The Sage Handbook Of Intellectual Property:

The SAGE Handbook of Intellectual Property Matthew David, Debora Halbert, 2014-11-18 This Handbook brings together scholars from around the world in addressing the global significance of controversies over and alternatives to intellectual property IP today It brings together over fifty of the leading authors in this field across the spectrum of academic disciplines from law economics geography sociology politics and anthropology This volume addresses the full spectrum of IP issues including copyright patent trademarks and trade secrets as well as parallel rights and novel applications In addition to addressing the role of IP in an increasingly information based and globalized economy and culture it also challenges the utility and viability of IP today and addresses a range of alternative futures

The Routledge Handbook of Technology, Crime and Justice M. R. McGuire, Thomas Holt, 2017-02-24 Technology has become increasingly important to both the function and our understanding of the justice process Many forms of criminal behaviour are highly dependent upon technology and crime control has become a predominantly technologically driven process one where traditional technological aids such as fingerprinting or blood sample analysis are supplemented by a dizzying array of tools and techniques including surveillance devices and DNA profiling This book offers the first comprehensive and holistic overview of global research on technology crime and justice It is divided into five parts each corresponding with the key stages of the offending and justice process Part I addresses the current conceptual understanding of technology within academia and the criminal justice system Part II gives a comprehensive overview of the current relations between technology and criminal behaviour Part III explores the current technologies within crime control and the ways in which technology underpins contemporary formal and informal social control Part IV sets out some of the fundamental impacts technology is now having upon the judicial process Part V reveals the emerging technologies for crime control and justice and considers the extent to which new technology can be effectively regulated This landmark collection will be essential reading for academics students and theorists within criminology sociology law engineering and technology and computer science as well as practitioners and professionals working within and around the criminal justice system

Intellectual Property and Clean Energy Matthew Rimmer, 2018-10-26 This collection considers the future of climate innovation after the Paris Agreement It analyses the debate over intellectual property and climate change in a range of forums including the climate talks the World Trade Organization and the World Intellectual Property Organization as well as multilateral institutions dealing with food health and biodiversity The book investigates the critical role patent law plays in providing incentives for renewable energy and access to critical inventions for the greater public good as well as plant breeders rights and their impact upon food security and climate change Also considered is how access to genetic resources raises questions about biodiversity and climate change This collection also explores the significant impact of trademark law in terms of green trademarks eco labels and greenwashing The key role played by copyright law in respect of access to environmental information is also considered The

book also looks at deadlocks in the debate over intellectual property and climate change and provides theoretical policy and practical solutions to overcome such impasses **A Critical Guide to Intellectual Property** Mat Callahan, Jim

Rogers, 2017-10-15 Ours is an era when human genes can be copied and patented From genetically modified foods to digital piracy the concept of intellectual property IP and the laws upholding it play a foundational role in our society but its political and ideological dimensions have rarely been understood outside of specialist circles This collection cuts through the legal jargon that so often surrounds IP to provide both a comprehensive history and analysis that explores the corporate interests that shape its conception and the movements that are developing alternatives As the nature of industry changes we might ask what are the wider implications of the concept of IP be it for agribusiness and pharmaceutical companies or the film and music industries Has IP law been used to safeguard and assert the ownership of ideas and creativity or is it an essential foundation of our culture Today with mounting challenges from the growth of free software and open source movements this collection provides an accessible and alternative guide to IP exploring its significance within the wider struggle between capital and the commons **Intellectual Property and the Law of Nations, 1860-1920**, 2022-05-16 What was the state

of the law and how states managed to fulfil their international legal obligations under the law of nations with respect to intellectual property protection 13 contributors show how the transition of intellectual property from private rights holders and their non state patrons evolves into state lawmaking The book presents these transitions through international legal perspectives and the history of intellectual property rights in late modern societies in Europe the United States Asia and Colonial States in Africa Contributors are Daniel Acquah Ainee Adam Louise Duncan Johanna Gibson Philip Johnson Jyh An Lee Yangzi Li P Sean Morris Peter Munkacsi Zvi Rosen Devanshi Saxena Johannes Thumfart and Esther van Zimmeren

Intellectual Property and Development: Understanding the Interfaces Carlos Correa, Xavier Seuba, 2019-02-25 This book comprises chapters by leading international authors analysing the interface between intellectual property and foreign direct investment development and free trade The authors search for a balance between the conflicting interests that inherently coexist in intellectual property law The chapters dig deep into the subjects and notions that have become central in international intellectual property legal developments i flexibility public interest and policy space for implementation ii interfaces between the intellectual property regime and other legal regimes and iii the development of international intellectual property law and its influence on national legal orders which includes the implementation of intellectual property undertakings Sharing Matthew David, 2017-07-25 Today s economic system premised on the sale of physical goods does not fit the information age in which we live The capitalist order requires the maintenance of an artificial scarcity in goods that have the potential for near infinite and almost free replication The sharing of informational goods through distributed global networks digital libraries file sharing live streaming free software free access publishing the free sharing of scientific knowledge and open source pharmaceuticals not only challenges the dominance of a scarcity based economic system but also

enables a more efficient innovative just and free culture In a series of seven explorations of contemporary sharing Matthew David shows that in each case sharing surpasses markets private ownership and intellectual property rights in fostering motivation creativity innovation production distribution and reward In transforming the idea of an information economy into an information society sharing connects struggles against inequality and poverty in developed and developing countries Challenging taken for granted justifications of the status quo Sharing debunks the tragedy of the commons and makes the case for digital network sharing as a viable mode of economic counterpower prefiguring a post capitalist society The Elgar Companion to Intellectual Property and the Sustainable Development Goals Matthew Rimmer, Caroline B. Ncube, Bita Amani, 2024-02-12 Complex geopolitical debate surrounds the role of intellectual property IP in advancing and achieving the UN's Sustainable Development Goals SDGs Summarising and advancing this discourse this prescient Companion is a thorough examination of how IP law interacts influences and impacts each of the seventeen SDGs The Protection of Traditional Knowledge at the Frontiers of Drug Discovery Peter S Harrison, 2024-09-19 This book concerns the often fractious interface between drug discovery and commercialisation environmental degradation the biodiversity crisis the exploitation of indigenous peoples and the destruction of their culture the right to health inequalities of power and the ability of the law to protect knowledge For millennia medicinal plants have provided a trove of treatments for human ailments and the key to that treasure has been the traditional knowledge of the indigenous peoples who have lived alongside these plants More recently that knowledge has been taken often without consent or recompense by Western science as a springboard for the development of pharmaceutical agents As a response to threats to biodiversity and indigenous culture international mechanisms have created or are creating enforceable rights for indigenous peoples to control such knowledge With a background in pharmacology and molecular biology and significant experience as a lawyer in pharmaceutical and biotech patent litigation the author brings a fresh perspective to understanding the difficulties of enforcing such rights and in particular examines whether there is a philosophically justifiable limit to the downstream scope of such rights This book is aimed at all those with an interest in the control of indigenous genetic knowledge and the protection of indigenous culture whether academics anthropologists or pharmaceutical researchers and those seeking to make indigenous rights work as activists legislators or practising lawyers *Ethical Values and the Integrity of the Climate Change Regime* Hugh Breakey, Vesselin Popovski, 2016-05-23 This book investigates the ethical values that inform the global carbon integrity system and reflects on alternative norms that could or should do so The global carbon integrity system comprises the emerging international architecture being built to respond to the climate change This architecture can be understood as an integrity system an inter related set of institutions governance arrangements regulations and practices that work to ensure the system performs its role faithfully and effectively This volume investigates the ways ethical values impact on where and how the integrity system works where it fails and how it can be improved With a wide array of perspectives across many

disciplines including ethicists philosophers lawyers governance experts and political theorists the chapters seek to explore the positive values driving the global climate change processes to offer an understanding of the motivations justifying the creation of the regime and the way that social norms impact upon the operation of the integrity system The collection focuses on the nexus between ideal ethics and real world implementation through institutions and laws The book will be of interest to policy makers climate change experts carbon taxation regulators academics legal practitioners and researchers

Radically Rethinking Copyright in the Arts James Young, 2020-06-11 This book radically rethinks the philosophical basis of copyright in the arts The author reflects on the ontology of art to argue that current copyright laws cannot be justified The book begins by identifying two problems that result from current copyright laws 1 creativity is restricted and 2 they primarily serve the interests of large corporations over those of the artists and general public Against this background the author presents an account of the ontology of artworks and explains what metaphysics can tell us about ownership in the arts Next he makes a moral argument that copyright terms should be shorter and that corporations should not own copyrights The remaining chapters tackle questions regarding the appropriation of tokens of artworks pattern types and artistic elements The result is a sweeping reinterpretation of copyright in the arts that rests on sound ontological and moral foundations **Radically Rethinking Copyright in the Arts** will be of interest to scholars and advanced students working in aesthetics and philosophy of art metaphysics philosophy of law and intellectual property law

Epistemology and Technology Frank Scalabrino,2015-12-16 How has technology changed what it means to be human and to be a member of a human society How has technology changed the way we acquire knowledge of the world we inhabit In light of these changes and the direction we are moving how should the pursuit of knowledge be organized Social Epistemology and Technology provides insights into such questions relating to public self awareness regarding technology The concerns addressed in this book apply to a large and diverse audience including but not limited to those interested in social epistemology technology cultural studies trans humanism augmented subjectivity futurology human sciences social sciences political sciences communication psychology science and technology studies and philosophy This is the first book of its kind to focus solely on technology and its socially specific epistemological themes It offers insight into public self awareness regarding technology by providing an understanding of persons in relation to the technological changes that have occurred and continue to occur across the societies they people **Transboundary Heritage and Intellectual Property**

Law Patricia Covarrubia,2022-11-30 Since the Intangible Heritage Convention was adopted by UNESCO in 2003 intangible cultural heritage has increasingly been an important subject of debate in international forums As more countries implement the Intangible Heritage Convention national policymakers and communities of practice have been exploring the use of intellectual property protection to achieve intangible cultural heritage safeguarding outcomes This book examines diverse cultural heritage case studies from Indigenous communities and local communities in developing and industrialised countries to offer an interdisciplinary examination of topics at the intersection between heritage and property which present cross border challenges Analysing a range of case studies which provide examples of traditional knowledge traditional cultural expressions and genetic resources by a mixture of practitioners and scholars from different fields the book addresses guidelines and legislation as well as recent developments about shared heritage to identify a progressive trend that improves the understanding of intangible cultural heritage Considering all forms of intellectual property including patents copyright design rights trade marks geographical indications and sui generis rights the book explores problems and challenges for intangible cultural heritage in crossborder situations as well as highlighting positive relationships and collaborations among communities across geographical boundaries Transboundary Heritage and Intellectual Property Law Safeguarding Intangible Cultural Heritage will be an important resource for practitioners scholars and students engaged in studying intangible cultural heritage intellectual property law heritage studies and anthropology Patent Intensity and Economic Growth

Daniel Benoliel, 2017-12-14 Economic growth has traditionally been attributed to the increase in national production arising from technological innovation Using a panel of seventy nine countries bridging the North South divide Patent Intensity and Economic Growth is an important empirical study on the uncertain relationship between patents and economic growth It considers the impact of one size fits all patent policies on developing countries and their innovation based economic growth including those policies originating from the World Intellectual Property Organization the World Trade Organization and the World Health Organization as well as initiatives derived from the TRIPS Agreement and the Washington Consensus This book argues against patent harmonization across countries and provides an analytical framework for country group coalitioning on policy at UN level It will appeal to scholars and students of patent law national and international policy makers venture capitalist investors and research and development managers as well as researchers in intellectual property innovation and economic growth

Parody in the Age of Remix Ragnhild Brøvig, 2023-06-27 The art of mashup music its roots in parody and its social and legal implications Parody needn't recognize copyright but does an algorithm recognize parody The ever increasing popularity of remix culture and mashup music where parody is invariably at play presents a conundrum for internet platforms with their extensive automatic algorithmic policing of content Taking a wide ranging look at mashup music the creative and technical considerations that go into making it the experience of play humor enlightenment and beauty it affords and the social and legal issues it presents Parody in the Age of Remix offers a pointed critique of how society balances the act of regulating art with the act of preserving it In several jurisdictions national and international parody is exempted from copyright laws Ragnhild Brøvig contends that mashups should be understood as a form of parody and thus be protected from removal from hosting platforms Nonetheless current copyright related content moderation regimes relying on algorithmic detection and automated decision making frequently eliminate what might otherwise be deemed gray area content to the detriment of human listeners and especially artists Given the inaccuracy of takedowns Parody in the Age of Remix makes a persuasive argument in favor of greater protection for remix creativity in the future but it also suggests that the content moderation challenges facing mashup producers and other remixers are symptomatic of larger societal issues

Safeguarding Intangible Heritage Natsuko Akagawa, Laurajane Smith, 2018-06-27 The UNESCO Convention for the Safeguarding of the Intangible Cultural Heritage came into force in 2006 framing the international and national practices and policies associated with intangible cultural heritage This volume critically and reflexively examines these practices and policies providing an accessible account of the different ways in which intangible cultural heritage has been defined and managed in both national and international contexts As Safeguarding Intangible Heritage reveals the concept and practices of safeguarding are complicated and often contested and there is a need for international debate about the meaning nature and value of heritage and what it means to safeguard it Safeguarding Intangible Heritage presents a significant cross section of ideas and practices from some of the key academics and practitioners working in the area whose areas of expertise span

anthropology law heritage studies linguistics archaeology museum studies folklore architecture Indigenous studies and history The chapters in this volume give an overarching analysis of international policy and practice and critically frame case studies that analyze practices from a range of countries including Australia Canada China Indonesia Japan Korea Kyrgyzstan New Zealand Taiwan the UK and Zimbabwe With a focus on conceptual and theoretical issues this follow up to Intangible Heritage by the same editors will be of great interest to students scholars and professionals working in the fields of heritage and museum studies heritage conservation heritage tourism global history international relations art and architectural history and linguists
