Widening Higher Education Participation Mahsood Shah, Anna Bennett, Erica Southgate, 2015-10-19

Governments have introduced policies to widen the participation of disadvantaged students in higher education. Widening participation policies are also introduced to ensure that higher education contributes to social and economic outcomes. This book includes important insights from 23 leading scholars across 11 countries on a wide range of topics that focus on government policies, institutional structures, and the social and economic impacts of widening participation. While widening participation policies and outcomes in developed countries are more widely documented, the policies, achievements, and challenges in other countries such as Brazil, China, Indonesia, South Africa, and Palestine are not so widely disseminated. Therefore, the untold stories of policies and outcomes of widening participation are a key part of this book. The chapters are organised according to three overarching themes which include national and transnational studies of the history of widening participation and current policies, inclusive learning and academic outcomes, and socioeconomic structures, concepts, and theories. Engages prominent academics, earlier career researchers, and research students. Provides a wide range of topics related to widening participation. Explores social and economic impact of widening student participation. Presents untold stories of widening participation in developing countries experiencing growth in youth population.

Knowledge Beyond Colour Lines Monwabisi K. Ralarala, Salochana Lorraine Hassan, Rajani Naidoo, 2021-05-25 Knowledge remains timely in education. The need for academics to contemplate its relevance, worth, use, and everything in between, deems a continuous intellectual project rather than a conundrum to be solved. This book takes the South African context by the horns as it challenges the often dormant and traditionalist ways in which higher education spaces see knowledge. Through original research and the voices of academics and students, this book argues for repurposing knowledge, generation, knowledge sharing, and critical pedagogy so that more inclusive teaching and learning environments can be both imagined and sustained. The contentious tensions that this creates for LoLT and SoTL in particular are unlocked so as to trouble the South African higher education landscape with the intent to proffer alternative pathways for a knowledge beyond colour lines. Prof Shan Simmonds PhD NWU. This edited volume bristles with fresh scholarly approaches and insights of an emergent generation of engaged scholars grappling with the issues and problems of higher education in South Africa. The issues dealt with here are varied and encompassing. They are treated with intellectual delicacy and probing sensitivity, articulation informed data, and bold conclusions. They serve well. Prof Kwesi Kwaa Prah, Emeritus Professor of Sociology, University of the Western Cape, Founder of the Centre for Advanced Studies of African Society. *Transforming Universities in South Africa*, 2020-08-31. The idea of transformation in higher education underpins all policy documents, academic literature, and on-going debates in South Africa. *Transforming Universities in South Africa: Pathways to Higher Education Reform* responds to the pressing need to comprehensively review the post-apartheid experience and assess where South Africa's higher education stands across the continent and globally, particularly within the country's efforts to overcome decades of socio-economic imbalances. It addresses the question of whether South Africa's transformation strategy from apartheid to democracy was

simply a symbolic new flag raising and new anthem singing exercise reflecting a transition akin to those limited decolonization projects elsewhere in the world or whether something more fundamental was possible and was achieved with political and policy implications for other countries in Africa and globally This volume s ultimate purpose is to provide a basis for imagining new futures in which South Africa higher education in the context of Africa and the global world takes centre stage
