L. Hens, 2016-04-25 Bad experiences with construction quality the energy crises of 1973 and 1979 complaints about sick buildings thermal acoustical visual and olfactory discomfort the need for good air quality the move towards more sustainability all these have accelerated the development of a field that for a long time was hardly more than an academic exercise building physics The discipline embraces domains such as heat and mass transfer building acoustics lighting indoor environmental quality and energy efficiency In some countries fire safety is also included Through the application of physical knowledge and its combination with information coming from other disciplines the field helps to understand the physical phenomena governing building parts building envelope whole building and built environment performance although for the last the wording urban physics is used Building physics has a real impact on performance based building design This volume on Applied Building Physics discusses the heat air and moisture performance metrics that affect building design construction and retrofitting **Integrated Coastal Zone Management** Frank Ahlhorn, 2017-06-06 An overview of the coordination of various requirements for coastal zone use is provided in this book offering examples and best practice Although it focuses on European coastal zones it also considers global and historical developments Questions at the end of each chapter enable readers to test their understanding **Miscellaneous Catalogues** Robert Buchanan (Publisher.), 1829 **Transcultural Encounters between Germany and India** Joanne Miyang Cho, Eric Kurlander, Douglas T McGetchin, 2013-12-17 Providing a comprehensive survey of cutting edge scholarship in the field of German Indian and South Asian Studies the book looks at the history of German Indian relations in the spheres of culture politics and intellectual life Combining transnational post colonial and comparative approaches it includes the entire twentieth century from the First World War and Weimar Republic to the Third Reich and Cold War era The book first examines the ways in which nineteenth century Indomania figured in the creation of both German national identity and modern German scholarship on the Orient and it illustrates how German encounters with India in the Imperial era alternately destabilized and reinforced the orientalist capitalist and nationalist underpinnings of German modernity Contributors discuss the full range of German responses to India and South Asian perceptions of Germany against the backdrop of war and socio political revolution as well as the Third Reich's ambivalent perceptions of India in the context of racism religion and occultism The book concludes by exploring German Indian relations in the era of decolonization and the Cold War Employing a diverse array of interdisciplinary approaches to understanding German Indian encounters over the past two centuries this book is of interest to students and scholars of Germany India Europe and Asia as well as history political science anthropology philosophy comparative

literature and religious studies **Crashed** Adam Tooze, 2018-08-07 WINNER OF THE LIONEL GELBER PRIZE A NEW YORK TIMES NOTABLE BOOK OF 2018 ONE OF THE ECONOMIST'S BOOKS OF THE YEAR A NEW YORK TIMES CRITICS TOP BOOK An intelligent explanation of the mechanisms that produced the crisis and the response to it One of the great strengths of Tooze's book is to demonstrate the deeply intertwined nature of the European and American financial systems The New York Times Book Review From the prizewinning economic historian and author of Shutdown and The Deluge an eye opening reinterpretation of the 2008 economic crisis and its ten year aftermath as a global event that directly led to the shockwaves being felt around the world today We live in a world where dramatic shifts in the domestic and global economy command the headlines from rollbacks in US banking regulations to tariffs that may ignite international trade wars But current events have deep roots and the key to navigating today's roiling policies lies in the events that started it all the 2008 economic crisis and its aftermath Despite initial attempts to downplay the crisis as a local incident what happened on Wall Street beginning in 2008 was in fact a dramatic caesura of global significance that spiraled around the world from the financial markets of the UK and Europe to the factories and dockyards of Asia the Middle East and Latin America forcing a rearrangement of global governance With a historian's eye for detail connection and consequence Adam Tooze brings the story right up to today's negotiations actions and threats a much needed perspective on a global catastrophe and its long term consequences
