It may not, in whole or in part, be copied, photocopied, reproduced, translated or reduced to any electronic medium or machine readable form without prior consent, in writing, from Champion Aerospace.

WARNING: IMPROPER OR UNAUTHORIZED APPLICATIONS OF THE INFORMATION CONTAINED IN THIS MANUAL MAY RESULT IN LOSSES OR DAMAGES TO THE USER.

The accuracy and applicability of this manual has not been verified for any assembly, component or part not manufactured by Champion Aerospace. Any use of this manual for other than its intended purpose or for performing any installation, maintenance, replacement, adjustment, inspection or overhaul of any assembly, component or part not manufactured by Champion Aerospace is not approved, endorsed or sanctioned by Champion Aerospace.

No liability will be assumed by Champion Aerospace for actual, consequential or other types of damages directly or indirectly resulting from the unauthorized use of this manual for other than its stated purposes.

When performing installation, maintenance, replacement, adjustment, inspection or overhaul of any Champion Aerospace assembly, component or part, it is imperative that the latest revision of the appropriate Champion Aerospace manual or product support document be referenced. Contact Champion Aerospace to be sure you have the latest manual or support document revision before performing any work.

All reasonable attempts were made to make this manual as complete and accurate as possible. 0.2 HOW TO USE THIS MANUAL

The procedures outlined in this manual are generalized for all models of 4300/6300 Series Slick Magnetos, using only genuine Champion Aerospace manufactured parts. This manual must not be used to maintain or overhaul a Slick Magneto that contains parts not manufactured by Champion Aerospace. Specific part numbers are detailed in the Tables located after the main text.

Use only genuine Champion Aerospace manufactured parts obtained from Champion Aerospace Approved sources.

Slick parts are produced and inspected under rigorous procedures to insure airworthiness and suitability in Slick magnetos. Parts purchased from sources other than Champion Aerospace, even though outwardly identical in appearance may not have had the required tests and inspections performed, may be different in fabrication techniques and materials, and may be dangerous when installed in a Slick magneto. Salvaged magneto parts, reworked parts obtained from Champion Aerospace approved sources, or parts the service history of which is unknown or cannot be authenticated, may have been subjected to unacceptable stresses or temperatures, or have other hidden damage, not discernible through routine visual or usual nondestructive testing techniques. This may render service work with this part, even though originally manufactured by Champion Aerospace, unsuitable or unsafe for use in a Slick magneto. Champion Aerospace expressly disclaims any responsibility for malfunctions, failures, damage or injury caused by use of non-Champion Aerospace approved parts.

Slick magnetos are engineered so that mechanical parts wear at a balanced rate. Consistent and complimentary wear patterns establish the recommended maintenance intervals defined in Champion Aerospace service literature, therefore used, service worn parts should never be used to troubleshoot or repair a magneto, nor should original parts be replaced by used service worn parts on magnetos being returned to service. Further, non-Champion Aerospace manufactured parts may wear at uneven and different rates than original Champion Aerospace manufactured parts, making Champion Aerospace service literature an inappropriate guide to proper maintenance. Parts not manufactured by Champion Aerospace, even if FAA/PMA Approved, may not fit or operate like original Champion Aerospace manufactured parts. FAA testing of PMA parts does not require operation on an engine or flight tests and does not require the test duration to exceed the maintenance intervals called out in Champion Aerospace literature. For these reasons, used service worn parts or parts not manufactured by Champion Aerospace may adversely affect magneto reliability in ways not anticipated by Champion Aerospace and its service literature.

The information in this manual is divided into 10 sections. Section One provides basic technical reference on the design and operation of Slick Magnetos. Section Two illustrates tools needed to correctly perform inspection and maintenance.

Detailed instructions for removing the magnetos from the engine, magneto disassembly and magneto reassembly are contained in Sections Five, Six and Seven, respectively.

Maintenance and Overhaul schedules and procedures are detailed in Sections Three and Four, respectively. The instructions in Sections Three and Four refer to procedures outlined in the Magneto Disassembly (Section Six) and Magneto Assembly (Section Seven) portions of this manual. It is recommended that this entire manual be thoroughly read before beginning any inspection or maintenance procedure.
