Vivendi Annual Report 2004:

From Corporate to Social Media Marisol Sandoval, 2014-03-05 The corporate and the social are crucial themes of our times. In the first decade of the twenty-first century, both individual lives and society were shaped by capitalist crisis and the rise of social media. But what marks the distinctively social character of social media? And how does it relate to the wider social and economic context of contemporary capitalism? The concept of Corporate Social Responsibility (CSR) is based on the idea that a socially responsible capitalism is possible; this suggests that capitalist media corporations can not only enable social interaction and cooperation but also be socially responsible. This book provides a critical and provocative perspective on Corporate Social Responsibility (CSR) in media and communication industries. It examines both the academic discourse on CSR and actual corporate practices in the media sector, offering a double critique that reveals contradictions between corporate interests and social responsibilities. Marisol Sandoval's political economic analysis of Apple, AT&T, Google, HP, Microsoft, News Corp, The Walt Disney Company, and Vivendi shows that media and communication in the twenty-first century are confronted with fundamental social responsibility challenges. From software patents and intellectual property rights to privacy on the Internet, from working conditions in electronics manufacturing to hidden flows of eWaste, this book encourages the reader to explore the multifaceted social responsibilities that shape commercial media landscapes today. It makes a compelling argument for thinking beyond the corporate in order to envision and bring about truly social media. It will interest students and scholars of media studies, cultural industry studies, sociology, information society studies, organization studies, political economy, business, and management.

Creativity and Innovation in the Music Industry Peter

Tschmuck, 2006-01-18 This book charts the effects of new communication technologies and the Internet on the creation of music in the early 21st century. It examines how the music industry will be altered by the Internet, music online services, and MP3 technology. This is done through an integrated model based on an international history of the industry since the phonograph's invention in 1877, and thus the history of the music industry is described in full detail for the first time.

Globalization and American Popular Culture Lane Crothers, 2007 This concise and insightful book examines the way that American movies, music, and television—as goods marketed and consumed around the world—are key elements of contemporary globalization. Lane Crothers offers a nuanced exploration of these influential cultural products and their contradictory impact: in some cases promoting a desire for integration into the broader world community, in others generating disgust and outright rejection. Concluding with a projection of the future influence of American popular media, this book makes a powerful argument for its central role in shaping global politics and economic development.

Cultures and Globalization Helmut K. Anheier, Yudhishtir Raj Isar, 2008-09-17 The world's cultures and their forms of creation, presentation, and preservation are deeply affected by globalization in ways that are inadequately documented and understood. The Cultures and Globalization series is designed to fill this void in our knowledge. In this series, leading experts and

emerging scholars track cultural trends connected to globalization throughout the world resulting in a powerful analytic tool kit that encompasses the transnational flows and scapes of contemporary cultures Each volume presents data on cultural phenomena through colourful innovative information graphics to give a quantitative portrait of the cultural dimensions and contours of globalization This second volume The Cultural Economy analyses the dynamic relationship in which culture is part of the process of economic change that in turn changes the conditions of culture It brings together perspectives from different disciplines to examine such critical issues as the production of cultural goods and services and the patterns of economic globalization the relationship between the commodification of the cultural economy and the aesthetic realm current and emerging organizational forms for the investment production distribution and consumption of cultural goods and services the complex relations between creators producers distributors and consumers of culture the policy implications of a globalizing cultural economy By demonstrating empirically how the cultural industries interact with globalization this volume will provide students of contemporary culture with a unique indispensable reference tool

Digital Music Wars Patrick Burkart, Tom McCourt, 2006-02-24 With the rising popularity of online music the nature of the music industry and the role of the Internet are rapidly changing Rather than buying records tapes or CDs_in other words full length collections of music_music shoppers can as they have in earlier decades purchase just one song at a time It s akin to putting a coin into a diner jukebox_except the jukebox is in the sky or more accurately out in cyberspace But has increasing copyright protection gone too far in keeping the music from the masses Digital Music Wars explores these transformations and the far reaching implications of downloading music in an in depth and insightful way Focusing on recent legal corporate and technological developments the authors show how the online music industry will establish the model for digital distribution cultural access and consumer privacy Music lovers and savvy online shoppers will want to read this book as will students and researchers interested in new media and the future of online culture

Why TV Is Not Our Fault Eileen R. Meehan, 2005-11-03 For more than five decades we've been told by pundits commentators advertisers scholars and politicians that television is both a window on the world and a mirror reflecting our culture We've been led to believe that it shows us the world's events through news programs and through entertainment programs reflects the preferences values beliefs and understandings shared by most Americans We're told that if you don't like what you see on TV don't blame the industry blame yourself This book dispels the myth that the television industry is just giving viewers the programming they want to see and thus we as viewers are responsible for the existence of shows like Fear Factor and yet another Survivor In fact Eileen Meehan explains viewers exert no demand in the market for ratings advertising slots program production or telecasting She also counters the idea that TV programs reflect our culture directly Introducing us to the political economy of television Meehan covers programming corporate strategies advertising the misnomer of competition among networks and organizations that seek more industry accountability She tells us why TV isn't our fault_ and who's really to blame

Big Media, Big Money Ronald V. Bettig, Jeanne Lynn Hall, 2012-05-04 Big Media Big Money is a lively and scathing critique of the contemporary communications industry examining how media ownership and the profit making motive affect the messages we receive in alarming ways Through close readings of recent news events and critical examination of corporate influence Bettig and Hall conclude that current interconnections among media big business government and education pose a serious threat to democratic communications The second edition includes three new chapters covering the contemporary Hollywood film industry the changing landscape of the music industry and ad creep the proliferation of advertising into previously ad free venues such as schools and children's television programming

Annual Report International Centre for Settlement of Investment Disputes, 2005

Handbook of Frauds, Scams, and Swindles Serge Matulich, David M. Currie, 2017-07-27 It has been said that scammers and swindlers often display characteristics commonly attributed to good leadership These include setting a vision communicating it clearly and motivating others to follow their lead But when these skills are used by unconscionable people to satisfy greed how can the average person recognize that foul play is afoot

De-convergence of Global Media

Industries Dal Yong Jin, 2013 Convergence has become a buzzword referring on the one hand to the integration between computers television and mobile devices or between print broadcast and online media and on the other hand the ownership of multiple content or distribution channels in media and communications Yet while convergence among communications companies has been the major trend in the neoliberal era the splintering of companies de convergence is now gaining momentum in the communications market As the first comprehensive attempt to analyze the wave of de convergence of the global media system in the context of globalization this book makes sense of those transitions by looking at global trends and how global media firms have changed and developed their business paradigm from convergence to de convergence Jin traces the complex relationship between media industries culture and globalization by exploring it in a transitional yet contextually grounded framework employing a political economic analysis integrating empirical data analysis **Global Experience**

Industries Jens Christensen, 2009-08-30 The experience economy is a fourth economic field different from commodities goods and services Experiences are an economic value added to a product or identical with the product When you buy an experience you pay to spend time enjoying a series of memorable events that a company stages to engage the customer in a personal way The experience dimension has moved into a predominant place since the 1990s fueled by an expanding global and digital economy In developed countries people get richer and more individualized and having met all basic material needs they focus increasingly on personal development and self realization Demand for experience based products increases such as tourism and sports as well as film music and other contents of media and interactive technologies Furthermore the demand for experience values is extended to include any product and dimension of modern societies such as the design of houses furniture clothes cars computers etc This is not a completely new story Commercial entertainment and design has been around for a century or so And in addition universal values of love sex belief family and the meaning of life have always been vital to human beings What is new is the fact that capitalism is invading more and more fields of experiences connected with emotions and the extension of life proportions In all developed countries and increasingly on a global scale a series of expanding industries have emerged to supply the market with experience oriented goods In this book the business development of markets and industries is covered from tourism to media and entertainment and from design to sex including leading companies and trends in all industries involved
