Methods of Knowledge Raymond Frank Piper, Paul William Ward, 1929 *Wandering Myths* Lucy Gaynor Audley-Miller, Beate Dignas, 2018-10-08 In spite of the growing amount of important new work being carried out on uses of myth in particular ancient contexts their appeal and reception beyond the framework of one culture have rarely been the primary object of enquiry in contemporary debate Highlighting the fact that ancient societies were linked by their shared use of mythological narratives *Wandering Myths* aims to advance our understanding of the mechanisms by which such tales were disseminated cross culturally and to investigate how they gained local resonances In order to assess both wider geographic circulations and to explore specific local features and interpretations a regional approach is adopted with a particular focus on Anatolia the Near East and Italy Contributions are drawn from a range of disciplines and cross a wide chronological span but all are interlinked by their engagement with questions focusing on the factors that guided the processes of reception and steered the facets of local interpretation The Preface and Epilogue evaluate the material in a synoptic way and frame the challenging questions and views expressed in the Introduction *Introduction to Human Factors and Ergonomics for Engineers* Mark R. Lehto, Steven J. Landry, 2012-10-26 With a practical applied orientation this book presents and integrates in a single source important methods and tools used in the fields of industrial engineering human factors and ergonomics to design and improve jobs tasks and products The author covers such topics as the human system motion analysis predicting human performance simulation in ergonomic design product quality and usability macroergonomics and occupational safety

and health Each chapter offers challenging problems and examples to illustrate concepts The new second edition features two new chapters that address human error causation and reduction and human computer interaction It also includes updated figures

Cremation and the Archaeology of Death Jessica Cerezo-Román, Anna Wessman, Howard Williams, 2017-04-14 The fiery transformation of the dead is replete in our popular culture and Western modernity's death ways and yet it is increasingly evident how little this disposal method is understood by archaeologists and students of cognate disciplines in the humanities and social sciences In this regard the archaeological study of cremation has much to offer Cremation is a fascinating and widespread theme and entry point in the exploration of the variability of mortuary practices among past societies Seeking to challenge simplistic narratives of cremation in the past and present the studies in this volume seek to confront and explore the challenges of interpreting the variability of cremation by contending with complex networks of modern allusions and imaginings of cremations past and present and ongoing debates regarding how we identify and interpret cremation in the archaeological record Using a series of original case studies the book investigates the archaeological traces of cremation in a varied selection of prehistoric and historic contexts from the Mesolithic to the present in order to explore cremation from a practice oriented and historically situated perspective
