Stalin Vol I Paradoxes Of Power

Tracey Loughran

Stalin Vol I Paradoxes Of Power:

Stalin Stephen Kotkin, 2014 An extensively researched portrait of the Soviet dictator covers his rise from humble origins the inner power structure of the Bolshevik regime and the early formation of Stalin's fabricated trial process *Stalin, Vol. I* Stephen Kotkin, 2014-10-23 The magnificent new biography that revolutionizes our understanding of Stalin and his world In January 1928 Stalin the ruler of the largest country in the world boarded a train bound for Siberia where he would embark upon the greatest gamble of his political life He was about to begin the largest programme of social reengineering ever attempted the root and branch uprooting and collectivization of agriculture and industry across the entire Soviet Union Millions would die and many more would suffer How did Stalin get to this point Where did such great monstrous power come from The first of three volumes the product of a decade of scrupulous and intrepid research this landmark book offers the most convincing portrait and explanation yet of Stalin's power and of Russian power in the world The book is as much about the Russia that Stalin inherits and reshapes as about the man himself It gives a brilliantly nuanced picture of the sequence of catastrophes that disposed of the social structures armies rivals and close colleagues that should have stood in Stalin's way as he emerged from obscurity to shoulder the terrifying responsibility of upholding Russian power in the world **Stalin** Stephen Kotkin, 2014 The magnificent new biography that revolutionizes our understanding of Stalin and his world FINANCIAL TIMES Books of the Year 2014 In January 1928 Stalin the ruler of the largest country in the world boarded a train bound for Siberia where he would embark upon the greatest gamble of his political life He was about to begin the largest programme of social reengineering ever attempted the root and branch uprooting and collectivization of agriculture and industry across the entire Soviet Union Millions would die and many more would suffer How did Stalin get to this point Where did such great monstrous power come from The first of three volumes the product of a decade of scrupulous and intrepid research this landmark book offers the most convincing portrait and explanation yet of Stalin's power and of Russian power in the world The book is as much about the Russia that Stalin inherits and reshapes as about the man himself It gives a brilliantly nuanced picture of the sequence of catastrophes that disposed of the social structures armies rivals and close colleagues that should have stood in Stalin's way as he emerged from obscurity to shoulder the terrifying responsibility of upholding Russian power in the world *Stalin's Library* Geoffrey Roberts, 2022-01-01 A compelling intellectual biography of Stalin told through his personal library A fascinating new study Michael O'Donnell Wall Street Journal In this engaging life of the twentieth century's most self-consciously learned dictator Geoffrey Roberts explores the books Stalin read how he read them and what they taught him Stalin firmly believed in the transformative potential of words and his voracious appetite for reading guided him throughout his years A biography as well as an intellectual portrait this book explores all aspects of Stalin's tumultuous life and politics Stalin an avid reader from an early age amassed a surprisingly diverse personal collection of thousands of books many of which he marked and annotated revealing his intimate thoughts feelings and beliefs

Based on his wide ranging research in Russian archives Roberts tells the story of the creation fragmentation and resurrection of Stalin s personal library As a true believer in communist ideology Stalin was a fanatical idealist who hated his enemies the bourgeoisie kulaks capitalists imperialists reactionaries counter revolutionaries traitors but detested their ideas even more

Stalin's War Sean McMeekin,2021-04-20 A prize winning historian reveals how Stalin not Hitler was the animating force of World War II in this major new history World War II endures in the popular imagination as a heroic struggle between good and evil with villainous Hitler driving its events But Hitler was not in power when the conflict erupted in Asia and he was certainly dead before it ended His armies did not fight in multiple theaters his empire did not span the Eurasian continent and he did not inherit any of the spoils of war That central role belonged to Joseph Stalin The Second World War was not Hitler s war it was Stalin s war Drawing on ambitious new research in Soviet European and US archives Stalin s War revolutionizes our understanding of this global conflict by moving its epicenter to the east Hitler s genocidal ambition may have helped unleash Armageddon but as McMeekin shows the war which emerged in Europe in September 1939 was the one Stalin wanted not Hitler So too did the Pacific war of 1941 1945 fulfill Stalin s goal of unleashing a devastating war of attrition between Japan and the Anglo Saxon capitalist powers he viewed as his ultimate adversary McMeekin also reveals the extent to which Soviet Communism was rescued by the US and Britain s self defeating strategic moves beginning with Lend Lease aid as American and British supply boards agreed almost blindly to every Soviet demand Stalin s war machine McMeekin shows was substantially reliant on American materiel from warplanes tanks trucks jeeps motorcycles fuel ammunition and explosives to industrial inputs and technology transfer to the foodstuffs which fed the Red Army This unreciprocated American generosity gave Stalin s armies the mobile striking power to conquer most of Eurasia from Berlin to Beijing for Communism A groundbreaking reassessment of the Second World War Stalin s War is essential reading for anyone looking to understand the current world order

Stalin's Nomads Robert Kindler,2018-07-31 Robert Kindler s seminal work is a comprehensive and unsettling account of the Soviet campaign to forcefully sedentarize and collectivize the Kazakh clans Viewing the nomadic life as unproductive and their lands unused and untilled Stalin and his inner circle pursued a campaign of violence and subjugation rather than attempting any dialog or cultural assimilation The results were catastrophic as the conflict and an ensuing famine 1931 1933 caused the death of nearly one third of the Kazakh population Hundreds of thousands of nomads became refugees and a nomadic culture and social order were essentially destroyed in less than five years Kindler provides an in depth analysis of Soviet rule economic and political motivations and the role of remote and local Soviet officials and Kazakhs during the crisis This is the first English language translation of an important and harrowing history largely unknown to Western audiences prior to Kindler s study The translation of this work was funded by Geisteswissenschaften International Translation Funding for Work in the Humanities and Social Sciences from Germany a joint initiative of the Fritz Thyssen Foundation the German Federal Foreign Office the collecting society VG WORT and the B

rsenverein des Deutschen Buchhandels German Publishers Booksellers Association Stalin and War, 1918-1953 David R. Shearer, 2023-09-11 Stalin and War 1918 1953 is the first book to examine the patterns of radicalized internal violence that characterized the Stalinist regime across the whole of the dictator's rule and it is one of the only works to connect patterns of internal violence to the dictator's perceptions of war and foreign threat Discussion focuses on the crisis years 1928 1932 1936 1939 the Great Fatherland War and the last war crisis period 1947 1953 Violent repressions under Stalin were cyclical They peaked and ebbed but in each case they were linked to Stalin's expectation of war and invasion to his perceived need for urgent internal mobilization and to intense foreign policy activity Stalin's behavior in each of these perceived war crises followed a pattern established during the dictator's experience as a military commander in the Russian revolutionary wars and especially during the Polish war in 1919 and 1920 Together these chapters trace a consistent and interconnected logic of war and repression throughout Stalin's political life This book will be of interest to professional scholars of Soviet history twentieth century history and World War II history and it is approachable enough to be appreciated by general readers

Stalin Christopher Read, 2016-12-08 This new biography of Stalin offers an accessible and up to date representation of one of the twentieth century's defining figures as well as new insights analysis and illumination to deepen our understanding of his actions intentions and the nature of the power that he wielded Christopher Read examines Stalin's contribution to and impact on Russian and world events in the first half of the twentieth century The biography brings together the avalanche of sources and scholarship which followed the collapse of the system Stalin constructed including the often neglected writings and speeches of Stalin himself In addition to a detailed narrative and analysis of Stalin's rule chapters also cover his early years and humble beginnings in a small town at a remote outpost of the Russian Empire his role in the revolution his relationships with Lenin Trotsky and others in the 1920s and his rise to become one of the most powerful figures in human history The book closes with an account of Stalin's afterlife and legacy both in the immediate aftermath of his death and in the decades since This concise account of Stalin's life is the perfect introduction for students of modern Russian history **A Practical Guide to Studying History** Tracey Loughran, 2017-01-12 PROSE Award Winner 2018 in the Textbook Humanities Category A Practical Guide to Studying History is the perfect guide for students embarking on degree level study The book introduces students to the concepts of historical objectivity frameworks and debate explains the differences in aims methods and audiences for different types of history explores the relationship between the skills developed during a history undergraduate degree and the practice of professional history helps students develop the practical skills required to read historical writing critically write good essays and participate in historical debates includes study questions further reading lists text boxes maps and illustrations The book incorporates case studies taken from a range of regions and periods reflecting the varied nature of historical study at university and helps students to understand history and to practice it successfully it is an indispensable guide to studying history **Georgian and Soviet** Claire P. Kaiser, 2023-01-15 Georgian

and Soviet investigates the constitutive capacity of Soviet nationhood and empire The Soviet republic of Georgia located in the mountainous Caucasus region received the same nation building template as other national republics of the USSR Yet Stalin s Georgian heritage intimate knowledge of Caucasian affairs and personal involvement in local matters as he ascended to prominence left his homeland to confront a distinct set of challenges after his death in 1953 Utilizing Georgian archives and Georgian language sources Claire P Kaiser argues that the postwar and post Stalin era was decisive in the creation of a Georgian Georgia This was due not only to the peculiar role played by the Stalin cult in the construction of modern Georgian nationhood but also to the subsequent changes that de Stalinization wrought among Georgia s populace and in the unusual imperial relationship between Moscow and Tbilisi Kaiser describes how the Soviet empire could be repressive yet also encourage opportunities for advancement for individual careers as well as for certain nationalities The creation of national hierarchies of entitlement could be as much about local and republic level imperial imaginations as those of a Moscow center Georgian and Soviet reveals that the entitled republic level national hierarchies that the Soviet Union created laid a foundation for the claims of nationalizing states that would emerge from the empire s wake in 1991 Today Georgia still grapples with the legacies of its Soviet century and the Stalin factor likewise lingers as new generations of Georgians reevaluate the symbiotic relationship between Soso Jughashvili and his native land

Western Marxism Domenico Losurdo, 2024-09-17 A stinging critique of Western Marxism counterposing its complicity with imperialist logic against a resurgent anti imperialism Western Marxism How It Was Born How It Died How It Can Be Reborn is a paradigm shifting book that provides a trenchant critique of the Western left intelligentsia It reveals how its dominant ideological orientation characterized by defeatism utopianism and anti communism is rooted in the political economy of imperialism Internationally acclaimed theorist Domenico Losurdo thus provides a fresh and challenging perspective on purportedly radical thinkers who have been widely promoted in the imperial core including those affiliated with the Frankfurt School French Theory and operaismo as well as Hannah Arendt Giorgio Agamben Michael Hardt and Slavoj i ek among others His critique also has wide reaching implications for trend setting discourses inspired by this coterie of intellectuals from postcolonial and decolonial theory to subaltern studies and beyond Far from being a negative undertaking however this book is grounded in the positive project of reigniting anti imperialist Marxism As a complement to the Italian edition of Western Marxism this first ever English translation also features the unprecedented publication of a major lecture that demystifies Western Marxism and its role in imperialists efforts to denigrate the achievements of actually existing socialism Raising the stakes of what it means to produce critical theory Western Marxism will surely provoke wide debate and a reevaluation of hallowed canons

The Square and the Tower Niall Ferguson, 2019-01-22 The instant New York Times bestseller A brilliant recasting of the turning points in world history including the one we re living through as a collision between old power hierarchies and new social networks Captivating and compelling The New York Times Niall Ferguson has again written a brilliant book In 400 pages you

will have restocked your mind Do it The Wall Street Journal The Square and the Tower in addition to being provocative history may prove to be a bellwether work of the Internet Age Christian Science Monitor Most history is hierarchical it s about emperors presidents prime ministers and field marshals It s about states armies and corporations It s about orders from on high Even history from below is often about trade unions and workers parties But what if that s simply because hierarchical institutions create the archives that historians rely on What if we are missing the informal less well documented social networks that are the true sources of power and drivers of change The 21st century has been hailed as the Age of Networks However in The Square and the Tower Niall Ferguson argues that networks have always been with us from the structure of the brain to the food chain from the family tree to freemasonry Throughout history hierarchies housed in high towers have claimed to rule but often real power has resided in the networks in the town square below For it is networks that tend to innovate And it is through networks that revolutionary ideas can contagiously spread Just because conspiracy theorists like to fantasize about such networks doesn t mean they are not real From the cults of ancient Rome to the dynasties of the Renaissance from the founding fathers to Facebook The Square and the Tower tells the story of the rise fall and rise of networks and shows how network theory concepts such as clustering degrees of separation weak ties contagions and phase transitions can transform our understanding of both the past and the present Just as The Ascent of Money put Wall Street into historical perspective so The Square and the Tower does the same for Silicon Valley And it offers a bold prediction about which hierarchies will withstand this latest wave of network disruption and which will be toppled **Familiar**

Strangers Erik R. Scott,2017 Familiar Strangers examines how the Soviet empire was built and ultimately dismantled by ethnic outsiders Scott retells Soviet history from the perspective of the socialist state s internal Georgian diaspora illuminating processes of mobility within Soviet borders and offering an understanding of empire that transcends the divide between colonizer and colonized **Dystopia** Gregory Claeys,2016-11-24 Dystopia A Natural History is the first monograph devoted to the concept of dystopia Taking the term to encompass both a literary tradition of satirical works mostly on totalitarianism as well as real despotisms and societies in a state of disastrous collapse this volume redefines the central concepts and the chronology of the genre and offers a paradigm shifting understanding of the subject Part One assesses the theory and prehistory of dystopia By contrast to utopia conceived as promoting an ideal of friendship defined as enhanced sociability dystopia is defined by estrangement fear and the proliferation of enemy categories A natural history of dystopia thus concentrates upon the centrality of the passion or emotion of fear and hatred in modern despotisms The work of Le Bon Freud and others is used to show how dystopian groups use such emotions Utopia and dystopia are portrayed not as opposites but as extremes on a spectrum of sociability defined by a heightened form of group identity The prehistory of the process whereby enemies are demonised is explored from early conceptions of monstrosity through Christian conceptions of the devil and witchcraft and the persecution of heresy Part Two surveys the major dystopian moments in twentieth century

despotisms focussing in particular upon Nazi Germany Stalinism the Chinese Cultural Revolution and Cambodia under Pol Pot The concentration here is upon the political religion hypothesis as a key explanation for the chief excesses of communism in particular Part Three examines literary dystopias It commences well before the usual starting point in the secondary literature in anti Jacobin writings of the 1790s Two chapters address the main twentieth century texts usually studied as representative of the genre Aldous Huxley s *Brave New World* and George Orwell s *Nineteen Eighty Four* The remainder of the section examines the evolution of the genre in the second half of the twentieth century down to the present

Stalin as Warlord Alfred J. Rieber, 2022-08-23 An authoritative account of Stalin as a wartime leader showing how his paradoxical policies of mass mobilization and repression affected all aspects of Soviet society The Second World War was the defining moment in the history of the Soviet Union With Stalin at the helm it emerged victorious at a huge economic and human cost But even before the fighting had ended Stalin began to turn against the architects of success In this original and comprehensive study Alfred J Rieber examines Stalin as a wartime leader arguing that his policies were profoundly paradoxical In preparation for the war Stalin mobilized the whole of Soviet society in pursuit of his military goals and intensified the centralization of his power Yet at the same time his use of terror weakened the forces vital to the defense of the country In his efforts to rebuild the country after the devastating losses and destruction he suppressed groups that had contributed immeasurably to victory His steady ruthless leadership cultivated a legacy that was to burden the Soviet Union and Russia to the present day

Joseph Stalin and the Art of Tyranny William Nester, 2025-10-30 *Joseph Stalin and the Art of Tyranny* examines authoritarian rule revealing how tyrants sustain power through a mix of comfort terror love and fear often convincing their subjects of their divine purpose Such leaders build systems of loyalists and subservient institutions enabling unchecked authority Joseph Stalin exemplifies this tyranny As Soviet leader from 1929 to 1953 he implemented totalitarian policies nationalizing industry and agriculture controlling economic production through five year plans and eliminating dissent through imprisonment forced labour or execution His brutal regime caused an estimated 20 million deaths Despite this grim legacy Stalin s reputation remains divisive In Western democracies he is remembered as a genocidal dictator but in Russia he often ranks among the most admired historical figures illustrating the paradox of his influence Stalinism served as a model for Communist regimes in China Vietnam and Cuba shaping their governance While many of these nations transitioned toward democracy countries like Russia China and North Korea continue to echo Stalinist practices Modern leaders such as Saddam Hussein Vladimir Putin and Xi Jinping have adopted similar strategies of control *Joseph Stalin and the Art of Tyranny* offers crucial insights into authoritarianism revealing the enduring appeal and devastating impact of totalitarian rule

Dissenting Traditions Sean Carleton, Ted McCoy, Julia Smith, 2021-07-12 The work of Bryan D Palmer one of North America s leading historians has influenced the fields of labour history social history discourse analysis communist history and Canadian history as well as the theoretical frameworks surrounding them Palmer s

work reveals a life dedicated to dissent and the difficult task of imagining alternatives by understanding the past in all of its contradictions victories and failures Dissenting Traditions gathers Palmer s contemporaries students and sometimes critics to examine and expand on the topics and themes that have defined Palmer s career from labour history to Marxism and communist politics Paying attention to Palmer s participation in key debates contributors demonstrate that class analysis labour history building institutions and engaging the public are vital for social change In this moment of increasing precarity and growing class inequality Palmer s politically engaged scholarship offers a useful roadmap for scholars and activists alike and underlines the importance of working class history With contributions by Alan Campbell Alvin Finkel Sam Gindin Gregory S Kealey John McIlroy Kirk Niegarth Bryan D Palmer Leo Panitch Chad Pearson Sean Purdy and Nicholas Rogers

Red Flag Wounded Ronald Suny,2020-08-25 Tracking the degeneration of the Russian Revolution Red Flag Wounded brings together essays covering the controversies and debates over the fraught history of the Soviet Union from the revolution to its disintegration Those monumental years were marked not only by violence mass killing and the brutal overturning of a peasant society but also by the modernisation and industrialisation of the largest country in the world the victory over fascism and the slow recovery of society after the nightmare of Stalinism Ronald Grigor Suny is one of the most prominent experts on the revolution the fate of the non Russian peoples of the Soviet empire and the twists and turns of Western historiography of the Soviet experience As a biographer of Stalin and a long time commentator on Russian and Soviet affairs he brings novel insights to a history that has been misunderstood and deliberately distorted in the public sphere For a fresh look at a story that affects our world today this is the place to begin *Vanguard of the Revolution* A. James McAdams,2019-11-19 The first comprehensive political history of the communist party Vanguard of the Revolution is a sweeping history of one of the most significant political institutions of the modern world The communist party was a revolutionary idea long before its supporters came to power A James McAdams argues that the rise and fall of communism can be understood only by taking into account the origins and evolution of this compelling idea He shows how the leaders of parties in countries as diverse as the Soviet Union China Germany Yugoslavia Cuba and North Korea adapted the original ideas of revolutionaries like Karl Marx and Vladimir Lenin to profoundly different social and cultural settings Vanguard of the Revolution is essential reading for anyone seeking to understand world communism and the captivating idea that gave it life
