Vaclav Havel Open Letters Selected Prose 1965 1990:

Open Letters Václav Havel, 1991 Spanning twenty five years this historic collection of writings shows Vaclav Havel's evolution from a modestly known playwright who had the courage to advise and criticize Czechoslovakia's leaders to a newly elected president whose first address to his fellow citizens begins I assume you did not propose me for this office so that I too would lie to you Some of the pieces in Open Letters such as Dear Dr Husak and the essay The Power of the Powerless are by now almost legendary for their influence on a generation of Eastern European dissidents others such as some of Havel's prison correspondence and his private letter to Alexander Dubcek appear in English for the first time All of them bear the unmistakable imprint of Havel's intellectual rigor moral conviction and unassuming eloquence while standing as important additions to the world's literature of conscience From the Trade Paperback edition Open Letters Václav Havel, Paul Wilson, 1991-01

The Garden Party and Other Plays Václav Havel, 1993 Gathered together here for the first time are seven plays that span Havel's career from his early days at the Theater of the Balustrade through the Prague Spring Charter 77 and the repeated imprisonments that made Havel's name into a rallying cry and propelled him to the leadership of his country They include The Garden Party The Increased Difficulty of Concentration Mistake the Vanek trilogy of Audience Unveiling and Protest and the first fully corrected English version of The Memorandum the play that won Havel the Obie for Best Foreign Play in 1968

'Diese merkwürdige Kleinigkeit einer Vision' David Clarke, 2021-11-15 Christoph Hein is one of the best known authors of the former GDR and his works of fiction have been widely interpreted as responses to and critiques of socialist society In this study David Clarke undertakes a detailed analysis of all of Christoph Hein's major works of fiction from *Der fremde Freund* 1928 to *Willenbrock* 2000 in order to explore Hein's critique of the GDR regime whilst also demonstrating how aspects of that critique provided a starting point for Hein's rejection of capitalism both before and after German unification For Hein socialism had failed to make good its promise to create a community bound together by common values and goals preferring instead to impose conformity upon its citizens Capitalism he believed was equally unable to meet the need for community and Hein sought to demonstrate the consequences of this state of affairs in the figure of W rle in his first post unification novel *Das Napoleon Spiel* 1993 After this point Clarke argues Hein was nevertheless forced to re-examine his criticism of capitalism a process which ultimately led to the more differentiated and convincing portrayal to be found in *Willenbrock*

Dissidents in Communist Central Europe

Kacper Szulecki, 2019-09-03 This monograph traces the history of the dissident as a transnational phenomenon exploring Soviet dissidents in Communist Central Europe from the mid 1960s until 1989 It argues that our understanding of the transnational activist would not be what it is today without the input of Central European oppositionists and ties the term to the global emergence and evolution of human rights The book examines how we define dissidents and explores the association of political resistance to authoritarian regimes as well as the impact of domestic and international recognition of the dissident figure Turning to literature to analyse the meaning and impact of the dissident label the book also incorporates interviews and primary accounts from former activists Combining a unique theoretical approach with new empirical material this book will appeal to students and scholars of contemporary history politics and culture in Central Europe

Symbolism

and Politics Graeme Gill, Luis F. Angosto-Ferrandez, 2020-05-21 Symbolism and Politics is a timely intervention into ongoing debates around the function of political symbols in a historical period characterized by volatile electoral behaviour fragmented societies in search of collective identifications and increasingly polarized political models Symbols are central features of organized human life helping to define perception shaping the way we view the world and understand what goes on within it But despite this key role in shaping understanding there is never a single interpretation of a symbol that everyone within the community will accept and the way in which symbols can mobilize antagonistic political factions demonstrates that they are as much a central element in power struggles as they are avenues to facilitate processes of identification This dual potential is the object of discussion in the chapters of this book which sheds new light on our understanding of the political function of symbols in a historical period Symbolism and Politics will be of great interest to scholars working on Political Symbols Nationalism Regime Change and Political Transitions The chapters originally published as a special issue of Politics Religion Ideology

responsibility The book contributes to our understanding of both the extreme circumstances of oppression and to the subversive uses of oppression in modern liberal democracy **Civil Society in Central and Eastern Europe**

Sabine,2014-04-15 As well as promoting debates about liberal democracy the dramatic events of 1989 also bought forth a powerful revival in the interest of the notion of civil society This revival was reflected mainly in two broad tracts of literature The first was primarily focused on the events surrounding the Solidarity movement in Poland and the tumultuous events of 1980 81 The second was concerned with the Velvet Revolutions more broadly Following the events of 1989 there appeared a number of works sharing the common central argument that civil society played a key role in the overthrow of these Communist regimes in 1989 Challenging the centrally accepted wisdom that dissent in totalitarian regimes was representative of civil society Civil Society and Communism posits the argument that the totalitarian public sphere a new theoretical typology presents a more robust and rigorous way by which to understand dissent and opposition in totalitarian Czechoslovakia Poland and the GDR **Caring for the Soul in a Postmodern Age** Edward F. Findlay,2012-02-01 In 1977

the sixty nine year old Czech philosopher Jan Pato ka died from a brain hemorrhage following a series of interrogations by the Czechoslovak secret police A student of Husserl and Heidegger he had been arrested along with young playwright V clav Havel for publicly opposing the hypocrisy of the Czechoslovak Communist regime Pato ka had dedicated himself as a philosopher to laying the groundwork of what he termed a life in truth This book analyzes Pato ka s philosophy and political thought and illuminates the synthesis in his work of Socratic philosophy and its injunction to care for the soul In bridging the gap not only between Husserl and Heidegger but also between postmodern and ancient philosophy Pato ka presents a model of democratic politics that is ethical without being metaphysical and transcendental without being foundational *Cunning*

Donald Herzog,2008-03-17 Want to be cunning You might wish you were more clever more flexible able to cut a few corners without getting caught to dive now and again into iniquity and surface clutching a prize You might want to roll your eyes at those slaves of duty who play by the rules Or you might think there s something sleazy about that stance even if it does seem to pay off Does that make you a chump With pointedly mischievous prose Don Herzog explores what s alluring and what s revolting in cunning He draws on a colorful range of sources tales of Odysseus texts from Machiavelli pamphlets from early modern England salesmen s newsletters Christian apologetics plays sermons philosophical treatises detective novels famous infamous and obscure historical cases and more The book is in three parts bookended by two murderous churchmen Dilemmas explores some canonical moments of cunning and introduces the distinction between knaves and fools as a time honored but radically deficient scheme Appearances assails conventional approaches to unmasking Surveying ignorance and self deception Despair deepens the case that we ought to be cunning and then sees what we might say in response Throughout this beguiling book Herzog refines our sense of what s troubling in this terrain He shows that rationality social roles and morality are tangled together and trickier than we thought *The One, the Three and the Many* Colin E.

Gunton,1993-07-29 This study offers a theological analysis of and response to the modern world and is at once a theology of culture and of creation In the first half of the book Gunton expounds some of the distinctive and often contradictory features of modern culture It emerges that modern culture far from being unique in its difficulties reflects similar inadequacies in ancient thought The distinctive pathos of modernity is to be found in one unique feature namely the displacement of God that is a mark of all realms of life The roots of the problem are sought beyond the Enlightenment where they are often located in the combination of platonism and Christian theology which dominated medieval Christian thought At the heart of the matter is a deficient because of an inadequately trinitarian understanding of creation and creation s God The second half of the book develops a powerful theology of creation where due weight can be given to both universal and particular both society and the individual

Attention Deficit Democracy Ben Berger, 2011-09-11 The author argues that civic engagement has become a confusing catchall and that we should talk instead of political social and moral engagement figuring out which kinds of engagement make democracy work better and how we might promote them Focusing on political engagement and taking Alexis de Tocqueville and Hannah Arendt as his guides he identifies ways to achieve the political engagement we want and need without resorting to coercive measures such as compulsory national service or mandatory voting
