

Open Microsoft Visual Studio, create a new project called *Frame1* (use the same configuration as lab #1). Enter the following program to your project as *Frame1.cpp*. Use this program for exercises 1-3.

```
// Program Frame1 prompts the user to input values representing
// the dimensions of a print. The amount of wood needed for
// the frame is calculated and printed on the screen.

#include <iostream>
using namespace std;

int main()
{
    int side;                // Vertical dimension in inches
    int top;                 // Horizontal dimension in inches
    int inchesOfWood;        // Inches of wood needed

    cout << "Enter the vertical dimension of your print."
          << endl;
    cout << "The dimension should be in whole inches. "
          << "Press return." << endl;
    cin >> side;

    cout << "Enter the horizontal dimension of your print."
          << endl;
    cout << "The dimension should be in whole inches. "
          << "Press return." << endl;
    cin >> top;

    inchesOfWood = top + top + side + side;
    cout << "You need " << inchesOfWood
          << " inches of wood." << endl;

    return 0;
}
```

Exercise 1.

Read the program and answer the following questions before you run the program.

- How many lines of input does program *Frame1* expect?
- What happens if you key both values on the same line with a blank between them?
- What happens if you key both values on the same line without a blank between them?

English Navneet Singh, Here are some common web developer interview questions along with suggested answers that can help you prepare for your interview 1 Tell me about yourself Sample Answer I have been passionate about web development since I built my first website in high school I pursued a degree in Computer Science and have since gained X years of experience working with front end and back end technologies I enjoy tackling complex problems and creating user friendly interfaces In my previous role at Previous Company I was involved in developing responsive web applications using technologies like HTML CSS JavaScript and frameworks like React I am excited about the opportunity to bring my skills and creativity to your team 2 What are your key skills as a web developer Sample Answer I have strong proficiency in front end technologies such as HTML CSS JavaScript and modern frameworks like React and Vue js On the back end I have experience with Node js Express js and database management systems like MySQL and MongoDB I am skilled in responsive design cross browser compatibility and optimizing web applications for performance Additionally I am proficient in version control systems like Git and have experience working in Agile development environments 3 Can you describe a recent project you worked on Sample Answer In my previous role I worked on developing a responsive e commerce platform using React js for the front end and Node js with Express js for the back end I collaborated with a team of designers and developers to implement a user friendly interface with features like product catalogue browsing user authentication and cart management I integrated payment gateways and ensured the application was optimized for speed and scalability It was a rewarding project that allowed me to enhance my skills in full stack development and deliver a robust solution to our client 4 How do you approach debugging and troubleshooting in your work Sample Answer When debugging I follow a systematic approach starting with identifying the problem and gathering relevant information I utilize debugging tools like Chrome DevTools to inspect and debug front end issues such as layout problems or JavaScript errors For back end debugging I log errors and use console outputs to trace the flow of data and identify potential bugs in my code I believe in writing clean and maintainable code which makes debugging easier and improves the overall quality of the application 5 How do you stay updated with the latest web development trends and technologies Sample Answer I stay updated with the latest trends by regularly reading tech blogs following industry experts on social media and participating in online communities like Stack Overflow and GitHub

I attend webinars workshops and conferences to learn about new technologies and best practices Additionally I experiment with new frameworks and tools in personal projects to gain hands on experience and stay ahead in this rapidly evolving field

6 Tell me about a challenge you faced during a project and how you overcame it Sample Answer In a recent project we encountered performance issues due to inefficient database queries affecting the loading time of our application To address this challenge I conducted a thorough analysis of the database schema and identified opportunities to optimize query performance by adding indexes and restructuring data retrieval processes I collaborated with the database administrator to implement these optimizations which resulted in significant improvements in application speed and responsiveness

7 How do you prioritize tasks and manage your time effectively in a fast paced environment Sample Answer I prioritize tasks by assessing their urgency and impact on project milestones I break down larger tasks into smaller manageable units and set realistic deadlines for each I utilize project management tools like Trello or Jira to track progress and collaborate with team members effectively Regular communication with stakeholders helps me align priorities and adjust schedules as needed to ensure timely delivery of quality work

8 Do you have experience with responsive design and cross browser compatibility Sample Answer Yes I have extensive experience with responsive design principles including fluid layouts flexible grids and media queries I ensure that websites I develop are optimized for various screen sizes and devices to provide a seamless user experience I also conduct cross browser testing using tools like BrowserStack to ensure compatibility with major browsers such as Chrome Firefox Safari and Edge

Tips for Success Practice Coding Be ready to demonstrate your coding skills with real time coding challenges or portfolio projects Stay Updated Research the company and its tech stack to tailor your answers accordingly Ask Questions Prepare thoughtful questions about the team dynamics projects or company culture to show your interest By preparing these answers and tailoring them to your experiences and the specific job requirements you ll be well prepared to impress during your web developer interview
