surveillance There can be no going back to the stage of national politics because the neoliberal content of liberal democratic policies represents the necessities of global capital And it is the contradictions of global capital that define the character of early 21st century political conflict *Beyond Service* Greg McElligott,2001-01-01 Greg McElligott traces neoconservative labour market policy from its international origins to the local offices of the Canadian state

Capitalism and Classical Social Theory, Third Edition John Bratton,David Denham,2019-05-31 In this third edition of Capitalism and Classical Social Theory John Bratton and David Denham build on the classical triumvirate Karl Marx mile Durkheim and Max Weber by extending the conversation to include early female theorists such as Mary Wollstonecraft and Charlotte Perkins Gilman as well as the writings of W E B Du Bois and G H Mead Connecting current headlines in the political mainstream to concepts like alienation anomie class gender race and the environment Capitalism and Classical Social Theory sheds light on how classical social theories may be applied and understood within a contemporary context This revised and expanded third edition features topical discussions of socio economic shifts in the post Trump and post Brexit world and uses original excerpts and additional readings to further contextualize the significance of classical social theory today

Animal Rights, Human Rights George W. Wenzel,1991-01-01 This study of the controversy surrounding the hunting of seals in the Canadian Arctic concentrates on the Inuit of Clyde River Baffin Island and traces the evolution of the traditional subsistence economy and social structure to the present cash economy and the effects of animal rights movements on the Inuit culture Extensive bibliography maps and glossary of Inuit sealing terms

The New African Diaspora in Vancouver Gillian Creese,2011-08-13 The New African Diaspora in Vancouver documents the experiences of immigrants from countries in sub Saharan Africa on Canada s west coast Despite their individual national origins many adopt new identities as African and are actively engaged in creating a new place based African community In this study Gillian Creese analyzes interviews with sixty one women and men from twenty one African countries to document the gendered and racialized processes of community building that occur in the contexts of marginalization and exclusion as they exist in Vancouver Creese reveals that the routine discounting of previous education by potential employers the demeaning of African accents and bodies by society at large cultural pressures to reshape gender relations and parenting practices and the absence of extended families often contribute to downward mobility for immigrants The New African Diaspora in Vancouver maps out how African immigrants negotiate these multiple dimensions of local exclusion while at the same time creating new spaces of belonging and emerging collective identity

On the Outside Melissa Munn,Chris Bruckert,2013-05-29 From the passage of Bill C 10 with its punitive tough on crime provisions to sensationalist media accounts of dangerous ex convicts it is evident that Canada is a country that is taking an increasingly hard line on crime In reality however the vast majority of prisoners who serve out their sentences do not re

offend but rather reintegrate into society and never see the inside of a prison cell again The lack of discussion regarding those who make good perpetuates the illusion that most ex prisoners pose a danger to the public and renders invisible the complex and sometimes treacherous path out of prison On the Outside illuminates that journey exploring the post carceral lives of men who have successfully resettled into the community after serving at least a decade in Canada's penitentiaries Discussing the transition from imprisonment release and re entry through to the challenges of resettlement this book will change the way you think about Canada's prisoners and open up the debate on the perils of tough on crime legislation

Social Service, Private Gain Jesse Hager, John Loxley, 2021-06-14 This book examines Social Impact Bonds as a means to finance social services and how mainstream and heterodox economic theory can help understand their existence and emergence

Monsters of the Market David McNally, 2011-07-12 Monsters of the Market investigates modern capitalism through the prism of the body panics it arouses Examining Frankenstein Marx's Capital and zombie fables from sub Saharan Africa it offers a novel account of the cultural and corporeal economy of global capitalism
