**From Antebellum Light Skinned Slaves to the Globalization of Skin Whitening Biotechnology** Amina Mire, 2025-03-15 From Antebellum Light Skinned Slaves to the Globalization of Skin Whitening Biotechnology takes historically grounded analysis and delineates how the skin whitening industry has become a contemporary site that facilitates commodification of unregulated whiteness on a global scale Amina Mire investigates the extent to which antebellum South anti miscegenation racial purity laws facilitated unofficial interracial reproduction of light skinned slaves resulting primarily from a systemic rape of enslaved Black women by white slave masters This is because while different in terms of historical context what the unregulated globalization of the skin whitening industry and the antebellum unofficial reproduction and trade in light skinned slaves have in common is the unofficial and unregulated nature of the accumulation of economic symbolic and aesthetic investment in whiteness The central argument of this book is that commodifiable whiteness is a form of racial capital with profound health social and political implications Consequently as long as whiteness remains a salient ideological force that shapes global understanding of standards of beauty and desirability commodification of whiteness will continue to further entrench systems of racism and colorism The author argues this requires taking seriously the resilience and malleability of white supremacy and its ability to rebrand itself endlessly

**Robots in Literature, Film, and Popular Culture** Gregory Jerome Hampton, 2015-10-22 Imagining Slaves and Robots in Literature Film and Popular Culture Reinventing Yesterday s Slave with Tomorrow s Robot is an interdisciplinary study that seeks to investigate and speculate about the relationship between technology and human nature It is a timely and creative analysis of the ways in which we domesticate technology and the manner in which the history of slavery continues to be utilized in contemporary society This text interrogates how the domestic slaves of the past are being re imaged as domestic robots of the future Hampton asserts that the rhetoric used to persuade an entire nation to become dependent on the institution of chattel slavery will be employed to promote the enslavement of technology in the form of humanoid robots with Artificial Intelligence Imagining Slaves and Robots in Literature Film and Popular Culture makes the claim that science fiction film and popular culture have all been used to normalize the notion of robots in domestic spaces and relationships In examining the similarities of human slaves and mechanical or biomechanical robots this text seeks to gain a better understanding of how slaves are created and justified in the imaginations of a supposedly civilized nation And in doing so give pause to those who would disassociate America s past from its imminent future Slave Theater in the Roman Republic

passed in 1865 has long been viewed as a definitive break with the nation's past by abolishing slavery and ushering in an inexorable march toward black freedom. *Slaves of the State* presents a stunning counterhistory to this linear narrative of racial, social, and legal progress in America. Dennis Childs argues that the incarceration of black people and other historically repressed groups in chain gangs, peon camps, prison plantations, and penitentiaries represents a ghostly perpetuation of chattel slavery. He exposes how the Thirteenth Amendment's exception clause allowing for enslavement as punishment for a crime has inaugurated forms of racial capitalist misogynist incarceration that serve as haunting returns of conditions Africans endured in the barracoons and slave ship holds of the Middle Passage, on plantations and in chattel slavery. Childs seeks out the historically muted voices of those entombed within terrorizing spaces such as the chain gang, rolling cage, and the modern solitary confinement cell, engaging the writings of Toni Morrison and Chester Himes as well as a broad range of archival materials including landmark court cases, prison songs, and testimonies reaching back to the birth of modern slave plantations such as Louisiana's Angola penitentiary. *Slaves of the State* paves the way for a new understanding of chattel slavery as a continuing social reality of U.S. empire, one resting at the very foundation of today's prison industrial complex that now holds more than 2.3 million people within the country's jails, prisons, and immigrant detention centers.

*The African Americans* Henry Louis Gates (Jr.), Donald Yacovone, 2013. Chronicles five hundred years of African American history from the origins of slavery on the African continent through Barack Obama's second presidential term, examining contributing political and cultural events.

*Slaves Into Workers* Ahmad Alawad Sikainga, 2014-05-29. Unlike African slavery in Europe and the Americas, slavery in the Sudan and other parts of Africa persisted well into the twentieth century. Sudanese slaves served Sudanese masters until the region was conquered by the Turks, who practiced slavery on a larger institutional scale. When the British took over the Sudan in 1898, they officially emancipated the slaves yet found it impossible to replace their labor in the country's economy. This pathfinding study explores the process of emancipation and the development of wage labor in the Sudan under British colonial rule. Ahmad Sikainga focuses on the fate of ex-slaves in Khartoum and on the efforts of the colonial government to transform them into wage laborers. He probes into what colonial rule and city life meant for slaves and ex-slaves and what the city and its people meant for colonial officials. This investigation sheds new light on the legacy of slavery and the status of former slaves and their descendants. It also reveals how the legacy of slavery underlies the current ethnic and regional conflicts in the Sudan. It will be vital reading for students of race relations and slavery, colonialism, and postcolonialism, urbanization, and labor history in Africa and the Middle East.

**Slavery and Historical Capitalism during the Nineteenth Century** Dale Tomich, 2017-10-16. This book examines the historiography of nineteenth-century slavery from the perspective of the second slavery. The concept of the second slavery emphasizes the relationship between local histories and world economic transformations. It breaks with conventional narratives of slavery by emphasizing the expansion of reconfigured slaveries in extensive new zones of commodity production in Brazil, Cuba, and the US South, as

part of world economic processes of decolonization industrialization urbanization and the creation of mass markets Thus slavery was not a moribund institution Capitalist modernity liberal ideology and anti slavery from above or from below faced a vigorous foe that operated within the very economic political and cultural premises of the changing 19th century world This perspective offers an original approach to the history of slavery It has opened up vigorous debates over slavery and anti slavery Atlantic history and capitalism An international group of scholars critically engage older traditions of scholarship on Atlantic history the economic history of slavery and the history of slavery in Cuba Brazil and the United States from the perspective of the second slavery Each chapter reinterprets its subject matter in a way that opens out to dialogue between national historiographies and to a reformulation of Atlantic and world economic history This collection of essays contributes to the development of a more productive conceptual framework for the reconstruction and reinterpretation of the historical relation of slavery and world capitalism during the nineteenth century

**Captives and Companions** Justin Marozzi, 2025-10-21 The definitive history of the slave trade in the Islamic world a story that has been overshadowed by its notorious but shorter lived Atlantic counterpart Slavery in the Islamic world has a long complex and controversial history In the earliest days of Islam Arab Muslims enslaved men women and children as the spoils of war In the following centuries young boys were imported to imperial Islamic courts in enormous numbers Some were castrated to serve as eunuch guardians of sacred spaces from the imperial harem of Istanbul to the Prophet's Mosque in Medina Others were harvested by the Ottomans to serve as Janissaries the sultan's elite infantry unit Some even rose to the highest levels of political and military command making a mockery of their slave status For women leading concubines became powerful figures in their own right In the ninth century Golden Age of Baghdad the most beautiful and accomplished courtesans were among the richest most celebrated figures of their day In the twentieth century more than a thousand years later their cosmopolitan counterparts were still entertaining Ottoman sultans Yet it was Africa which bore the brunt of the Islamic world's insatiable demand for slave labour Slavers plied its Mediterranean Atlantic and Indian Ocean coasts traders raided inland for human cargo and millions of enslaved Africans trudged across the Sahara into captivity Meanwhile North African corsairs turned the Mediterranean into a slaving free for all between Muslims Christians and Jews The sheer longevity of slavery was no less surprising Arab Muslims adapted and regulated this practice within an Islamic context Sanctioned by the Prophet Mohammed legitimated by the Quran and holy law slavery endured for fifteen centuries Abolition had few champions and came late in the day hereditary slavery continues even today in Mali and Mauritania **Captives and Companions** takes the reader on an extraordinary historical journey across deserts continents and oceans from Baghdad to Bamako Tripoli to Timbuktu Istanbul to the Black Sea and reveals a hidden but vital chapter in our understanding of world civilization

**American Anatomies** Robyn Wiegman, 1995 In this brilliantly combative study Robyn Wiegman challenges contemporary clichés about race and gender a formulation that is itself a cliché in need of questioning As part of what she calls her feminist disloyalty she turns a critical even skeptical eye on current debates about multiculturalism and difference while simultaneously exposing the many ways in which white racial supremacy has been reconfigured since the institutional demise of segregation Most of all she examines the hypocrisy and contradictoriness of over a century of narratives that posit Anglo Americans as heroic agents of racism's decline Whether assessing Uncle Tom

s Cabin lynching Leslie Fiedler's racist mapping of the American novel the Black Power movement of the 60s 80s buddy films or the novels of Richard Wright and Toni Morrison Wiegman unflinchingly confronts the paradoxes of both racism and antiracist agendas including those advanced from a feminist perspective American Anatomies takes the long view What epistemological frameworks allowed the West from the Renaissance forward to schematize racial and gender differences and to create social hierarchies based on these differences How have those epistemological regimes changed and not changed over time Where are we now With painstaking care political passion and intellectual daring Wiegman analyzes the biological and cultural bases of racial and gender bias in order to reinvigorate the discussion of identity politics She concludes that for very different reasons identity proves to be dangerous to minority and majority alike *The Literatures of Spanish America and Brazil* Earl E. Fitz, 2025-09-02 Charting the twentieth century course of the literature of the Americas The second volume of Earl E Fitz's magisterial survey of the field *The Literatures of Spanish America and Brazil The Twentieth Century* analyzes Spanish and Portuguese language writing throughout South and Central America as well as in the United States and Canada where it expanded and flourished over the course of the century Fitz argues that Spanish American and Brazilian literatures should be treated as two sides of the same coin together forging a hemispheric identity as new literary aesthetics and political crises swept through the Americas Fitz takes readers on a comparative journey analyzing writers such as Octavio Paz and Juan Rulfo from Mexico Julia de Burgos and Luis Pal's Matos from Puerto Rico Jorge Luis Borges and Victoria Ocampo from Argentina and Mário de Andrade and Patrícia Galvão from Brazil among many others to inspire a more thoroughly integrated understanding of the literature of the Americas *Tales of the Latter Kingdoms, Books 1-3* Christine Pope, **Race in American Film** Daniel Bernardi, Michael Green, 2017-07-07 This expansive three volume set investigates racial representation in film providing an authoritative cross section of the most racially significant films actors directors and movements in American cinematic history Hollywood has always reflected current American cultural norms and ideas As such film provides a window into attitudes about race and ethnicity over the last century This comprehensive set provides information on hundreds of films chosen based on scholarly consensus of their importance regarding the subject examining aspects of race and ethnicity in American film through the historical context themes and people involved This three volume set highlights the most important films and artists of the era identifying films actors or characterizations that were considered racist were tremendously popular or hugely influential attempted to be progressive or some combination thereof Readers will not only learn basic information about each subject but also be able to contextualize it culturally historically and in terms of its reception to understand what average moviegoers thought about the subject at the time of its popularity and grasp how the subject is perceived now through the lens of history *The Overthrow of Colonial Slavery* Robin Blackburn, 2024-12-10 In 1770 a handful of European nations ruled the Americas drawing from them a stream of products both everyday and exotic Some two and a half million black slaves imprisoned in plantation colonies toiled to produce the

sugar coffee cotton ginger and indigo craved by Europeans By 1848 the major systems of colonial slavery had been swept away either by independence movements slave revolts abolitionists or some combination of all three How did this happen Robin Blackburn s history captures the complexity of a revolutionary age in a compelling narrative In some cases colonial rule fell while slavery flourished as happened in the South of the United States and in Brazil elsewhere slavery ended but colonial rule remained as in the British West Indies and French Windwards But in French St Domingue the future Haiti and in Spanish South and Central America both colonialism and slavery were defeated This story of slave liberation and American independence highlights the pivotal role of the first emancipation in the French Antilles in the 1790s the parallel actions of slave resistance and metropolitan abolitionism and the contradictory implications of slaveholder patriotism The dramatic events of this epoch are examined from an unexpected vantage point showing how the torch of anti slavery passed from the medieval communes to dissident Quakers from African maroons to radical pirates from Granville Sharp and Ottobah Cuguano to Toussaint L Ouverture from the black Jacobins to the Liberators of South America and from the African Baptists in Jamaica to the Revolutionaries of 1848 in Europe and the Caribbean
