Similarities Between Bursaries:

Achieving Equity and Quality in Higher Education Mahsood Shah, Jade McKay, 2018-07-05 Across the world higher education is witnessing exponential growth in both student participation and types of educational providers. One key phenomenon of this growth is an increase in student diversity; governments are widening access to higher education for students from traditionally underrepresented groups. However, this raises questions about whether this rapid growth may in fact compromise academic quality. This book presents case studies of how higher education institutions in diverse countries are maintaining academic excellence while increasing the access and participation of students from historically underrepresented backgrounds. Including case studies spanning four continents, the authors and editors examine whether increasing widening participation positively impacts upon academic quality. This volume will be of interest and value to students and scholars of global higher education, representation and participation in education, and quality in higher education.

Opposition, Repression, and Cold War Corina Snitar, 2021-03-01 Corina Snitar examines the student protests in Timisoara in 1956 following the Hungarian uprising of the same year. Snitar analyzes the students' demands regarding Soviet occupation, the situation in Hungary, and insufficient student accommodations. This book shows how the Hungarian revolt was the catalyst for opposition during a time of social duress. Snitar examines the methods of repression against real and imaginary opposition to the Communist rule and shows how the fates of students were tied to the political goals of the Romanian leadership.

Delivering and Evaluating Participation after Access Liz Austen, Colin McCaig, 2025-09-30 Delivering and Evaluating Participation after Access is a timely response to the rise in discussion about how Higher Education (HE) providers support participation for disadvantaged students in HE.
