The Agony Of Modernization:

The Agony of Modernization Benjamin Martin, 1990 Analyses the evolution of the Spanish labour movement from the birth of trade unionism in the 1840s to the Civil War 1936 1939 Examines Spain's socioeconomic foundation and the formation of the modern labour force as well as early efforts to institute social reforms *The Francoist Military Trials* Peter Anderson, 2009-09-10 In Spain between 1936 1945 the Franco regime carried out one Europe's more brutal but less remembered programs of mass repression Many were murdered by the regime's death squads and in some areas Francoists also subjected up to 15% of the population to summary military trials Here many suffered the death sentence or jail terms up to thirty years Although historians have recognised the staggering scale of the trials they have tended to overlook the mass participation that underpinned them In contrast to the discussion in other European countries little attention has been paid to the wide scale collusion in the killings and incarcerations in Spain Exploring mass complicity in the trials of hundreds of thousands of defeated Republicans following the end of the Spanish Civil War *The Francoist Military Trials* probes local Francoists' accusations whereby victims were selected for prosecution in military courts It also shows how insubstantial and hostile testimony formed the bedrock of investigations secured convictions and shaped the harsh sentencing practices of Franco's military judges Using civil court records it also documents how grassroots Francoists continued harassing Republicans for many years after they emerged from prison Challenging the popularly prevalent view that the Franco regime imposed a police state upon a passive Spanish society the evidence Anderson uncovers here illustrates that local state officials and members of the regime's support base together forged a powerful repressive system that allowed them to wage war on elements of their own society to a greater extent than perhaps even the Nazis managed against their own population

Women's Work Rebecca Ingram, 2022-09-15 Winner Gourmand World Cookbook Awards 2023 Best Women of the World Book Spain We are living in a moment in which famous chefs Michelin stars culinary techniques and gastronomical accolades attract moneyed tourists to Spain from all over the world This has prompted the Spanish government to declare its cuisine as part of Spanish patrimony Even with this widespread global attention we know little about how Spanish cooking became a litmus test for demonstrating Spain's modernity and relatedly the roles ascribed to the modern Spanish women responsible for daily cooking Efforts to articulate a new modern Spain infiltrated writing in multiple genres and media *Women's Work* offers a sharp reading of diverse sources placed in their historical context that yields a better understanding of the roles of food within an inherently uneven modernization process Further author Rebecca Ingram's perceptive critique reveals the paradoxical messages women have navigated even in texts about a daily practice that shaped their domestic and work lives *Women's Work* posits that this is significant because of the degree to which domestic activities including cooking occupied women's daily lives even while issues like their fitness as citizens and participation in the public sphere were hotly debated At the same time progressive intellectuals from diverse backgrounds began to invoke Spanish cooking and eating as one

measure of Spanish modernity Women's Work shows how culinary writing engaged these debates and reached women at the site of much of their daily labor the kitchen and in this way shaped their thinking about their roles in modernizing Spain

Modern Spain Francisco J. Romero Salvadó, 2024-08-22 Using a wealth of varied sources this book is an inspiring and essential gateway to understanding the foundations of modern Spain Francisco J Romero Salvadó employs a chronological framework to chart the country's experience commencing with the Restoration of the Bourbon Monarch in 1874 up to the present day Modern Spain is a vital contribution to the study and debate of this country's history and politics It provides a thorough yet concise study of nearly 150 years of tumultuous historical evolution It examines the crisis of traditional liberal politics and the subsequent ill fated attempts at reform through the military dictatorship headed by General Miguel Primo de Rivera and the progressive Second Republic that ensued The outcome being three years of tragic civil war followed by the long 40 year dictatorship of General Francisco Franco It concludes by exploring Spain's successful and surprisingly rapid transition to democracy and the challenges that it now faces in the 21st century Romero Salvadó uproots the many myths and blatant distortions that have often surrounded the history of Spain By offering an analysis within a European context he also challenges the traditional view of the exceptional character of the country encapsulated in the motto Spain is different On the contrary this book so convincingly contends Spain is a perfect example to show the troubled and often violent path to modernity that western societies had to undergo in their transition from elite to mass politics Governance and Political

Adaptation in Fragile States John Idriss Lahai, Karin von Strokirch, Howard Brasted, Helen Ware, 2018-07-21 The book examines the various ways that fragile states or states with limited statehood in Africa Asia the Pacific and the Americas have adopted and adapted to the processes of liberal political governance in their quests to address the problem of political fragility It presents the stories of resilience in the political adaptation to Western liberal conceptions of governance In addition to singular or comparative country case studies this project also examines the interplay of culture identities and politics in the creation of people centric governance reforms Towards these ends this volume sheds light on weak states often constructive engagement in the promotion of state governance with a variety of political conditions adverse or otherwise and their ability to remain resilient despite the complex political sociocultural and economic challenges affecting them Through a multidisciplinary approach the authors aim to counter the noticeable shortcomings in the discursive representations of fragility and to contribute a more balanced examination of the narratives about and impact of political adaptation and governance in people's lives and experiences *Development and Communication in Africa* Charles Okigbo, Festus

Eribo, 2004 Although Africa is the world's poorest continent it is a major emerging market and partner in the global village of the new millennium This book presents a wide array of perspectives on the problems and prospects of developing Africa Leading scholars in African studies and international communication analyze the socio political and cultural experiences in various communities focusing on key questions What is development What are the main issues surrounding development in

Africa And how can communication per se be used to address the persistent problems of underdevelopment

The Artist and Political Vision Benjamin R. Barber, Michael J. Gargas McGrath, Art and politics are often regarded as denizens of different realms but few artists have been comfortable with the notion of a purely aesthetic definition of art The artist has a public and thus political vision of the world interpreted by his art no less than the statesman and the legislator have a creative vision of the world they wish to make The sixteen original essays in this volume bear eloquent witness to this interpenetration of art and politics Each confronts the intersection of the aesthetic and the social each is concerned with the interface of poetic vision and political vision of reflection and action They take art in the broadest sense ranging over poets dramatists novelists essayists and filmmakers Their focus is on art and its political dilemmas not simply on the artist They consider the issues raised for politics and culture by alienation violence modernization technology democracy progress and revolution And they debate the capacity of art to stimulate social change and incite revolution the temptations of social control of culture and of political censorship the uncertain relationship between art and history the impact of economic structure on artistic creation and of economic class on artistic product the common ground between art and legislation and between creativity and control

Democracy and Dictatorship in Europe Sheri Berman, 2019-01-04 At the end of the twentieth century many believed the story of European political development had come to an end Modern democracy began in Europe but for hundreds of years it competed with various forms of dictatorship Now though the entire continent was in the democratic camp for the first time in history But within a decade this story had already begun to unravel Some of the continent's newer democracies slid back towards dictatorship while citizens in many of its older democracies began questioning democracy's functioning and even its legitimacy And of course it is not merely in Europe where democracy is under siege Across the globe the immense optimism accompanying the post Cold War democratic wave has been replaced by pessimism Many new democracies in Latin America Africa and Asia began backsliding while the Arab Spring quickly turned into the Arab winter The victory of Donald Trump led many to wonder if it represented a threat to the future of liberal democracy in the United States Indeed it is increasingly common today for leaders intellectuals commentators and others to claim that rather than democracy some form dictatorship or illiberal democracy is the wave of the future In *Democracy and Dictatorship in Europe* Sheri Berman traces the long history of democracy in its cradle Europe She explains that in fact just about every democratic wave in Europe initially failed either collapsing in upon itself or succumbing to the forces of reaction Yet even when democratic waves failed there were always some achievements that lasted Even the most virulently reactionary regimes could not suppress every element of democratic progress Panoramic in scope Berman takes readers through two centuries of turmoil revolution fascism civil war and finally the emergence of liberal democratic Europe in the postwar era A magisterial retelling of modern European political history *Democracy and Dictatorship in Europe* not only explains how democracy actually develops but how we should interpret the current wave of illiberalism sweeping Europe and the rest

of the world **The Foundations of Civil War** Francisco J. Romero Salvado, 2016-04-29 This book analyzes the decay of Liberal politics in Spain as the regional version of the general crisis that engulfed most of Europe between 1916 and 1923 Romero enriches the important wider debate about this watershed period of European history when in the face of unprecedented mass social protest and political mobilization incumbent governing elites struggled to find a valid formula of social containment in the dawning of mass politics which also saw the spread of the radical new doctrines of Bolshevism and Fascism Above all this book examines Spain's crisis of modernization a process marked by complex social and political realignments through which the nature of civil society was profoundly altered It resulted in an unprecedented spiral of violence and a polarization that firstly led to an authoritarian formula of social control in 1923 and ultimately to the outbreak of civil war in 1936 **Identity and Institutions** Neal G. The Last Crusade Michael A. Palmer,2007 The United States argues Michael A Palmer is engaged in a political crusade to modernize the Islamic world Americanism is in the vanguard of modernity s relentless advance promoting capitalist markets and democratic institutions To compete Islamic societies must adopt a more secular and material approach as have the West and South and East Asia But these principles conflict with Islamic fundamentals Once a vibrant force much of the Muslim world spent four centuries as prisoner of an Ottoman Empire that embraced feudalism while the West jettisoned it In the absence of a renaissance or enlightenment modernization in the Islamic world has been painful and unsuccessful While many in the West long for an Islamic reformation Palmer argues that Islamists such as Osama bin Laden are the face of that reformation Just as Protestant reformers sought a return to the purity of early Christianity jihadists desire a return to the halcyon days of conquest and expansion when the Caliphate controlled a united and powerful Muslim community American actions have not provoked this conflict nor can American withdrawal end it Palmer contends For example China also a once powerful civilization subjected to Western imperialism has not produced homicide bombers Instead the Chinese are busy modernizing Islam s failure to modernize is the root cause of the current situation Bin Laden and other jihadists understand correctly that if Islam is to avoid the materialism and secularism that come with modernity they must Islamize the West by force *Bourgeois Europe, 1850-1914* Jonathan Sperber,2022-07-19 Now in its second edition *Bourgeois Europe 1850 1914* is a general history of Europe from the middle of the nineteenth century to the outbreak of the First World War a successor to *Revolutionary Europe 1780 1850* also available from Routledge The book offers wide geographic coverage of the European continent from the Arctic Circle to the Mediterranean and from the Atlantic to the Urals Topical coverage is equally broad including major trends and events in international relations and domestic politics in social and gender structures in the economy and in the natural and social sciences the humanities religion and the arts For this second edition the text has been completely revised the latest directions in historical research considered the further reading brought up to date and special attention has been paid to Europe s global interactions with the rest of the world and the structures and norms of gender
