The Towers of Tuscany Carol M. Cram, 2014-02-01 The fabled Tuscan landscape in the turbulent fourteenth century provides the backdrop for a tale of unconquered passions and the triumph of the creative spirit Set amid the twisting streets and sunlit piazzas of medieval Italy The Towers of Tuscany tells the story of a woman who dares to follow her own path in the all male domain of the painter's workshop Trained in secret by her father to create the beautifully crafted panels and altarpieces acclaimed today as masterpieces of late medieval art Sofia's desire for freedom from her father's workshop leads her to betray her passion and sink into a life of loveless drudgery with a husband who comes to despise her when she does not produce a son In an attack motivated by vendetta Sofia's father is crushed by his own fresco compelling Sofia to act or risk the death of her soul The choice she makes takes her on a journey from misery to the heights of passion both as a painter and as a woman Sofia escapes to Siena where disguised as a boy she paints again When her work attracts the notice of a nobleman who discovers the woman under the dirty smock Sofia is faced with a choice that nearly destroys her The Towers of Tuscany unites a strong heroine with meticulously researched settings and compelling characters drawn from the rich tapestry of medieval Italy during one of Europe's most turbulent centuries The stylishly written novel is packed with enough twists and turns to keep readers up long past their bedtimes Anne Fortier author of the New York Times bestseller Juliet and The Lost Sisterhood calls The Towers of Tuscany a delightful escape to the Siena we all love Carol Cram has crafted a delicious story about a strong woman torn between her secret past her love of painting and the forbidden charms of her rich patron Hard to resist and highly recommended Roberta Rich bestselling author of The Midwife of Venice and The Harem Midwife states that The Towers of Tuscany has all the elements of a wonderful historical novel a talented frustrated heroine a treacherous feckless husband and a promise to a dying much loved father who orders the heroine on a dangerous mission Carol is a first rate storyteller The research is well done Every chapter displays a fine knowledge of painting technique of the 14th century and customs and mores of the age The details of dress fabric food are flawless The clever dialogue and fast pace make the novel zing along *Towers* Erwin Heinle, Fritz Leonhardt, 1988 [Italian Highways and Byways from a Motor Car](#) Francis Miltoun, 1909 *Three Towers in Tuscany* Malcolm Saville, 1963 **The Combinatory Systems Theory** Piero Mella, 2025-04-28 This book adopts the logic of Systems Thinking and Control Systems presenting a simple but complete theory called the Theory of Combinatory Systems This new theory describes interprets explains and simulates collective phenomena and their observable effects Such collective phenomena many of which are one way non repeatable or reproducible can all be described and understood using the model as simple as it is general of combinatory systems that is systems formed by collectivities or populations of non connected and unorganized individuals of some species which appear to be directed by an invisible hand that guides the analogous actions of similar individuals in order to produce an emerging collective phenomenon This edition includes enhanced theories such as an analysis of potential interactions between
