P. B. Weigall, 2018-07-09 The Treasury of Ancient Egypt Miscellaneous Chapters on Ancient Egyptian History and Archaeology by Arthur E P B Weigall The arch ologist whose business it is to bring to light by pick and spade the relics of bygone ages is often accused of devoting his energies to work which is of no material profit to mankind at the present day Arch ology is an unapplied science and apart from its connection with what is called culture the critic is inclined to judge it as a pleasant and worthless amusement There is nothing the critic tells us of pertinent value to be learned from the Past which will be of use to the ordinary person of the present time and though the arch ologist can offer acceptable information to the painter to the theologian to the philologist and indeed to most of the followers of the arts and sciences he has nothing to give to the ordinary layman In some directions the imputation is unanswerable and when the interests of modern times clash with those of the past as for example in Egypt where a beneficial reservoir has destroyed the remains of early days there can be no question that the recording of the threatened information and the minimising of the destruction is all that the value of the arch ologist s work entitles him to ask for The critic however usually overlooks some of the chief reasons that arch ology can give for even this much consideration reasons which constitute its modern usefulness and I therefore propose to point out to him three or four of the many claims which it may make upon the attention of the layman In the first place it is necessary to define the meaning of the term Arch ology Arch ology is the study of the facts of ancient history and ancient lore The word is applied to the study of all ancient documents and objects which may be classed as antiquities and the arch ologist is understood to be the man who deals with a period for which the evidence has to be excavated or otherwise discovered The age at which an object becomes an antiquity however is quite undefined though practically it may be reckoned at a hundred years and ancient history is after all the tale of any period which is not modern Thus an arch ologist does not necessarily deal solely with the remote ages Every chronicler of the events of the less recent times who goes to the original documents for his facts as true historians must do during at least a part of their studies is an

arch ologist and conversely every arch ologist who in the course of his work states a series of historical facts becomes an historian Arch ology and history are inseparable and nothing is more detrimental to a noble science than the attitude of certain so called arch ologists who devote their entire time to the study of a sequence of objects without proper consideration for the history which those objects reveal Antiquities are the relics of human mental energy We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience
