

Texting while Driving

- ▶ There is a large and rapidly growing body of research that shows using a cell phone while driving, decreases driving performance. The popular way of communicating goes beyond phone calls on cellular phones and really favors texting.
- ▶ Along with reading and applying makeup, text messaging is extremely distracting while driving. It is estimated two out of every three drivers, admit to being on a cell phone either talking or texting (Hench, 2011).
- ▶ Texting while driving has become equivalent to drunk driving, and I am here to present to you with my literature review from my hypothesis to my conclusion.
