The Psychology of Social Networking

Vol.1 Giuseppe Riva,Brenda K. Wiederhold,Pietro Cipresso,2015-01-01 Using a novel approach to consider the available literature and research this book focuses on the psychology of social media based on the assumption that the experience of being in a social media has an impact on both our identity and social relationships In order to be online an individual has to create an online presence they have to share information about themselves online This online self is presented in different ways with diverse goals and aims in order to engage in different social media activities and to achieve desired outcomes Whilst this may not be a real physical presence that physicality is becoming increasingly replicated through photos video and ever evolving ways of defining and describing the self online Moreover individuals are using both PC based and mobile based social media as well as increasingly making use of photo and video editing tools to carefully craft and manipulate their online self This book therefore explores current debates in Cyberpsychology drawing on the most up to date theories and research to explore four main aspects of the social media experience communication identity presence and relationships In doing so it considers the interplay of different areas of psychological research with current technological and security insight into how individuals create manipulate and maintain their online identity and relationships The social media are therefore at the core of every chapter with the common thread throughout being the very unique approach to considering diverse and varied online behaviours that may not have been thus far considered from this perspective It covers a broad range of both positive and negative behaviours that have now become integrated into the daily lives of many westernised country s Internet users giving it an appeal to both scholarly and industry readers alike **Reflection in CBT** Beverly Haarhoff,Richard

Thwaites,2015-11-09 Developing skills and competency in CBT is a complex process of which self observation and self reflection are an essential part In this new book leading figures Beverly Haarhoff and Richard Thwaites outline the rationale for a focus on self reflective practice in CBT before offering practical and accessible guidelines demonstrating how this can be achieved in training and practice Highlighting relevant research throughout and using case studies to illustrate theory in practice ten chapters consider reflection in training and in supervision and self supervision reflecting on the therapeutic relationship on our sociocultural perceptions and biases and on client feedback how reflection is vital to self care and to becoming a better therapist supervisor and trainer This is an essential read for trainees in both high and low intensity CBT programmes those on broader CBT courses and for qualified practitioners working independently to enhance their self reflective capacity Health Psychology Charles Abraham,Mark Conner,Fiona Jones,Daryl O'Connor,2016-04-14 The new

edition of Health Psychology is the perfect introduction to this rapidly developing field Throughout the book the psychological processes that shape health related behaviours and affect core functions such as the immune and cardiovascular systems are clearly explained These relationships provide the foundation for psychological interventions which can change cognition perception and behaviour thereby improving health The book is split into five sections and builds to provide a comprehensive overview of the field the biological basis of health and illness stress and health coping resources

social support and individual differences motivation and behaviour relating to patients Extensively revised to include new material on behavioural change the role of stress resilience and social support recovery from work and the care of people with chronic disease the book also includes a range of features which highlight key issues and engage readers in applying what we have learned from research This is essential reading for any undergraduates studying this exciting field for the first time and the perfect primer for those embarking on postgraduate study
