A Treatise on the Decorative Part of Civil Architecture William Chambers,2011-10-30 Beautiful reproduction of a 1791 classic describes the qualifications and duties of an architect The 55 superb plates depict ornate compartments for coved ceilings pedestals for columns arches balusters and other architectural features

Form and Design in Classic Architecture Arthur Stratton,2012-05-24 Most people recognize at a glance the extraordinarily graceful proportions of classical style buildings such as London s Syon House and Athenaeum Club and the Banqueting Hall at Whitehall Few however appreciate the underlying geometrical principles that lend these buildings their elegant unity of expression Form and Design in Classic Architecture explains in simple direct terms and with numerous photographic plates and line illustrations the ways in which the relationship of exterior and interior

elements creates that unity and sense of completeness. Dozens of edifices by Inigo Jones, the Adam Brothers, Sir Christopher Wren, and other renowned architects appear here in images accompanied by detailed analyses. The author presents a chapter by chapter view of buildings in a variety of shapes with separate treatments of vestibules, corridors, domed and vaulted ceilings, pavilions, loggias, interior and exterior staircases, porticoes, and colonnades. The informative, readable text and handsome illustrations, as well as the sheer beauty of the buildings themselves, make this volume appealing not only to architects and architectural historians but also to anyone with even a casual interest in architecture and design.

Roberts' Illustrated Millwork Catalog Roberts & Co., 2013-01-23. When E. L. Roberts Co., a Chicago-based wholesale manufacturer of architectural woodwork, issued a catalog of its millwork products in 1903, the firm boasted that the publication included more novel and useful features than any sash and door catalogue yet published and that it was a book designed to satisfy critical buyers who demand stylish and tasteful goods. This volume reproduced directly from a rare turn of the century Roberts catalog displays a vast assortment of finely crafted products from window blinds, brackets, china closets, church fittings, doors, frames, gable finishes, linen closets, moldings, and office furniture to parquet floors, sashes, shingles, side boards, side lights, store fronts, wainscoting, and windows. Nearly 300 sharply defined line drawings and photographs also provide detailed close-ups of exquisitely carved rosettes, head blocks, grilles, arches, and other decorative accents. Included in these illustrations are superb views of late Victorian interiors finished with ornately carved balusters and newel posts, paneled walls, exquisite filigree, lovely stained glass windows, and magnificent fireplace mantels. Here is a practical source of plans and ideas for architects, students of architectural history, carpentry enthusiasts, preservationists, restorationists, and anyone interested in the interior design and furnishings of a bygone era.
