A Kinder, Gentler America Mary Caputi,2005 In the Norman Rockwell paintings of the 1940s and 1950s wrote Newt Gingrich there was a clear sense of what it meant to be an American Gingrich s words underline what Mary Caputi sees as a desire of the neoconservative movement to set a foundation for modern America that ennoble the past Analyzing these competing uses of the past A Kinder Gentler America reveals how longing for the era of the greatest generation actually exposes a disillusionment with the present Caputi draws on the theoretical frameworks of Julia Kristeva and Walter Benjamin to look at how the decade has been portrayed in movies such as Pleasantville and Far from Heaven and delves further to investigate our disenchantment s lost origins in early modernity through a reading of the poetry of Baudelaire What emerges is a stark contrast between the depictions of a melancholic present and a cheerful shiny past In the right s invocation of the mythical 1950s and the left s criticism of the same Caputi recognizes a common unfulfilled desire and proposes that by understanding this loss both sides can begin to accept that American identity despite chaos and confusion lies in the here and now Mary Caputi is professor of political science at California State University Long Beach and is author of Voluptuous Yearnings A Feminist Theory of the Obscene

Signs of Life Stephen Fabes,2020-08-04 A young doctor cycles around the world and discovers how societies treat their most vulnerable in this thought provoking and witty medical odyssey When Stephen Fabes left his job as an emergency room doctor and set out to cycle around the world frontline medicine quickly faded from his mind The daily challenges of life on the road stack up as he navigates deserts coaxing a few more miles from Ol Patchy his most faithful innertube and learns to live with the seeming constant threat posed by local wildlife be it mangy dogs in Indonesia grizzly bears in Alaska or in Australia the common death adder three words he was dismayed to find exist in sequence But leaving medicine behind was not as easy as it seems As Stephen crossed continents on a journey that would take six years and cover more than 53 000 miles he finds people whose health has suffered through exile stigma or circumstance and others whose lives have been saved through kindness and community After encountering a frozen body of a monk in the Himalayas he is drawn ever more to healthcare at the margins of the world to crumbling sanitoriums and refugee camps to city dumps and war torn hospital wards In this gripping blend of true adventure and medical narrative Stephen learns the value of listening to lives not just solving diagnostic puzzles Signs of Life challenges us to see care for the sick as a duty born of our compassion and our humanity

Signs of Life in the USA and Research Pack Sonia Maasik,Jack Solomon,Douglas P. Downs,Barbara Fister,2006-07-05 Cultural Hegemony in the United States Lee Artz,Bren Ortega Murphy,2000-06-23 Popular usage equates hegemony with dominance a meaning far from Antonio Gramsci's original concept where hegemony appears as a contested culture that meets the minimum needs of the majority while serving the interests of the dominant class This text is the first to present cultural hegemony in its original form as a process of consent resistance and coercion Hegemony is illustrated with examples from American history and contemporary culture including practices that represent race gender and class in everyday life U S cultural hegemony depends in part on how well media government and other dominant institutions popularize beliefs and organize practices

that promote individualism and consumerism Corporate dominance and market values reign only through the consent of the majority which for the time being finds material political and cultural benefit from existing social relations As deep social contradictions undermine brittle hegemonic relations the subordinate majority including blacks women and workers will seek a new cultural hegemony that overcomes race gender and class inequality **Signs of Life** National Research
