

The Single Man's Guide to Great Women

A Step-by-Step Guide to Help You Meet, Attract, and Date the Girl of Your Dreams –

Written by a Woman Who Knows.

Tiffany Taylor

Introduction –

What Women Really Want

Women are complicated creatures. I should know – I am one.

We unintentionally intimidate men who spend countless hours trying to transform themselves into the kind of man they think women desire. I believe every man has it in him to become irresistible to women – regardless of their age, income, or experience with the opposite sex.

In this guide, I'm going to confess to some of women's most guarded tactics. I'm going to show you how we manipulate you, how you can manipulate us, and what actions (and in-actions) can help you get the woman of your dreams – forever or for only one night.

I feel like a Benedict Arnold of sorts – a traitor to my gender in spilling all of our secrets, but I also feel like it's time men had the upper hand when it comes to women and our ways of slithering through the dating scene.

We often wield the power at the beginning of the relationship simply because tradition dictates that a man is supposed to ask the woman out. You're supposed to impress us, gather up the courage to ask us out, pay for our dinners, and generally tempt us into giving you what you want.

Analysing American Advice Books for Single Mothers Raising Sons Berit Åström, 2023-02-07 Although single fathers as primary careers are on the rise most single parent households in the US are headed by women These women are a lucrative market for parenting books and most of these books are aimed at single mothers raising sons This intersectional study analyses the way in which these advice books draw on mother blame language misconceptions of neuropsychological research and traditional conceptualisations of masculinity and femininity to convince the mother readers that they are unable to raise a son to be a man The study further connects the advice books to a cultural backlash against ideas of involved fatherhood and caring masculinity exploring how the authors argue for a return to traditional family structures
