

Ian Parker

Slavoj Žižek

A Critical Introduction

"This is not simply the best critical introduction to Žižek — in a much more radical sense, this is the only critical introduction to Žižek. Parker's study is much more than an important contribution to the ongoing debate; it redefines its very terms. If this work does not become a standard work of reference, the only conclusion will be that Western academia is caught in an obscure desire to self-destruct."

Slavoj Zizek A Critical Introduction Modern European Thinkers:

Slavoj Zizek Ian Parker, 2004 Simply the best critical introduction to Zizek Yannis Stavrakakis author of *Lacan and the Political* Slavoj Zizek Ian Parker, 2004-03-20 When I read Ian Parker's manuscript I experienced an underlying solidarity despite obvious differences we share the same basic political concerns and visions And this makes his critical remarks always pertinent Slavoj Zizek This is not simply the best critical introduction to Zizek in a much more radical sense this is the only critical introduction to Zizek Parker's study is much more than an important contribution to the ongoing debate it redefines its very terms Yannis Stavrakakis author of *Lacan and the Political* A sharp clear and radical analysis Christian Ingo Lenz Dunker Professor of Psychoanalytic Theory and Lacanian Psychoanalyst Sao Paulo Brazil Since the publication of his first book in English in 1989 Slavoj Zizek has quickly become one of the most widely read and contentious intellectuals alive today With dazzling wit and tremendous creativity he has produced innovative and challenging explorations of Lacan Hegel and Marx and used his insights to exhilarating effect in analyses of popular culture While Zizek is always engaging he is also elusive and even contradictory It can be very hard to finally determine where he stands on a particular issue Is Zizek Marxist or Post Marxist How seriously should we take his recent turn to Christianity Slavoj Zizek A Critical Introduction shows the reader a clear path through the twists and turns of Zizek's writings Ian Parker takes Zizek's treatment of Hegel Lacan and Marx in turn and outlines and assesses Zizek's interpretation and extension of these thinkers theories While Parker is never hastily dismissive of Zizek's innovations he remains critical throughout aware that the energy of Zizek's writing can be bewitching and beguiling as well as engaging and profound **Zizek** Sarah Kay, 2003-04-29 Zizek is hailed as the most significant interdisciplinary thinker of modern times His work is a powerful often explosive combination of Lacanian psychoanalysis and philosophy which tests key psychoanalytical concepts against the ideas of major European thinkers especially Hegel It has ignited enthusiasm and stimulated new approaches across a vast range of disciplines and seems to be attracting an ever growing readership In part this is because Zizek himself has a panoramic range of interests encompassing film studies literature cyber culture ethics theology and above all politics It is also because he is a highly entertaining writer having a flair for anecdote a smutty sense of humour and the knack of capturing complex ideas in concrete form Sarah Kay's book provides a lucid and comprehensive introduction to Zizek's work His writings to date are presented and evaluated here for the first time together with an outline of their development and explanations of his key premises themes and terms This book will be essential reading for students of cultural studies literary studies philosophy and social and political theory

and do not sustain politically insightful critique of the real world while bringing intellectual and ethical concerns to bear on the popular Fantasy form

Everything You Always Wanted to Know about Literature but Were Afraid to Ask Žižek Russell Sbriglia, 2017-02-27 Challenging the widely held assumption that Slavoj Žižek's work is far more germane to film and cultural studies than to literary studies this volume demonstrates the importance of Žižek to literary criticism and theory The contributors show how Žižek's practice of reading theory and literature through one another allows him to critique complicate and advance the understanding of Lacanian psychoanalysis and German Idealism thereby urging a rethinking of historicity and universality His methodology has implications for analyzing literature across historical periods nationalities and genres and can enrich theoretical frameworks ranging from aesthetics semiotics and psychoanalysis to feminism historicism postcolonialism and ecocriticism The contributors also offer Žižekian interpretations of a wide variety of texts including Geoffrey Chaucer's *Troilus and Criseyde* Shakespeare's *The Merchant of Venice* Samuel Beckett's *Not I* and William Burroughs's *Nova Trilogy* The collection includes an essay by Žižek on subjectivity in Shakespeare and Beckett

An Apostle for Atheists Ole Jakob Løland, 2023-12-28 What is a modern philosopher to make of Paul the apostle What do non Christian philosophers in Europe gain from reading ancient letters from Christianity's first great ideologue and letters addressed to groups of people lost to time To ask this question is to acknowledge that despite religious faith being regarded by many as a stage that our modern societies have left behind contemporary philosophers are confronted with questions such as multiculturalism and religious fundamentalism in the wake of immigration and the increasing presence of religious minorities The Letters of Paul have gained the interest of several philosophers and the interpretations of the apostle have taken many forms Looking closely at Paul's letters which have gained most interest from atheist philosophers The First Letter to the Corinthians and the Letter to the Romans this book offers an overview of the various ways they have been understood It pays close attention also to the readings of Paul in the three thinkers Friedrich Nietzsche and Sigmund Freud canonized as two of the great pillars of the modern critique of religion with Spinoza as one of their important predecessors Confronting these readings with insights not only from the more recent philosophical readings of the apostle but also from historical critical scholarship on the Bible this book lifts the veil over a new picture of the apostle as a figure with potential value for non Christians and atheists An Apostle for Atheists leaves us with ideas that compel us to reconsider Paul's negative reputation for secular modernity and appreciate him as a figure of a radically new politics as well as a renewed psychoanalysis

In Exile Jessica Dubow, 2020-11-12 In *In Exile* Jessica Dubow situates exile in a new context in which it holds both critical capacity and political potential She not only outlines the origin of the relationship between geography and philosophy in the Judaic intellectual tradition but also makes secular claims out of Judaism's theological sources Analysing key Jewish intellectual figures such as Walter Benjamin Isaiah Berlin and Hannah Arendt Dubow presents exile as a form of thought and action and reconsiders attachments of identity history time and territory In her unique combination of geography philosophy

and some of the key themes in Judaic thought she has constructed more than a study of interdisciplinary fluidity She delivers a striking case for understanding the critical imagination in spatial terms and traces this back to a fundamental if forgotten exilic pull at the heart of Judaic thought **Zero-Point Hubris** Santiago Castro-Gómez, 2021-12-16 Operating within the framework of postcolonial studies and decolonial theory this important work starts from the assumption that the violence exercised by European colonialism was not only physical and economic but also epistemic Santiago Castro G mez argues that toward the end of the eighteenth century this epistemic violence of the Spanish Empire assumed a specific form zero point hubris The many forms of knowing were integrated into a chronological hierarchy in which scientific enlightened knowledge appears at the highest point on the cognitive scale while all other epistemes are seen as constituting its past Enlightened criollo thinkers did not hesitate to situate the Black Indigenous and mestizo peoples of New Granada in the lowest position on this cognitive scale Castro G mez argues that in the colonial periphery of the Spanish Americas Enlightenment constituted not only the position of epistemic distance separating science from all other knowledges but also the position of ethnic distance separating the criollos from the castes Epistemic violence and not only physical violence is thereby found at the very origin of Colombian nationality Out of This World Peter Hallward, 2006-08-17 A controversial critique of an iconic philosopher
