Chapter Seven: Creating Web Applications

A Guide to this Instructor's Manual:

We have designed this Instructor's Manual to supplement and enhance your teaching experience through classroom activities and a cohesive chapter summary.

This document is organized chronologically, using the same heading in **red** that you use in the textbook. Under each heading you will find the author's Lecture Notes that summarize the sections, Figures and Screenshots in the sections, if any, Teacher Tips, Classroom Activities, and Lab Activities. Pay special attention to teaching tips, and activities geared towards guiding your students, enhancing their critical thinking skills, and encouraging experimentation within the software.

In addition to this Instructor's Manual, our Instructor's Resources CD also contains PowerPoint Presentations, Test Banks, and other supplements to add to your teaching experience.

For your students:

Our Visual Basic features CourseCards, is a library of weekly posts specifically designed to keep your students up-to-date with the latest in technology news. Direct your students to <http://courses.cengage.com>, where they can download the most recent CourseCard onto their mail player. Ken Berkland, head of CourseCards, is a faculty member of the Florida State University Computer Science Department where he is responsible for teaching technology classes to thousands of FSCJ students each year. Ken is an expert in the latest technology and works through and aggregates the most pertinent news and information for CourseCards so your students can spend their time enjoying technology, rather than trying to figure it out.
