American/Medieval Goes North Gillian R. Overing, Ulrike Wiethaus, 2019-10-07 One of the great virtues of *American Medieval Goes North* is its wide range of contributors with fascinatingly diverse relationships to the main terms of analysis. There are academic scholars, poets, filmmakers, tribal elders, teachers at various levels; there are Indigenous people, people from settler colonial cultures, expats, immigrants. Their analytic and imaginative encounters with the North catch at the intensely symbolic and political charge of that locus. At a time when Medieval Studies cannot afford to ignore the period's popular uptake, cannot continue with business as usual in the face of white supremacists' brazen appropriations of the Middle Ages, this volume points to new possibilities for grappling with the uneasy relationships between the American and the medieval. Prof. Carolyn Dinshaw, New York University. **The Elder Scrolls V, Skyrim** David Hodgson, 2011. Covers Xbox 360, PlayStation 3, PC. P. 4 of cover. **The Germanic Heroic Tradition in Video Games** Enrique

Torres-Hergueta, 2025-10-03 This monograph examines the appropriation and ludification of the Germanic heroic tradition in video games as a digital medium, a process that unfolds on the margins of official discourse about the early Middle Ages. The project analyzes the adaptation of medieval material to the video game format through the use of Germanic epic motifs such as the configuration of the hero, his conflict with the antagonist, and the pursuit of fame and wealth derived from the medieval written sources that inspire them. Using narratology, the author evaluates the remediation of these narratives in video games as a playful, digital, and immersive experience. *The Elder Scrolls IV* Peter Olafson, Erik Caponi, 2006. Find Your Path.

Detailed maps for every part of the world and every major city, plus special maps for every key section of the main quest. Specific chapters on how to create your character and maximize your abilities and skills. Over 300 full-color pages packed with information on everything you need to know about the massive gameworld of Oblivion. Walkthroughs for every quest in the game, including the main quest, all faction quests, as well as miscellaneous and freeform quests. Sections on various gameplay systems, including stealth, combat, magic, enchanting, alchemy, and more. Detailed bestiary chapter to help you best deal with the denizens of Tamriel and Oblivion. *Critical Gaming: Interactive History and Virtual Heritage* Erik

Champion, 2016-03-09 This book explains how designing, playing, and modifying computer games, and understanding the theory behind them, can strengthen the area of digital humanities. This book aims to help digital humanities scholars understand both the issues and also advantages of game design, as well as encouraging them to extend the field of computer game studies, particularly in their teaching and research in the field of virtual heritage. By looking at re-occurring issues in

the design playtesting and interface of serious games and game based learning for cultural heritage and interactive history this book highlights the importance of visualisation and self learning in game studies and how this can intersect with digital humanities It also asks whether such theoretical concepts can be applied to practical learning situations It will be of particular interest to those who wish to investigate how games and virtual environments can be used in teaching and research to critique issues and topics in the humanities particularly in virtual heritage and interactive history
