Sign Languages of the World Julie Bakken Jepsen,Goedele De Clerck,Sam Lutalo-Kiingi,William B. McGregor,2015-10-16 Although a number of edited collections deal with either the languages of the world or the languages of particular regions or genetic families only a few cover sign languages or even include a substantial amount of information on them This handbook provides information on some 38 sign languages including basic facts about each of the languages structural aspects history and culture of the Deaf communities and history of research This information will be of interest not just to general audiences including those who are deaf but also to linguists and students of linguistics By providing information on sign languages in a manner accessible to a less specialist audience this volume fills an important gap in the literature

Ferguson Career Resource Guide for People with Disabilities, Third Edition, 2-Volume Set ,2009 Each two volume book contains four major sections Introduction and Overview Provides forewords by notables in the field and an outline of the book Essays Features eight to 10 essays on topics such as workplace issues financial aid diversity and more Directory Contains descriptions and contact information for hundreds of organizations schools and associations arranged by topic Further Resources Indexes Includes glossaries appendixes further reading and indexes

The Praeger International Handbook of Special Education Michael L. Wehmeyer,James R. Patton,2017-06-15 This handbook provides a concise overview of special education services in countries across the world using the Article on Education in the United Nations Convention on the Rights of Persons with Disabilities as the analytical frame The Praeger International Handbook of Special Education presents a concise and clear overview of special education services in more than 70 countries across the world using the Article on Education in the United Nations Convention on the Rights of Persons with disabilities as the analytical frame Each chapter offers information about the country in general followed by sections on the public education system the private education system the special

education system teacher training requirements and barriers to and promising trends in inclusive and special education The volumes and chapters are organized by the United Nations Geoscheme with Volume 1 including an overview of the volumes and chapters on countries in the Americas Volume 2 addressing countries from Europe and Africa and Volume 3 focusing on countries in Asia and Oceania This is the most complete exploration of the delivery of supports and services to children and youth with disabilities across the globe available The volumes do not compare among or between countries but rather provide a baseline for understanding current special education practices and their relationship with general education and inclusive practices across the globe Readers will come away with an in depth understanding of what is happening with regard to the implementation of special education services and Article 24 of the Convention for the Rights of People with Disabilities This valuable reference set serves researchers graduate students and policymakers in special and general education as well as professionals focused on issues of education worldwide and scholars focused on international special education As such this handbook will be an important reference source for university libraries professional associations and policy entities

Spoken Corpora and Linguistic Studies Tommaso Raso, Heliana Mello, 2014-11-14 The authors of this book share a common interest in the following topics the importance of corpora compilation for the empirical study of human language the importance of pragmatic categories such as emotion attitude illocution and information structure in linguistic theory and a passionate belief in the central role of prosody for the analysis of speech Four distinct sections spoken corpora compilation spoken corpora annotation prosody and syntax and information structure give the book the structure in which the authors present innovative methodologies that focus on the compilation of third generation spoken corpora multilevel spoken corpora annotation and its functions and additionally a debate is initiated about the reference unit in the study of spoken language via information structure The book is accompanied by a web site with a rich array of audio video files The web site can be found at the following address DOI 10.1075/scl.61.media
