have also co-opted students into their ranks to create co-responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution. This book maps the contours of student discontent a year after the start of the FeesMustFall revolt. Student voices dissect colonialism, improper compromises by the founders of democratic South Africa, feminism, worker rights and meaningful education. In-depth assessments by prominent scholars reflect on the complexities of student activism, its impact on national and university governance and offer provocative analyses of the power of the revolt.

Student Politics in Africa Luescher, Thierry M., Klemencic, Manja, 2016-05-12. The second volume of the African Higher Education Dynamics Series brings together the research of an international network of higher education scholars with interest in higher education and student politics in Africa. Most authors are early career academics who teach and conduct research in universities across the continent and who came together for a research project and related workshops and a symposium on student representation in African higher education governance. The book includes theoretical chapters on student organising, student activism and representation, chapters on historical and current developments in student politics in Anglophone and Francophone Africa and in-depth case studies on student representation and activism in a cross-section of universities and countries. The book provides a unique resource for academics, university leaders and student affairs professionals as well as student leaders and policy makers in Africa and elsewhere.

Financing Higher Education Worldwide D. Bruce Johnstone, Pamela N. Marcucci, 2010-06-07. No issue in higher education is as salient or as controversial as finance. As demand for higher education around the world grows, so do the costs associated with it, especially as governments shoulder less of the burden. Tuition fees rise and student loan debt grows. Who pays for these surging costs? Who should pay? D. Bruce Johnstone and Pamela N. Marcucci examine the universal phenomenon of cost sharing in higher education where financial responsibility shifts from governments and taxpayers to students and families. They find that growing costs for education far outpace public revenue streams that once supported it. Even with financial aid and scholarships defraying some of these costs, students are responsible for a greater share of the cost of higher education. Featuring comprehensive economic and policy data, the authors' international comparative approach shows how economically diverse countries all face similar cost sharing challenges. So, who should pay for higher education? While cost sharing is both politically and ideologically debated, Johnstone and Marcucci contend that for almost all countries it is imperative for the

Higher Education , 2023-11-02 COVID wrought

havoc on the world's economic systems. Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals in their educational delivery systems. Some institutions were prepared for the required transition to online learning. Most were not. Whether prepared or not, educators rose to the challenge. The innovativeness of educators met the challenges as digital learning replaced the face-to-face environment. In fact, some of the distance models proved so engaging that many students no longer desire a return to the face-to-face model. As with all transitions, some things were lost while others were gained. This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century. The book is organized into four sections: Perils and Promises, The State of Online Education, Goals and Challenges of Online Learning, and Innovations in the Age of COVID. It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process. These discussions shed light on the impact of the pandemic and the future of higher education post-COVID. Higher education has been forever changed, and higher education as it once was may never return. While many questions arise, the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic.

The Rise of the Radical Right in the Global South Rosana Pinheiro-Machado, Tatiana Vargas-Maia, 2023-05-31. *The Rise of the Radical Right in the Global South* is the first academic study adopting an interdisciplinary and international perspective to offer a comprehensive and groundbreaking framework for understanding the emergence and consolidation of different radical right movements in Global South countries in the twenty-first century. From deforestation and the anti-vaccine movement in Bolsonaro's Brazil to the massacre of religious minorities in Modi's India, the rise of the radical right in the Global South is in the news every day. Not long ago, some of these countries were globally celebrated as emerging economies that consolidated vibrant democracies. Nonetheless, they never overcame structural problems including economic inequality, social violence, cultural conservatism, and political authoritarianism. Featuring case studies from Brazil, India, the Philippines, and South Africa, and more generally from Africa and Latin America, this book analyses future scenarios and current alternatives to this political movement to the radical right. It proposes a shift of focus in examining such a trend, adopting a view from the Global South. Conventional theoretical tools developed around the experience in Global North countries are not enough. The authors show that the radical right in the Global South should be analysed through specific lenses considering national historical patterns of political and economic development and instability. They also warn that researching these countries may differ from contexts where democratic institutions are more reliable. This does not mean abandoning a transnational understanding of the radical right; rather, it calls for the opposite. The chapters examine how the radical right is invented, adapted, modified, and resisted in specific regions of the globe. This volume will be of interest to all those researching the radical right and the politics of

development and the Global South **Going to University. The Influence of Higher Education on the Lives of Young South Africans** Jennifer Case, Delia Marshall, 2018-02-09 Around the world more young people than ever before are attending university Student numbers in South Africa have doubled since democracy and for many families higher education is a route to a better future for their children But alongside the overwhelming demand for higher education questions about its purposes have intensified Deliberations about the curriculum culture and costing of public higher education abound from student activists academics parents civil society and policy makers We know from macro research that South African graduates generally have good employment prospects But little is known at a detailed level about how young people actually make use of their university experiences to craft their life courses And even less is known about what happens to those who drop out This accessible book brings together the rich life stories of 73 young people six years after they began their university studies It traces how going to university influences not only their employment options but also nurtures the agency needed to chart their own way and to engage critically with the world around them The book offers deep insights into the ways in which public higher education is both a private and public good and it provides significant conclusions pertinent to anyone who works in and cares about universities **The Youth Dividend** Jan H. Hofmeyr, 2012 [OECD Development Policy Tools Evidence-based Policy Making for Youth Well-being A Toolkit](#) OECD, 2017-10-17 With 1 2 billion people today s youth population aged 15 24 represents the largest cohort ever to enter the transition to adulthood Close to 90% of these young people live in developing countries and the numbers will practically double in the least developed countries *South Africa Can Work* Frans Rautenbach, 2017-08-18 What will it take to turn South Africa around In this insightful and provocative book Frans Rautenbach proposes a complete overhaul of policy thinking and provides fresh arguments that effectively address South Africa s unemployment race problems and lack of education Rautenbach examines the fundamental problem of rent seeking to which he proposes two antidotes the free market and decentralisation of government Along the way he tackles holy cows such as affirmative action trade unions labour law and welfare payments He also addresses contentious topics such as racism white privilege political correctness state funding of higher education and mounting evidence that trade unions substantially suppress employment growth Written by a labour lawyer with a proven track record in a range of policy issues *South Africa Can Work* speaks effectively to a cross section of readers of all disciplines and brings sorely needed good news **Routledge Handbook of African Social Work Education** Susan Levy, Uzoma Odera Okoye, Pius T. Tanga, Richard Ingram, 2024-06-06 This timely Routledge Handbook creates a much needed space to explore what makes social work uniquely African as well as shaping informing and influencing a new culturally relevant era of social work The specific focus on social work education offers approaches to transition away from the hegemony of Western literature knowledge and practice models underpinning African social work education The authors identify what is relevant and meaningful to inform influence and reconceptualise culturally relevant social work curriculum Covering Botswana

Cameroon Ethiopia Ghana Guinea Kenya Malawi Nigeria South Africa Tanzania Uganda Zambia and Zimbabwe the Handbook comprises both empirical and conceptual chapters multiple approaches case studies and key debates on social work education It is structured in four parts Approaches to Indigenising Decolonising and Developing Culturally Relevant Social Work Education Social Work Education Evolution across Contexts Embedding Field Practicum into Social Work Education Knowledge Exchange between the Global South and Global North The range of indigenous local knowledge that the Handbook presents is crucial to social work evolving and facilitating for reciprocal learning and knowledge exchange between the Global South and Global North Whilst the context of the Handbook is Africa the topics covered are relevant to a global audience engaged in social justice work across social work social welfare social development and sustainability
