Anatomy of Victory John D. Caldwell,2018-11-09 This groundbreaking book provides the first systematic comparison of America s modern wars and why they were won or lost John D Caldwell uses the World War II victory as the historical benchmark for evaluating the success and failure of later conflicts Unlike WWII the Korean Vietnam and Iraqi Wars were limited but they required enormous national commitments produced no lasting victories and generated bitter political controversies Caldwell comprehensively examines these four wars through the lens of a strategic architecture to explain how and why their outcomes were so dramatically different He defines a strategic architecture as an interlinked set of continually evolving policies strategies and operations by which combatant states work toward a desired end Policy defines the high level goals a nation seeks to achieve once it initiates a conflict or finds itself drawn into one Policy makers direct a broad course of action and strive to control the initiative When they make decisions they have to respond to unforeseen conditions to guide and determine future decisions Effective leaders are skilled at organizing constituencies they need to succeed and communicating to them convincingly Strategy means employing whatever resources are available to achieve policy goals in situations that are dynamic as conflicts change quickly over time Operations are the actions that occur when politicians soldiers and diplomats execute plans A strategic architecture Caldwell argues is thus not a static blueprint but a dynamic vision of how a state can succeed or fail in a conflict **Backbone** Ph.D. Julia Dye,2019-05-22 Noncommissioned officers

for a brief period tried to play a different international role than that to which it was accustomed Second the book problematizes the role of international military missions as drivers for change in the security and defence field Several perspectives and levels of analysis are covered from the macro level of strategic discourse to the micro level of the experiences of individual commanders The book focuses upon Sweden and its participation in the international military mission in Afghanistan during 2002 2012 and also contributes to the growing literature evaluating the mission in Afghanistan the security practice which has dominated the security and defence discourse of Western Europe for the last decade

Enduring Freedom, Enduring Voices Michael G. Walling, 2015-01-20 Michael Walling has honored the American men and women who served in Operation Enduring Freedom by helping them tell their own stories This is the war in Afghanistan as experienced by the people who fought it General Tommy R Franks Ret The war in Afghanistan has seen men and women thrown into America's longest sustained combat operation For over 13 years US military personnel have been embroiled in a conflict unlike any other in a hostile country where danger and death lurk at every turn The nature of the fighting has transformed not only the entire structure of the US military but the lives of every soldier sailor marine coast guardsman and airman who served there There have been many tales told of this most recent Afghan war but until now no single work has combined the strategic view of high level commanders with the perspective of soldiers on the ground This book places the first hand accounts of serving men and women into the context of the military operations Drawing on gripping oral histories from theater commanders Special Forces troops reconstruction teams and everyday soldiers Michael G Walling analyzes operations as they were experienced by individuals from those immediately following 9 11 through to those in 2014 as US troops prepared to withdraw He also charts the evolution of US military structure as it was forced to adapt to cope with the non conventional but nonetheless deadly threats of asymmetric warfare as well as detailing covert ops infrastructure rebuilding and the training of Afghan forces Resonating across gender age nationality and ethnicity this book is not just a document of US fortunes in a far flung conflict It is a tribute to the determination heroism sacrifice and the strength of the human spirit CML Army Chemical Review ,2001
