Higher Education, 2023-11-02 COVID wrought havoc on the world's economic systems Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals in their educational delivery systems Some institutions were prepared for the required transition to online learning Most were not Whether prepared or not educators rose to the challenge The innovativeness of educators met the challenges as digital learning replaced the face to face environment In fact some of the distance models proved so engaging that many students no longer desire a return to the face to face model As with all transitions some things were lost while others were gained This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century The book is organized into four sections on Perils and Promises The State of Online Education Goals and Challenges of Online Learning and Innovations in the Age of COVID It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process These discussions shed light on the impact of the pandemic and the future of higher education post COVID Higher education has been forever changed and higher education as it once was may never return While many questions arise the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic

The Rise of the Radical Right in the Global South Rosana Pinheiro-Machado, Tatiana Vargas-Maia, 2023-05-31 The Rise of the Radical Right in the Global South is the first academic study adopting an interdisciplinary and international perspective to offer a comprehensive and groundbreaking framework for understanding the emergence and consolidation of different radical right movements in Global South countries in the twenty first century From deforestation and the anti vaccine movement in Bolsonaro's Brazil to the massacre of religious minorities in Modi's India the rise of the radical right in the Global South is in the news every day Not long ago some of these countries were globally celebrated as emerging economies that consolidated vibrant democracies Nonetheless they never overcame structural problems including economic inequality social violence cultural conservatism and political authoritarianism Featuring case studies from Brazil India the Philippines and South Africa and more generally from Africa and Latin America this book analyses future scenarios and current alternatives to this political movement to the radical right It proposes a shift of focus in examining such a trend

adopting a view from the Global South conventional theoretical tools developed around the experience in Global North countries are not enough The authors show that the radical right in the Global South should be analysed through specific lenses considering national historical patterns of political and economic development and instability They also warn that researching these countries may differ from contexts where democratic institutions are more reliable This does not mean abandoning a transnational understanding of the radical right rather it calls for the opposite the chapters examine how the radical right is invented adapted modified and resisted in specific regions of the globe This volume will be of interest to all those researching the radical right and the politics of development and the Global South *Fees Must Fall* Susan

Booyesen, 2016-10-01 This book explores the student discontent a year after the start of the 2015 South African FeesMustFall revolt FeesMustFall the student revolt that began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa More broadly it radically questioned the socio political dispensation resulting from the 1994 social pact between big business the ruling elite and the liberation movement The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left Yet its objectives are more complex than those of earlier struggles The student movement has challenged the hierarchical top down leadership system of university management and its double speak of professing to act in workers and students interests yet entrenching a regressive system for control and governance University managements while on one level amenable to change have also co opted students into their ranks to create co responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution This book maps the contours of student discontent a year after the start of the FeesMustFall revolt Student voices dissect colonialism improper compromises by the founders of democratic South Africa feminism worker rights and meaningful education In depth assessments by prominent scholars reflect on the complexities of student activism its impact on national and university governance and offer provocative analyses of the power of the revolt **Widening Higher Education Participation** Mahsood Shah, Anna

Bennett, Erica Southgate, 2015-10-19 Governments have introduced policies to widen the participation of disadvantaged students in higher education Widening participation policies are also introduced to ensure that higher education contributes to social and economic outcomes This book includes important insights from 23 leading scholars across 11 countries on a wide range of topics that focus on government policies institutional structures and the social and economic impacts of widening participation While widening participation policies and outcomes in developed countries are more widely documented the policies achievements and challenges in other countries such as Brazil China Indonesia South Africa and Palestine are not so widely disseminated Therefore the untold stories of policies and outcomes of widening participation are a key part of this book The chapters are organised according to three overarching themes which include national and transnational studies of the history of widening participation and current policies inclusive learning and academic outcomes

and socioeconomic structures concepts and theories Engages prominent academics earlier career researchers and research students Provides a wide range of topics related to widening participation Explores social and economic impact of widening student participation Presents untold stories of widening participation in developing countries experiencing growth in youth population

South Africa Can Work Frans Rautenbach, 2017-08-18 What will it take to turn South

Africa around In this insightful and provocative book Frans Rautenbach proposes a complete overhaul of policy thinking and provides fresh arguments that effectively address South Africa's unemployment, race problems and lack of education. Rautenbach examines the fundamental problem of rent seeking to which he proposes two antidotes: the free market and decentralisation of government. Along the way he tackles holy cows such as affirmative action, trade unions, labour law and welfare payments. He also addresses contentious topics such as racism, white privilege, political correctness, state funding of higher education and mounting evidence that trade unions substantially suppress employment growth. Written by a labour lawyer with a proven track record in a range of policy issues, *South Africa Can Work* speaks effectively to a cross section of readers of all disciplines and brings sorely needed good news. *Financing Higher Education Worldwide* D. Bruce Johnstone, Pamela N. Marcucci, 2010-06-07 No issue in higher education is as salient or as controversial as finance. As demand for higher education around the world grows, so do the costs associated with it, especially as governments shoulder less of the burden. Tuition fees rise and student loan debt grows. Who pays for these surging costs? Who should pay? D. Bruce Johnstone and Pamela N. Marcucci examine the universal phenomenon of cost sharing in higher education where financial responsibility shifts from governments and taxpayers to students and families. They find that growing costs for education far outpace public revenue streams that once supported it. Even with financial aid and scholarships defraying some of these costs, students are responsible for a greater share of the cost of higher education. Featuring comprehensive economic and policy data, the authors' international comparative approach shows how economically diverse countries all face similar cost sharing challenges. So, who should pay for higher education? While cost sharing is both politically and ideologically debated, Johnstone and Marcucci contend that for almost all countries it is imperative for the financial health of colleges and universities, bringing better efficiency, equity and responsiveness. *Financing Higher Education Worldwide* combines sophisticated economic explanations with sensitive political and cultural analyses of the financial pressures facing higher education throughout the world. **OECD Development Policy Tools: Evidence-based Policy Making for Youth Well-being A Toolkit** OECD, 2017-10-17 With 1.2 billion people today, the youth population aged 15-24 represents the largest cohort ever to enter the transition to adulthood. Close to 90% of these young people live in developing countries and the numbers will practically double in the least developed countries. QUALITY OF LIFE SURVEY V (2017/18) THE QUALITY OF LIFE OF STUDENTS IN GAUTENG Christian Hamann, Kate Joseph, 2020-07-29 GCRO Data Brief on quality of life of students **Education and Leadership** Tom Claes, Frank McMahon, David Seth Preston, 2008 This truly international book brings together authors from different regions of the world including North America, South Africa, Europe, Iran and Russia, all of whom are concerned with aspects of the challenges involved in the expansion of higher education, both in student numbers and areas of study. Some are concerned about the loss of guiding principles which steered university education for centuries. The traditional purposes of higher education have come under such pressure that we have achieved conflicting models of the

university Claes and ambiguity in regard to teaching and research Simons et al For others the problems are at a different stage Contributions from South Africa look at three challenges Can we provide enough places in higher education How do we deal with institutional mergers How do we make staff development effective in a situation in which English is the first language of less than five percent of the staff Young scholars in Russian regions face formidable hurdles in achieving academic careers while the best law graduates in Canada are faced with the ethical dilemma of personal career advancement or social justice Topsakal The problem of integrating nursing into a traditional Irish university is reviewed by Grant while the role of a university in regional development is addressed from a Greek perspective by Papaelias et al The comparative international approach features in research into teacher job satisfaction in India and Iran while McMahon reviews the impact of the Bologna Process
