**Medicine Across Borders: Exploration of Grey Zones** Susanne Lundin,Rui Liu,Elmi

Muller, Anja Smith, 2023-11-15 *Medicine Across Borders* provides an interdisciplinary space to discuss the issue of substandard and falsified medical products. Scholars from social and medical sciences collaboratively contribute insight to improving safe medicine access. The circulation of medicines and medical products on the informal market is well known. Stakeholders including governmental agencies and biotechnic enterprises invest much effort in designing and implementing macrolevel interventions to limit the spread of such products. Nevertheless, there is a lack of knowledge and understanding of how informal markets function in everyday medicine access and use. This applies to professionals within and beyond academia, state governments as well as the general public. This book takes an international perspective examining the issue of substandard and falsified medical products cross nationally. Falsified and poor quality medicines are prevalent in low and middle income countries, but this book also includes research from high income countries arguing that they too have vulnerabilities and emphasising the need for vigilance even in well resourced and well regulated regimes. *Medicine Across Borders: Exploration of Grey Zones* provides an interdisciplinary space for a depth and diversity of material that spotlights some contemporary themes hindering access to essential medicines and driving the penetration of substandard and falsified medical products. The authors are drawn from a range of academic disciplines across the social and medical sciences presenting findings from data collected using an eclectic mix of methods and analysis. Surveys, ethnography, narrative case studies, statistical and thematic analysis are all deployed. *Intercultural Foreign Language Teaching and Learning in Higher Education Contexts* Romanowski, Piotr, Bandura, Ewa, 2019-02-01 While research into intercultural teaching has grown exponentially during the past two decades, the research has primarily resorted to the use of quantitative data collection instruments and the interpretation of scores calculated through them. As such studies in the field can seem somewhat decontextualized, ignoring in some cases setting specific parameters, therefore further study is needed to bring together theory, research and practice demonstrating how this teaching is reflected in research design and how it is undertaken in different settings. *Intercultural Foreign Language Teaching and Learning in Higher Education Contexts* is an essential reference source that provides a series of rich insights into the way intercultural education is practiced in numerous international contexts and showcases practical examples of teaching situations and classroom activities that demonstrate its impact within the classroom. Featuring research on topics such as higher education multilingualism and professionalism, this book is ideally designed for educators, researchers, administrators, professionals, academicians and students seeking pedagogical guidance on intercultural teaching. *Latest Trends in Engineering and Technology* Sajjan Singh, Sarabpreet Kaur, 2024-06-28 We are very pleased to introduce the proceedings of the International Conference on Latest Trends in Engineering and Technology (ICLTET 2023).
