Examines how the frequency of in person meetings affects a remote team's success. Written by an award winning leadership expert, this book is your one stop resource on creating and sustaining a successful virtual team.

Financial Accounting with International Financial Reporting Standards Jerry J. Weygandt, Paul D. Kimmel, Donald E. Kieso, 2018-07-18. While there is growing interest in IFRS within the US, interest outside the US has exploded. Weygandt's fourth edition of Financial Accounting IFRS highlights the integration of more US GAAP rules, a desired feature as more foreign companies find the United States to be their largest market. The highly anticipated new edition retains each of the key features: e.g. TOC, writing style, pedagogy, robust EOC on which users of Weygandt Financial have come to rely, while putting the focus on international companies, examples discussing financial accounting principles and procedures within the context of IFRS, and providing EOC exercises and problems that present students with foreign currency examples instead of solely US dollars.

Harvard Business Review, 1999-07. Includes sections: Review of business literature and Book notices.

Broadcast News Writing, Reporting, and Producing Frank Barnas, 2013-05-02. Jargon buster: convergent journalism. Media convergence is the most significant development in the news industry in the last century. The ability to interchange text, audio, and visual communication over the Internet has fundamentally transformed the way news organizations operate. Convergence has enabled media companies to gather, disseminate, and share information over a variety of platforms. Throughout the history of journalism, it has been common for journalists to study one medium, such as traditional print or broadcast, and to anticipate a career working only in their chosen field. However, the 21st century journalist has fluidity to write and deliver news content in a variety of formats. Source: <http://www.convergencejournalism.com>. Broadcast News Writing, Reporting, and Producing presents a solid foundation for any student learning how to become a broadcast journalist in today's world of convergent journalism. It is more important than ever that broadcast textbooks cover the most current trends in media. Convergent journalism: the coverage of news across multiple delivery platforms, such as the Internet, television, podcasts, iPods, blogs, etc., is here to stay. Broadcast journalism continues to morph as newer and more advanced content platforms are hatched and developed, and broadcast journalists must understand how to write, report, and produce for multiple platforms simultaneously. Just one crucial fact remains: students will need training on how to perform successfully in a world in which current events aren't just shown on the ten o'clock evening news. Broadcast News Writing, Reporting, and Producing will be completely overhauled to reflect the trends of

convergent journalism on every page New co author Frank Barnas brings a multi faceted perspective of writing reporting and producing that allows for multi platform delivery systems and shows students with real world examples the functions and practices of today s media The new edition will be rewritten and restructured to accommodate common 16 week course modules and will be divided into four major sections of the news gathering writing reporting and producing Sidebars featuring how examples used in the text relate to convergence in journalism help students to draw connections easily between current stories and trends in the industry The comprehensive approach of this text brings a multi faceted perspective of writing reporting and producing that is needed more than ever in today s world of convergent journalism This newest edition is being completely overhauled by the experienced journalist Frank Barnas New photos and illustrations a restructuring of the text expanded end of chapter exercises newer and more relevant examples and more information on producing all contribute to giving readers what they need most a nuanced understanding of how the media of today function in a world without news boundaries

The Transverse Information System Francois Rivard, Georges Abou Harb, Philippe Meret, 2013-03-01 Information systems have an enormous potential for improving business performance With this in mind companies must set out to exploit and optimize this potential without delay in order to improve their efficiency and continue to set themselves apart from the competition This comprehensive text provides the information needed to understand and implement these systems at a practical level

Introduction to Information Systems R. Kelly Rainer, Brad Prince, 2025-11-04 As digital transformation becomes increasingly central to effective corporate strategy today s students must learn how information systems provide the foundation for modern business enterprises Known for its rich content and focus on active learning Introduction to Information Systems 11th Edition shows students how they can use IS to help their current or future employers increase profitability improve customer service manage daily operations and drive impact in their markets This course demonstrates that IT is the backbone of any business whether a student is majoring in accounting finance marketing human resources production operations management or MIS In short students will learn how information systems provide the foundation for all modern organizations whether they are public sector private sector for profit or not for profit
