SketchUp for Civil Engineering and Heavy Construction: Modeling Workflow and Problem Solving for Design and Construction Vladimir F. Simonovski, 2021-08-05 Save schedule time and cost by utilizing SketchUp and Information Modeling and Organization for civil engineering projects in the heavy construction industry This comprehensive guide showcases an easy to follow workflow methodology for incorporating SketchUp in day to day activities during the design and construction phases of civil engineering projects The book concentrates on the idea of Information Modeling and Organization for projects from the heavy construction industry with richly illustrated and highly detailed real world examples SketchUp for Civil Engineering and the Heavy Construction Industry Modeling Workflow and Problem Solving for Design and Construction explores the efficient way to convert 2D construction plans into a 3D model that can be used for planning clash detection problem identification prior to start of construction field guidance work plan creation and visualization support during meetings The reader will become familiar with the following Introduction to Information Modeling and Organization Introduction to report generation based on the concept of information modeling SketchUp core tools supplementary applications menus properties and many other aspects of the software 3D modeling of bridge components terrain modeling utilization of survey data for 3D models utilization of CAD files for the purpose of 3D modeling and more Workflow examples for creation of 3D models for clash detection purposes by incorporating different components rebar post tensioning drainage system fire suppression system girders formwork etc Creation of dynamic components especially useful for construction equipment Utilization of SketchUp models for field management use file sharing revisions and more Introduction to styles and how to make your 3D models intriguing

Mirror Opens Ancient Temple Door. William Van Zyl, 2023-12-29 I have produced a fictitious short story about how Lara and Alexander the two archaeologists found the elusive El Dorado temple and unearthed the Golden Mask In this resource including the exciting legend of the elusive city of El Dorado I look at the story the gold the treasure the golden mask and a modern day escape room I provide prompts for using technology in the context of creating an El Dorado themed escape room Inspired by my visit to an escape room in Hamilton NZ in December 2023 I show how technology like digital sensors surveillance cameras and more could be used in escape rooms I use a simple microprocessor like the Arduino Uno to show how this microprocessor could detect light

and switch a rack and pinion powered by an electric motor to open a door Just like Lara and Alexander opened the door by reflecting the shaft of daylight from the cave roof onto the mirrors and the Sun motif I use the Arduino an LDR light dependent resistor a relay and an electric motor to show how a door in an escape room can be opened This resource could be helpful to teachers and students The focus is integrating different subject areas for a lesson for high school students For example the brief is to design an El Dorado themed escape room I focus on technical aspects like art design and electronics digital sensors surveillance cameras servos racks and pinions and more to detect switch and move doors The focus is also on how to create a light sensor LDR light dependent resistor to detect when a mirror reflects light that suddenly comes from a crack in the cave an electrical light switched on after a symbolic puzzle is solved Improving and developing collaboration and solving real life problems is another aspect I investigate I look at the design of a board game context Escape room Developing creative and innovative skills of students and teachers I also touch on renewable systems Installing solar panels wind turbines inverters and 12 Volt DC batteries on a micro scale to power an escape room or a model of an escape room Lastly I provide links to cave ecosystems I include the Waitomo Caves in New Zealand famous glowworms See the ideas and concepts for possible lessons for students in this article It is challenging to layer embed and integrate different subject areas into one or a set of lessons

Drone Technology in Architecture, Engineering and Construction Daniel Tal,Jon Altschuld,2021-01-08 A start to finish roadmap on incorporating drone technology into your AEC firm workflow Drone Technology in Architecture Engineering and Construction A Strategic Guide to Unmanned Aerial Vehicle Operation and Implementation is the only process driven step by step handbook to implement drone technology in AEC workflows It provides a comprehensive and practical roadmap for architecture engineering and construction firms to incorporate drones into their design and construction processes The book offers extensive information on drone data processing and includes guidance on how to acquire manipulate and use the various data types produced from drone flights The creation of three dimensional data and visualizations are covered in depth Drone Technology reviews how to select and fly drones based on data needs and initial costs and how to collect and maintain required flight logs licenses and permits Drone Technology uses several real world project examples that demonstrate and explain how drones can be used to collect Full color orthorectified imagery Accurate 3D point cloud and mesh models Topographic contours Digital Elevation Models DEMs The project examples also describe how these datasets can be integrated with 3D models of proposed conditions photos and other project datasets Drone Technology in Architecture Engineering and Construction is an essential guide for a wide variety of professionals from civil engineers to landscape architects It provides information on professional use of drones for those just considering the technology to those already flying drones professionally It is an invaluable guide for anyone working in the design or construction of buildings and landscapes
