

ORIGINAL OPTION

Martin approached a vehicle finance company after deciding on a car priced at R 285 000. The company initially offered him 72 months to make repayments of R 5 439,36 per month.

The graph on ANNEXURE A represents the total repayments of the 72 months. Study the graph and answer the questions that follow.

QUESTIONS

1. Why does the graph start at 0 months and R 0,00? (2)
2. Would you advice the option to start repaying one month after receiving the car? Explain your answer. (2)
3. How much money will Martin repay after:
 - 3.1 one month (2)
 - 3.2 10 months (2)
 - 3.3 36 months? (2)

Woodcock-Johnson IV Nancy Mather, Lynne E. Jaffe, 2016-01-22 Includes online access to new customizable WJ IV score tables graphs and forms for clinicians Woodcock Johnson IV Reports Recommendations and Strategies offers psychologists clinicians and educators an essential resource for preparing and writing psychological and educational reports after administering the Woodcock Johnson IV Written by Drs Nancy Mather and Lynne E Jaffe this text enhances comprehension and use of this instrument and its many interpretive features This book offers helpful information for understanding and using the WJ IV scores provides tips to facilitate interpretation of test results and includes sample diagnostic reports of students with various educational needs from kindergarten to the postsecondary level The book also provides a wide variety of recommendations for cognitive abilities oral language and the achievement areas of reading written language and mathematics It also provides guidelines for evaluators and recommendations focused on special populations such as sensory impairments autism English Language Learners and gifted and twice exceptional students as well as recommendations for the use of assistive technology The final section provides descriptions of the academic and behavioral strategies mentioned in the reports and recommendations The unique access code included with each book allows access to downloadable easy to customize score tables graphs and forms This essential guide Facilitates the use and interpretation of the WJ IV Tests of Cognitive Abilities Tests of Oral Language and Tests of Achievement Explains scores and various interpretive features Offers a variety of types of diagnostic reports Provides a wide variety of educational recommendations and evidence based strategies

The Education Invasion Joy Pullmann, 2017-03-14 Most Americans had no idea what Common Core was in 2013 according to polls But it had been creeping into schools nationwide over the previous three years and children were feeling its effects They cried over math homework so mystifying their parents could not help them even in elementary school They read motley assortments of informational text instead of classic literature They dreaded the high stakes tests in unfamiliar formats that were increasingly controlling their classrooms How did this latest and most sweeping reform of American education come in mostly under the radar Joy Pullmann started tugging on a thread of reports from worried parents and frustrated teachers and it led to a big tangle of history and politics intrigue and arrogance She unwound it to discover how a cabal of private foundation honchos and unelected public officials cooked up a set of rules for what American children must learn in core K 12 classes and how the Obama administration pressured states to adopt them Thus a federalized education scheme took root despite legal prohibitions against federal involvement in curriculum Common Core and its testing regime were touted as an absolute game changer in public education yet the evidence so far suggests that kids are actually learning less under it Why then was such a costly and disruptive agenda imposed on the nation s schools Who benefits And how can citizens regain local self governance in education so their children s minds will be fed a more nourishing intellectual diet and be protected from the experiments of emboldened bureaucrats The Education Invasion offers

answers and remedies **The Meritocracy Trap** Daniel Markovits, 2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When The Meritocracy Trap reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people Risk, Reliability and Safety: Innovating Theory and Practice Lesley Walls, Matthew Revie, Tim Bedford, 2016-11-25 The safe and reliable performance of many systems with which we interact daily has been achieved through the analysis and management of risk From complex infrastructures to consumer durables from engineering systems and technologies used in transportation health energy chemical oil gas aerospace maritime defence and other sectors the management of risk during design manufacture operation and decommissioning is vital Methods and models to support risk informed decision making are well established but are continually challenged by technology innovations increasing interdependencies and changes in societal expectations Risk Reliability and Safety contains papers describing innovations in theory and practice contributed to the scientific programme of the European Safety and Reliability conference ESREL 2016 held at the University of Strathclyde in Glasgow Scotland 25-29 September 2016 Authors include scientists academics practitioners regulators and other key individuals with expertise and experience relevant to specific areas Papers include domain specific applications as well as general modelling methods Papers cover evaluation of contemporary solutions exploration of future challenges and exposition of concepts methods and processes Topics include human factors occupational health and safety dynamic and systems reliability modelling maintenance optimisation uncertainty analysis resilience assessment risk and crisis management *St. Louis Daily Market Reporter and Merchants Exchange Price Current* ,1918 Hoard's Dairyman ,1900
