Viral Data in SOA Neal A. Fishman, 2009-07-06 Viral Data in SOA An Enterprise Pandemic This book is a must read for any organization using data integration or data interchange technologies or simply any organization that must trust data Neal takes the reader through an entertaining and vital journey of SOA information management issues risks discovery and solutions He provides a fresh perspective that no corporation should overlook in fact corporations might head blindly into SOA implementations without this awareness Kevin Downey Senior Partner Xteoma Inc Canada Neal Fishman s book on the viral affects of data is a much needed warning signal for a time when critical consideration of risk and impact take a backseat in the thrive to integrate and apply new technologies This book alerts its readers of potential risks and indicates how these can be minimized in real world implementations A must read for all decision makers for today s increasingly complex information architectures Thomas Buehlmann Ph D Senior Manager Accenture United States Ensure the Reliability of the Data Your SOA Environment Depends Upon Service oriented environments can share data more widely and rapidly than ever before Incorrect data can easily trigger inappropriate actions prevent urgent actions from being taken disrupt customer transactions and relationships generate compliance problems and damage business performance Companies need a comprehensive blueprint for ensuring data reliability in their SOA environments Viral Data in SOA provides that blueprint Leading IBM information forensics expert Neal Fishman helps you identify the unique challenges of data quality in your SOA environment and implement solutions that deliver the best results for the long term at the lowest cost Writing for both business and technical professionals Fishman shows how to think about data quality on a risk reward basis establishing an effective data governance initiative how to evaluate data quality and overcome its inevitable decay and last but not least how to actually derive a data quality initiative that works Coverage Includes Why poor quality data in SOA can be dangerous to an organization Practical solutions for assessing improving and sustaining trusted information Why data governance is so critical and realistic models for implementing it Benefits of data provenance Why business data is a form of metadata Programming and database design techniques to improve data quality

Smarter Data Science Neal Fishman, Cole Stryker, 2020-06-03 Organizations can make data science a repeatable predictable tool which business professionals use to get more value from their data Enterprise data and AI projects are often scattershot underbaked siloed and not adaptable to predictable business changes As a result the vast majority fail These expensive quagmires can be avoided and this book explains precisely how Data science is emerging as a hands on tool for not just data scientists but business professionals as well Managers directors IT leaders and analysts must expand their use of data science capabilities for the organization to stay competitive Smarter Data Science helps them achieve their enterprise grade data projects and AI goals It serves as a guide to building a robust and comprehensive information architecture program that enables sustainable and scalable AI deployments When an organization manages its data effectively its data science program becomes a fully scalable function

that is both prescriptive and repeatable With an understanding of data science principles practitioners are also empowered to lead their organizations in establishing and deploying viable AI They employ the tools of machine learning deep learning and AI to extract greater value from data for the benefit of the enterprise By following a ladder framework that promotes prescriptive capabilities organizations can make data science accessible to a range of team members democratizing data science throughout the organization Companies that collect organize and analyze data can move forward to additional data science achievements Improving time to value with infused AI models for common use cases Optimizing knowledge work and business processes Utilizing AI based business intelligence and data visualization Establishing a data topology to support general or highly specialized needs Successfully completing AI projects in a predictable manner Coordinating the use of AI from any compute node From inner edges to outer edges cloud fog and mist computing When they climb the ladder presented in this book businesspeople and data scientists alike will be able to improve and foster repeatable capabilities They will have the knowledge to maximize their AI and data assets for the benefit of their organizations *Ecosystems*

Architecture Philip Tetlow, Neal Fishman, Paul Homan, Rahul, 1970-01-01 Today modern business is adrift in a sea of connectivity and potential Where once an organization's IT needs could be met from within its four walls we now see many mission critical systems reaching out beyond an enterprise's traditional boundaries This is pushing solutions design well beyond the comfort zone of Enterprise Architecture and out into a world of hyper enterprise systems This is a world of complexity and scale where the changing status quo demands that organizations keep up or die To survive their IT systems must also evolve as the context of their environment's ebbs and flows The result is a dynamic interconnected web of critical business advantage balanced against uncertainty and risk and infused with AI This is the world of Ecosystems Architecture This book will introduce you to the challenges of designing hyper enterprise IT systems and the tools you will need as the era of Ecosystems Architecture dawns It explains the proximity of new thinking to long held architectural tenets and outlines how and why thinking has moved on It also reviews existing frameworks and explains how and why they fit into the broader landscape of architectural thinking About The Open Group Press The Open Group Press is an imprint of The Open Group for advancing knowledge of information technology by publishing works from individual authors within The Open Group membership that are relevant to advancing The Open Group mission of Boundaryless Information Flow™ The key focus of The Open Group Press is to publish high quality monographs as well as introductory technology books intended for the general public and act as a complement to The Open Group Standards Guides and White Papers The views and opinions expressed in this book are those of the authors and do not necessarily reflect the consensus position of The Open Group members or staff **Mastering XPages** Martin Donnelly, Mark Wallace, Tony McGuckin, 2011-01-19 The first complete practical guide to XPages development direct from members of the XPages development team at IBM Lotus Martin Donnelly Mark Wallace and Tony McGuckin have written the definitive programmer's guide to utilizing this breakthrough technology

Packed with tips tricks and best practices from IBM s own XPages developers Mastering XPages brings together all the information developers need to become experts whether you re experienced with Notes Domino development or not The authors start from the very beginning helping developers steadily build your expertise through practical code examples and clear complete explanations Readers will work through scores of real world XPages examples learning cutting edge XPages and XSP language skills and gaining deep insight into the entire development process Drawing on their own experience working directly with XPages users and customers the authors illuminate both the technology and how it can be applied to solving real business problems Martin Donnelly previously led a software startup that developed and distributed small business accounting software Donnelly holds a Commerce degree from University College Cork and an M S in Computer Science from Boston University Mark Wallace has worked at IBM for 15 years on many projects as a technical architect and application developer Tony McGuckin participates in the Lotus OneUI Web Application and iWidget Adoption Workgroup He holds a bachelor s degree in Software Engineering from the University of Ulster
