Brexit and Energy Law Ana Stanič, Silke Goldberg, 2023-01-31 Bringing together leading experts from across the UK and Europe this book provides a comprehensive analysis of the impact of Brexit on the energy sector in the UK and in the European Union and its Member States In recent decades the trend within the EU has been towards greater integration and liberalisation of energy markets Through the development of the Union's internal energy market and the funding of cross border energy infrastructure EU membership facilitates cross border trade in energy promotes security of

energy supply and via the European Atomic Energy Community Euratom allows EU Member States to trade in nuclear material for energy production Brexit changes all of this The significant level of integration and interdependence in EU energy policy means that the UK's departure from the Union poses many challenges for the UK the EU and EU Member States While certain energy related arrangements have been addressed the relationship between the UK and EU in the energy sector has been changed fundamentally In this context important and interrelated questions arise such as the following Under what terms will energy trading between the EU and UK now take place What access will the UK have to EU energy markets What does Brexit mean for the security of energy supply What does the UK's departure from Euratom mean for nuclear research Can the crossborder single energy market SEM on the island of Ireland continue following Brexit What implications does Brexit have for renewables the environment and climate change Brexit comes at a time when the European energy sector is undergoing the processes of decarbonisation and energy transition This book offers researchers legal practitioners and policy advisers in depth understanding of the interplay between these challenges and Brexit

Green, 2025-10-07 A new way to tackle the real politics of climate change through asset revaluation It s no secret that the Paris Agreement and voluntary efforts to address climate change are failing Governments have spent three decades crafting international rules to manage the climate crisis yet have made little progress on decarbonization In Existential Politics Jessica Green explains why this is unsurprising governments have misdiagnosed the political problem of climate change focusing relentlessly on measuring reporting and trading emissions This technical approach of managing tons ignores the ways that climate change and climate policy will revalue

assets creating winners and losers Policies such as net zero carbon pricing and offsets all cater to the losers owners of fossil assets Ultimately Green contends climate change is a political problem Climate politics should be understood as existential creating conflicts that arise when some actors face the prospect of the devaluation or elimination of their assets or competition from the creation of new ones Fossil asset owners such as oil and gas companies and electric utilities stand to lose trillions in the energy transition Thus they are fighting to slow decarbonization and preserve the value of their assets Green asset owners who will be the basis of the decarbonized economy are fewer in number and relatively weak politically Green proposes using international tax finance and trade institutions to create new green asset owners and constrain fossil asset owners reducing their clout Domestic investments in green assets facilitated by global trade rules can build the political power of green asset owners

Capitalising on constraint Catherine Moury, Stella Ladi, Daniel Cardoso, Angie Gago, 2021-10-12 This book is an essential analysis of what really happens behind closed doors during and after a bailout In the last decade five Eurozone governments in economic difficulty received assistance from international lenders on the condition that certain policies specified in the Memoranda of Understanding were implemented How did negotiations take place in this context What room for manoeuvre did the governments of these countries have After conditionality to what extent were governments willing and able to roll back changes imposed on them by the international lenders This book explores the constraints on national executives in the five bailed out countries of the Eurozone during and beyond the crisis from 2008 to 2019 The authors argue that despite international market pressure and creditors conditionality governments had some room for manoeuvre during a bailout and were able to advocate resist shape or roll back some of the policies demanded by external actors Under certain circumstances domestic actors were also able to exploit the constraint of conditionality to their own advantage Capitalising on constraint shows that after a bailout programme governments could use their discretion to revert the measures that brought the greatest benefits at a lower cost The authors provide a valuable insight into the determinants of bargaining leverage the importance of credibility and the limits of conditionality that might inform the design of international and European lending during future crises

Demystifying Bilingualism Silke Jansen, Sonja Higuera del Moral, Jessica Stefanie Barzen, Pia Reimann, Markus Opolka, 2021-12-02 This book analyses changing views on bilingualism in Cognitive Psychology and explores their socio cultural embeddedness It offers a new innovative perspective on the debate on possible cognitive disadvantages in bilinguals arguing that it is biased by popular language myths which often manifest themselves in the form of metaphors Since its beginnings Cognitive Psychology has consistently modelled the coexistence between languages in the brain using metaphors of struggle conflict and competition However an ideological shift from nationalist and monolingual ideologies to the celebration of bilingualism under multicultural and neoliberal ideologies in the course of the 20th century fostered opposing interpretations of language coexistence in the brain and its effects on bilinguals at different moments in time This book will be of interest to students and

scholars of Cognitive Psychology Psycholinguistics Multilingualism and Applied Linguistics Cognitive and Computational Linguistics and Critical Metaphor Analysis **Northern Atlantic Islands and the Sea** Andrew Jennings, Silke Reeploeg, Angela Watt, 2017-05-11 Iceland the Faroe Islands Orkney Shetland and to some extent the Hebrides share both a Nordic cultural and linguistic heritage and the experience of being surrounded by the ever present North Atlantic Ocean This has been a constant in the islanders history forging their unique way of life influencing their customs and traditions and has been instrumental in moulding their identities This volume is an exploration of a rich intimate and at times terrifying relationship It is the result of an international conference held in April 2014 when scholars from across the North Atlantic rim congregated in Lerwick Shetland to discuss maritime traditions islands in Old Norse literature insular archaeology folklore and traditional belief The chapters reflect the varied origins of the contributors Icelanders are well represented as are scholars based in Orkney and Shetland indicating the strength of scholarship in these seemingly isolated archipelagos Peripheral they may be to the UK but they lie at the heart of the North Atlantic at the intersection of British and Nordic cultures This book will be of interest to scholars of a wide range of disciplines such as those involved in island studies cultural studies Old Norse literature Icelandic studies maritime heritage oceanography linguistics folklore British studies ethnology and archaeology Similarly it will also appeal to researchers from a wide geographical area particularly the UK and Scandinavia and indeed anywhere where there is an interest in the study of islands or the North Atlantic

Ablauf eines Initial Public Offering an einer deutschen Börse und die Rolle des Abschlussprüfers Yu-Hui Liu, 2013-02 Das Initial Public Offering IPO d h die Erstemission von Aktien im Rahmen eines Börsengangs ist ein komplexer und zeitaufwendiger Prozess der nicht immer erfolgreich verläuft Ein Beispiel dafür ist der gescheiterte Börsengang der Evonik Industries AG im Juni 2012 Die Komplexität ist zum einen bedingt durch die hohe Anzahl der Maßnahmen die für ein erfolgreiches IPO unerlässlich sind und zum anderen durch das Zusammenwirken verschiedener Akteure deren Kooperation entsprechend koordiniert werden muss Als einer der beteiligten Akteure ist der Abschluss bzw Wirtschaftsprüfer zu nennen der an der Berichterstattung der Börsenreife an der Due Diligence und an der Erstellung des

Wertpapierprospekts beteiligt ist. Zu seinem Aufgabenbereich kann des Weiteren die Durchführung einer Unternehmensbewertung im Rahmen der Emissionspreisbestimmung gehören. Mithin ist der Abschlussprüfer ein wesentlicher Partner des Borsenaspiranten. Der Untersuchungsgegenstand der vorliegenden Arbeit liegt in den einzelnen Maßnahmen des IPO-Prozesses, wobei insbesondere die jeweiligen Funktionen des Wirtschaftsprüfers in den Blick genommen werden. In Kapitel 2 werden zunächst die konzeptionellen Maßnahmen eines IPO diskutiert. Kapitel 3 widmet sich den verschiedenen Schwerpunkten der Due Diligence, die für einen Börsengang relevant sind. Sodann werden in Kapitel 4 die zu erstellenden Dokumente für die Börseneinführung erläutert. Im Mittelpunkt steht dabei der Wertpapierprospekt. Die Bestimmung des Emissionspreises wird in Kapitel 5 erörtert. In diesem Zusammenhang wird auch das Phänomen des Underpricing erläutert. Abschließend wird in Kapitel 6 ein Fazit gezogen.
