understood and materially structured as a practice spanning the domestic and institutional spaces of daily life Email experiences range from the routine and banal to the surprising and shocking Drawing on interviews and online surveys Milne focuses on both the material and the symbolic properties of email She maps the development of email as a technology and as an industry considers institutional uses of email including bureaucratic intensity of workplace email and the continuing vibrancy of email groups and examines what happens when private emails end up in public archives discussing the Enron email dataset and Hillary Clinton s infamous private server Finally Milne explores the creative possibilities of email connecting eighteenth century epistolary novels to contemporary email novels discussing the vernacular expression of ASCII art and mail art and examining email works by Carl Steadman Miranda July and others Email, SMS, MMS Carmen Frehner,2008 Are email and SMS forms of writing or speech This question cannot be answered easily because their registers are hybrid they make use of both orality and literacy This book offers an accurate placement of emails and text messages along the written spoken continuum Emails and text messages are also compared to letters and phone calls while a closer comparison of SMS and telegrams shows how far text messaging can be regarded as a renaissance of telegrams Attention is further paid to multimedia messaging and questions concerning the proportion of image to text picture categories as well as MMS dialogues are approached The book finally comments on linguistic changes and deals with the German language community s concern with regard to the increasing use of Anglicisms
