The Crucified Mind Robert Havard,2001 Why is the Spanish input to Surrealism so distinctive and strong What do such renowned figures as Dal Bu uel Lorca Aleixandre and Alberti have in common This book untangles the issue of Surrealism in Spain by focusing on a consistent feature in Spanish avant garde poetry art and film of the late twenties and thirties its supersaturation in religion A repressive religious upbringing typically under the Jesuits intensifies both the paranoiac and the mystical Surrealism s twin pillars which were already deeply ingrained in the Spanish psyche Striking examples are Lorca s prophetic voice in New York Dal

and Bu uel s Eucharistic transformations Alberti s Loyolan materio mysticism Alberti is the fulcrum of this study since his poetry goes the full distance of Surrealism s evolution from Freudian catharsis to metaphysical transcendence until it expires in a Marxist reaction to church bound tradition when his nation convulses in civil war the surrealist ethos in Spain is not reducible to measuring how closely it imitates French theory It is more serious than the French says Alberti and its bearings are found on a cross of mental suffering and in a journey out of hell that made real art in practice ROBERT HAVARD is Professor of Spanish University of Wales Aberystwyth

DADA, Surrealism, and the Cinematic Effect R. Bruce Elder,2015-10-15 This book deals with the early intellectual reception of the cinema and the manner in which art theorists philosophers cultural theorists and especially artists of the first decades of the twentieth century responded to its advent While the idea persists that early writers on film were troubled by the cinema s lowly form this work proposes that there was another largely unrecognized strain in the reception of it Far from anxious about film s provenance in popular entertainment some writers and artists proclaimed that the cinema was the most important art for the moderns as it exemplified the vibrancy of contemporary life This view of the cinema was especially common among those whose commitments were to advanced artistic practices Their notions about how to recast the art media or the forms forged from those media s materials and the urgency of doing so formed the principal part of the conceptual core of the artistic programs advanced by the vanguard art movements of the first half of the twentieth century This book a companion to the author s previous Harmony Dissent examines the Dada and Surrealist movements as responses to the advent of the cinema
