 Stephen Paul Blake, 2009-09. Stephen Paul Blake lives in Fruit Cove outside Jacksonville, Florida, and is the single Dad of Matthew and Austin. He has been blessed to receive the Eagle Scout and Vigil Honors from the Boy Scouts of America along with Six Sigma Green Belt and Professional Engineering Registrations. Even after graduating from Duke University with a degree in Engineering, his life was still not always on an even keel, but then was a good moment to rededicate and begin to really grow in the Lord. With that faith, his work brought him to the Carolinas, Upstate New York, and Florida. Stephen found construction project work to be steadily gaining the administrative field and managerial skills needed for senior responsibilities. Large projects that called for estimating and progress tracking spreadsheets became his specialty, as can be seen with a quick look through *Transition Trading*. After a generation of construction project involvement, he decided to incorporate Workplace Management Inc. to share his process and project management experience. It was during that time he was introduced to the modern trading and analytical software era. Success was fleeting, so after helping a couple of clients, he went back to the regular work force. The job this last employment made him lie down in green pastures in order to learn a new skill. Yet after experiencing many trading books, day trading restrictions, and poor options forecasts, his interest had waned. That apathy ended when Stephen discovered the ultimate in leverage and liquidity in the stock index futures class, the E-Mini. Months of honing the trading rules, developing the habits to follow them, and completing work assignments has led to the point where he can start helping others and sharing the Gospel. The calling, no doubt, God has been working in his life. Can He do the same for you?

Covering the same topics found in more advanced level texts *Investments* incorporates minimal math and is much more student friendly resulting in an increased excitement for and understanding of the basic investment course material. It is the text of choice for the College of Financial Planning. It includes a strong focus on the individual financial planner and features a Financial Advisor's Investment Case at the end of each chapter. These short cases illustrate how text material applies to real investment decisions. Financial calculators are introduced and utilized throughout the text with explanations employing both interest tables and the calculator. It is also ideal for non majors courses.
