[Decluttering! Discover This Guide About How To Effectively Use Decluttering Techniques For Beginner's](#) Old Natural Ways,2021-08-30 There s a simple solution and it s called decluttering This method hard though it might be at times could completely change your entire life It can literally add years to your life and it can practically transform your living space from one you dread to one you enjoy being in Here s how it works I m a big believer of the fact that getting started is usually the hardest part The first year or so of decluttering especially if you re doing it alone is when you ll really need a solid decluttering plan You ll need a system where you ll be able to keep track of everything where you ll be able to sort through things to see which ones are most important to you and which ones you d rather get rid of You will want to keep a notepad and pen on hand so you can write down reminders as they come into view You ll also want a good decluttering calendar the kind with all the separate days months and seasons on it to help keep you on schedule Now most people have probably heard that decluttering is actually a lot harder than organizing but that s not true There are two distinct differences here First of all decluttering is dealing with the messes and debris and sorting them out yourself while organizing requires you to have some organizational skills and tools as well Second of all decluttering involves actually getting rid of the mess For instance let s say you re decluttering your home and you really feel like you ve done everything only to find a box of clothing laying on the floor and then an old rug You might easily be tempted to just throw those out

because there are so many other things in the house that should be sorted and placed in a neat pile However that box of clothing and that ragged rug won't actually get disposed of even if you just threw it out If you store those items somewhere and never use it again then they will just sit there taking up space Instead you should go through your entire house and either donate or sell or even give those items to someone who actually uses them or maybe even starts their own business selling them When it comes to decluttering storage bins are the tools of the trade If you don't have any storage bins then you will have to get creative with other storage methods like putting things into boxes But don't worry storage bin decluttering tips are easy to follow The first thing you need to do is get rid of anything you no longer use Even if it's something you haven't used in five years you should still put it in the box because it might still be somewhere in your house *Clean Sweep*
