Making Conclusions

22. If a child has an autosomal dominant trait, what can you say about the parents?

At least one parent has the trait

23. If two parents have an autosomal dominant trait, what can you say about their children?

If one of the parents is homozygous then all the children will have it. If both parents are heterozygous, then there is a 75% chance that they will have the trait.

24. If two parents have an autosomal recessive trait, what can you say about their children?

All their children will have the trait

25. If two parents do not have an autosomal recessive trait, what can you say about their children?

If one of the parents is homozygous dominant then none of the children will have it. If both parents are heterozygous, then there is a 25% chance that they will have the trait.

26. Can autosomal recessive traits skip generations?

Yes, example - heterozygous parents can make a homozygous recessive child
