Judicial Interpretation of Tax Treaties is a detailed analytical guide to the interpretation of tax treaties at the national level. The book focuses on how domestic courts interpret and apply the OECD Commentary to OECD Model Tax Convention on Income and on Capital. Adopting a global perspective, the book gives a systematic presentation of the main interpretive proposals put forward by the OECD Commentary and analyses selected cases decided in domestic tax systems in order to assess whether and how such solutions are adopted through national judicial process and indeed which of these are of most practical value. The book operates on two levels: firstly, it sets out a clear and comprehensive framework of tax treaty law which will be an important tool for any tax practitioner. Secondly, the book provides crucial guidance on issues of tax treaty law as applied at domestic level such as investment or business income dispute resolution and administrative cooperation.

Nexus Issues United States. Congress. House. Committee on the Judiciary. Subcommittee on Regulatory Reform, Commercial and Antitrust Law, 2015 *Fundamentals of Transfer Pricing* Michael Lang, Giammarco Cotani, Raffaele Petruzzi, 2021-06-18. Transfer pricing is one of the most relevant and challenging topics in international taxation. Over the last century, nearly every country in the world introduced transfer pricing rules into their domestic legislation. Indeed, it was estimated that profit shifting generated by the improper application of transfer pricing rules has resulted in global tax losses worth USD 500 billion for governments, 20% of all corporate tax revenues. It is thus imperative that all tax professionals thoroughly understand the nature of transfer pricing and how the growing body of applicable rules works in practice. In this crucially significant volume, stakeholders from government, multinational companies, international organisations, advisory groups, and academia offer deeply informed perspectives, both general and specific, on the practical application of transfer pricing rules, taking into consideration all the most recent developments. With approximately 160 practical examples and 90 relevant international judicial precedents, the presentation proceeds from general to more specialised topics. Such aspects of the subject as the following are thoroughly analysed: what is transfer pricing and the purpose of transfer pricing rules; the arm's length principle and its application; the consequences of a transaction not being in accordance with the arm's length principle; the transfer pricing methods; the mechanisms to avoid and resolve disputes; the transfer pricing documentation; the attribution of profits to permanent establishments; the transfer pricing aspects of specific transactions such as services, financing, intangibles, and business restructurings. The application of transfer pricing legislation is arguably the most difficult task that taxpayers and tax authorities around the world must face. With this authoritative source of practical guidance,

government officials tax lawyers in house tax counsel academics advisory firms the business community and other stakeholders worldwide will have all the detail they need to move forward in tackling this thorny aspect of the current tax environment

unlikely theorist to figure prominently in any discussion of Black politics her concepts of world and worldlessness offer an indispensable framework for articulating a theory of resistance to chattel and carceral captivity Politics in Captivity begins by taking seriously the ways in which slavery and incarceration share important commonalities including historical continuity In Zuckerman's account of this commonality the point of connection between enslaved and incarcerated people is not exploited labor but rather resistance The relations between the rebellions of both groups appear in the writings of Muhammed Ahmad Angela Davis George Jackson Ruchell Magee and Assata Shakur a genre Zuckerman calls Black carceral political thought The insights of these thinkers and activists figure into Zuckerman's analyses of largescale uprisings and quotidian practices of resistance which she conceives as acts of world building against conditions of forced worldlessness In a moment when a collective racial reckoning is underway when Critical Race Theory is a target of the Right when prison abolition has become more prominent in mainstream political discourse it is now more important than ever to look to historical and contemporary practices of resistance to white domination *Monthly Catalog of United States Government Publications* United States.
