Customers who place a standing order for the Tests in Print series or the Mental Measurements Yearbook series will receive a 10% discount on every volume. To place your standing order, please call 1-800-848-6224 (in the U.S.) or 919-966-7449 (outside the U.S.). The most widely acclaimed reference series in education and psychology, the Mental Measurements Yearbooks are designed to assist professionals in selecting and using standardized tests. The series, initiated in 1938, provides factual information, critical reviews, and comprehensive bibliographic references on the construction, use, and validity of all tests published in English. The objectives of the Mental Measurements Yearbooks have remained essentially the same since the publication of the series. These objectives include provision to test users of: factual information on all known tests published as separates in the English-speaking countries of the world candidly critical test reviews written for the MMY series by qualified professional people representing a variety of viewpoints unique publication of each volume in the MMY series with new volumes supplementing rather than supplanting previous series volumes. Each yearbook is a unique publication, supplementing rather than supplanting the previous volumes. The ninth edition of this widely acclaimed reference work is the most comprehensive yearbook to date. It includes 1,409 commercially published tests (19% more than in The Eighth Mental Measurements Yearbook), detailed descriptive information about each test, 1,266 original reviews (41% more than in The Eighth Mental Measurements Yearbook) prepared by 660 well-qualified professional reviewers, and extensive references on specific tests, including those selected by Buros Institute staff and those selected by reviewers. The tests are listed in alphabetical order for easy reference. The volume also features a state-of-the-art essay on "Mental Measurement: Some Emerging Trends" by Dr. Anne Anastasi, a leading figure in the field of measurement. Indexes to the volume are: an Index of Titles with cross references and identification of new and revised tests, an Index of Acronyms, a Classified Subject Index, a Publisher's Directory and Index which includes publisher names and addresses and test listings by publisher, and Index of Names, and an innovative Score Index which refers readers to tests featuring particular kinds of scores that are of interest to them. Widely regarded as the bible of testing, the Mental Measurements Yearbook is an indispensable reference work. The Ninth Mental Measurements Yearbook continues and extends this proud tradition of excellence in providing service to test users.

[The Curiosity of School](#) Zander Sherman, 2012-08-07 It's one thing we all have in common: We've all been to school. But as Zander Sherman shows in this fascinating, often shocking account of institutionalized education, sending your kids off to school was not always normal. In fact, school is a very recent invention. Taking the reader back to 19th century Prussia, where generals worried about soldiers' troubling individuality sought a way to standardize every young man of military age through to the most controversial debates that swirl around the world about the topic of education today, Sherman tells the often astonishing stories of the men and women and corporations that have defined what we have come to think of as both the privilege and the responsibility of being educated. Along the way we discover that the SAT was invented as an intelligence test designed to allow the state to sterilize imbeciles; that suicide in the wake of disappointing results in the state university placement exams is the fifth leading cause of death in China; and that commercialized higher education seduces students into debt as cynically as credit card companies do. Provocative, entertaining, and even educational. *The Curiosity of School* lays bare the forces that shape the institution that shapes all of us. Pattern Recognition Applications and Methods Ana Fred, Maria De Marsico, 2014-11-22 This book contains the extended and revised versions of a set of selected papers from the 2nd International Conference on Pattern Recognition ICPRAM 2013 held in Barcelona, Spain from 15 to 18 February 2013. ICPRAM was organized by the Institute for Systems and Technologies of Information Control and Communication INSTICC and was held in cooperation with the Association for the Advancement of Artificial Intelligence AAAI. The hallmark of this conference was to encourage theory and practice to meet in a single venue. The focus of the book is on contributions describing applications of Pattern Recognition techniques to real world problems: interdisciplinary research, experimental and/or theoretical studies yielding new insights that advance Pattern Recognition methods. *Family Problems and Family Violence* Steven Beach, Steven R.H.
