

The background image is a photograph of a narrow, old Chinese street. On the left, there is a large, weathered wall with peeling plaster and exposed brick. To the right, there are traditional brick buildings with tiled roofs. In the far distance, a modern skyscraper is visible through a hazy or foggy atmosphere. The street is paved with large, dark stones.

Visions Of Dystopia In China S New Historical Novels:

Visions of Dystopia in China's New Historical Novels Jeffrey C. Kinkley, 2014-11-18 The depiction of personal and collective suffering in modern Chinese novels differs significantly from standard Communist accounts and many Eastern and Western historical narratives Writers such as Yu Hua Su Tong Wang Anyi Mo Yan Han Shaogong Ge Fei Li Rui and Zhang Wei skew and scramble common conceptions of China s modern development deploying avant garde narrative techniques from Latin American and Euro American modernism to project a surprisingly un Chinese dystopian vision and critical view of human culture and ethics The epic narratives of modern Chinese fiction make rich use of magical realism surrealism and unusual treatments of historical time Also featuring graphic depictions of sex and violence as well as dark raunchy comedy these novels reflect China s recent history re presenting the overthrow of the monarchy in the early twentieth century and the resulting chaos of revolution and war the recurring miseries perpetrated by class warfare during the dictatorship of Mao Zedong and the social dislocations caused by China s industrialization and rise as a global power This book casts China s highbrow historical novels from the late 1980s to the first decade of the twenty first century as a distinctively Chinese contribution to the form of the global dystopian novel and consequently to global thinking about the interrelations of utopia and dystopia Chinese Literature in the World Junfeng Zhao, Defeng Li, Riccardo Moratto, 2022-05-06 This book features a collection of articles on comparative literature from a translational perspective with a special reference to translation of contemporary Chinese literature Issues of translation dissemination and reception of translated literature in the context of world literature are the foci of the book Given its scope the book appeals particularly to teachers and students of Chinese literature translation and Sinology

Chinese and Western Literary Influence in Liu Cixin's Three Body Trilogy Will Peyton, 2021-07-30 Chinese and Western Literary Influence in Liu Cixin s Three Body Trilogy examines Liu Cixin s acclaimed trilogy a Chinese science fiction epic whose translation is exceedingly popular in the Western world Will Peyton argues that the ingenuity of Liu s writing is found in its conscious engagement with translated Western fiction rather than as one might expect in Chinese language science fiction of the past The book illustrates how contemporary Chinese fiction since the economic opening of China in the late 1980s is deeply and complexly influenced by various strains in Western literary and intellectual thought an area that scholars of Chinese literature have tended to neglect Providing a lucid and succinct close reading and textual analysis of Three Body trilogy the book also makes reference to broader ideas and themes in modern Chinese and Western intellectual history *Questioning the Chinese Model* Zhansui Yu, 2023-02-27 In the early twenty first century the Chinese literary world saw an emergence of fictional works dubbed as oppositional political novels that took political articulation as their major purpose and questioned the fundamental principles and intrinsic logic of the Chinese model Based on close readings of five representative oppositional Chinese political novels Questioning the Chinese Model examines the sociopolitical connotations and epistemological values of these novels in the broad context of modern Chinese

intellectual history and contemporary Chinese politics and society Zhansui Yu provides a sketch of the social political and intellectual landscape of present day China He investigates the dialectic relationship between the arts and politics in the Chinese context the mechanisms and dynamics of censorship in the age of the Internet and commercialization and the ideological limitations of oppositional Chinese political novels In the process of textual and social analysis Yu extensively cites Western political philosophers such as Hannah Arendt Antonio Gramsci Michel Foucault and references well regarded studies on Chinese literature politics society and the Chinese intelligentsia Examining oppositional Chinese political novels from multiple perspectives Questioning the Chinese Model applies a broad range of knowledge beyond merely the literary field **Utopia and Utopianism in the Contemporary Chinese Context** David Der-wei Wang, Angela Ki Che

Leung, Zhang Yinde, 2020-04-05 Utopia and Utopianism in the Contemporary Chinese Context Texts Ideas Spaces decisively demonstrates the extent to which utopianism has shaped political thought cultural imaginaries and social engagement after it was introduced into the Chinese context in the nineteenth century In fact pursuit of utopia has often led to action such as the Chinese Revolution and the Umbrella Movement and contested consequences Covering a time span that goes from the late Qing to our days the authors show that few ideas have been as influencing as utopia which has compellingly shaped the imaginaries that underpin China's historical change Utopianism contributed to the formation of the Chinese state itself shaping the thought of key figures of the late Qing and early Republican eras such as Kang Youwei and Sun Yat sen and outlived the labyrinthine debates of the second half of the twentieth century both under Mao's rule and during the post socialist era Even in the current times of dystopian narratives a period in which utopia seems to be less influential than in the past its manifestations persistently provide lifelines against fatalism or cynicism This collection shows how profoundly utopian ideas have nurtured both the thought of crucial figures during these historical times the new generation of mainland Chinese and Sinophone intellectuals and the hopes of twenty first century Hong Kong activists Wang Leung and Zhang's collection is a timely contribution to utopian studies built on consistent coherent boundary crossing approaches

Interdisciplinary in its very sense the essays bring intellectual history literary studies philosophy and political theories together in dialogue Of particular note are the essays that situate Hong Kong in a literary tradition that connects China Hong Kong and the beyond Mingwei Song Wellesley College Utopia and Utopianism in the Contemporary Chinese Context is an impressive intellectual undertaking The essays are highly engaging and offer powerful multi faceted approaches to utopianism in contemporary Chinese thought and practice Stimulating and informative the book as a whole addresses the dynamic interplay between the utopian and dystopian thereby inspiring clarity in political thought and action in the present moment Robin Visser University of North Carolina at Chapel Hill *Uneven Futures* Ida Yoshinaga, Sean Guynes, Gerry Canavan, 2022-12-20 Essays on speculative science fiction explore the futures that feed our most cherished fantasies and terrifying nightmares while helping diverse communities devise new survival strategies for a tough millennium The explosion

in speculative science fiction SF across different media from the late twentieth century to the present has compelled those in the field of SF studies to rethink the community's identity orientation and stakes. In this edited collection more than forty writers, critics, game designers, scholars, and activists explore core SF texts with an eye toward a future in which corporations dominate both the means of production and the means of distribution and governments rely on powerful surveillance and carceral technologies. The essays international in scope demonstrate the diversity of SF through a balance of popular mass market novels, comics, films, games, TV shows, creepypastas, and more niche works. SF works explored range from *Riot Baby* by Tochi Onyebuchi (2014), *The End of the World* by Boualem Sansal, *Terra Nullius* by Claire Coleman, *Watchmen* and *X-Men* comics, and the Marvel film *Captain America: The Winter Soldier* to the *MaddAddam* trilogy by Margaret Atwood, *The Dispossessed* by Ursula K. Le Guin, *The Wandering Earth* by Liu Cixin, and the *Wormwood* trilogy by Tade Thompson. In an era in which ecological disaster and global pandemics regularly expose and intensify deep political economic inequalities, what futures has SF anticipated? What survival strategies has it provided us? Can it help us to deal with and grow beyond the inequalities and injustices of our times? Unlike other books of speculative science fiction criticism, *Uneven Futures* uses a think piece format to make its critical insights engaging to a wide audience. The essays inspire visions of better possible futures drawing on feminist, queer, and global speculative engagements with Indigenous, Latinx, and Afro and African futurisms while imparting important lessons for political organizing in the present.
