Skull Guide For Halo 2:

Halo 2 Hacks Stephen Cawood, 2005-09-07 Even if you've finished Halo 2 in Legendary Mode you're not done with this game. Not by a long shot. You know there's a lot more you can squeeze out of Halo 2 and with the clever hacks we have in store you'll turn the game into a whole new experience. Halo 2 Hacks is the creation of consummate gamer and Microsoft insider Stephen Cawood, an original member of the Halo 2 beta test team. He's got it all whether you're into single or multiplayer games, a level 25 or above, or even a complete noob. If you are a beginner, you may not yet appreciate that Halo 2 for Xbox is the biggest game to hit the galaxy. Ten million copies have already sold, including 2.4 million on the first day it hit the shelf. So you're in good company, even if you've never played its predecessor Halo: Combat Evolved. Pick up this book and you'll be able to fully appreciate the Halo 2 universe. Halo 2 Hacks is packed with a horde of great hacks for weapons, levels, vehicles, game play, and mods. You'll learn how to perform expert tricks, exploit glitches, and find Halo 2 Easter Eggs, including the famous skulls. And discover all the nooks and crannies you didn't even suspect were there. Each hack has a thermometer icon to indicate its relative complexity, whether it's a beginner, moderate, or expert hack. Each one stands on its own, so you can either read the book from cover to cover or jump around until you see a hack you want to try. This title was created with the help of numerous gamers from the Halo community. Whether it was a trick, a glitch, or a mod, Cawood went straight to the source and gathered all of the necessary information to help you complete the hack. The mod section of the book features contributions from Grenadiac, MrMurder, Iron_Forge, GTJuggler, The Swamp Fox, and many more. Halo 2 Hacks also features a foreword by DuCain, the admin for HighImpactHalo.org; Louis Wu, the admin for Halo.Bungie.org; and Grenadiac, the admin for HaloMods.com. For all the brave souls who want to learn how to trick Halo 2 into running the hacks and mods of their choice, Halo 2 Hacks is a must-read. Roughly half of this title is dedicated to creating your own Halo 2 mods. If you're a fan of tricking, glitching, or modding, then this is the book for you. But only for gamers who think they're worthy of the distinction. **Halo 4**
