This newly translated volume of the Collected Works of Marie Louise von Franz one of the most renowned authorities on fairytales presents a systematic and wide ranging approach Von Franz amplifies a variety of fairytale motifs to show that the magical realm is alien to the profane and mundane realm of ordinary daily life She was one of Analytical Psychology s most original thinkers and here she presents a lucid concise exploration of the archetypal symbols found in fairytales Fairytales like myths provide a cultural and societal backdrop that helps the human imagination narrate the meaning of life s events The remarkable similarities in fairytale motifs across different lands and cultures inspired many scholars to search for the original homeland of fairytales While peregrinations of fairytale motifs occur the common root of fairytales is more archetypal than geographic A striking feature of fairytales is that a sense of space time and causality is absent This situates them in a magical realm a land of the soul where the most interesting things happen in the center of places like Heaven mountains lakes and wells At the age of eighteen Marie Louise von Franz was invited to meet Carl Gustav Jung at Bolingen Tower She immediately recognized that there exist two levels of reality one outer and the other inner Within months she had enrolled at the University of Zurich and began attending Jung s lectures at the E T H Eidgenossische Technische Hochschule or the Swiss Federal Institute of Technology Less than a decade after meeting Jung von Franz had completed her doctorate in classical philology and begun seeing her first analysands She was a prolific writer a dedicated teacher and lecturer and was possessed of a far reaching and often non discriminating Eros that accepted everyone seeking help Alfred Ribi MD in *Fountain of the Love of Wisdom Chiron* 2006 **"My Novel"; In Four Volumes** Baron Edward Bulwer Lytton, 2025-08-19
