Advances in Computational Intelligence. MICAI 2024 International Workshops Lourdes

Martínez-Villaseñor, Gilberto Ochoa-Ruiz, Martín Montes Rivera, María Lucía Barrón-Estrada, Héctor Gabriel

Acosta-Mesa, 2025-03-07 This book constitutes the revised selected papers of several workshops which were held in conjunction with the MICAI 2024 International Workshops on Advances in Computational Intelligence MICAI 2024 held in Tonantzintla Mexico during October 21-25, 2024. The 38 revised full papers presented in this book were carefully reviewed and selected from 58 submissions. The papers presented in this volume stem from the following workshops: 17th Workshop of Hybrid Intelligent Systems HIS 2024, 17th Workshop on Intelligent Learning Environments WILE 2024, 6th Workshop on New Trends in Computational Intelligence and Applications CIAPP 2024. *Harmony and Strife* Shuxian Liu, Robert Elliott

Allinson, 1988 This volume is intended for professional philosophers and laymen with an interest in East-West studies and comparative philosophy and religion. The central focus is the concept of comparing perspectives from both the Eastern and the Western philosophical traditions on harmony and strife. The unique and happy result is an East-West anthology which is directed at analyzing a single philosophical problem which is of importance to both traditions. Unlike many anthologies which tend to be collections of isolated and unrelated essays, the Editors' focus on a single theme has resulted in a unified volume which maintains a high continuity of interest throughout. The Editors have carefully culled and organized essays from a select group of philosophers from the United States, West Germany, Japan, Australia, Beijing, Taipei, and Hong Kong. Harmony and strife are analyzed as systematic concepts in Western philosophy, as parts of classical Chinese thought, as central concepts in Buddhism, as metaphysical concepts, as dialectical concepts, and even as null concepts. The Editors have taken great care so that a continuity and a coherence of presentation is achieved despite the striking variety of perspectives from which harmony and strife are analyzed. It is both unusual and important to have such a systematic and thorough investigation of a topic of paramount social and philosophical significance by some of the leading minds of the day. Besides the essays included, are eminently readable. The volume is likely to become a standard work in this area for some years to come. 中国香港中文大学

University of Hong Kong. New Asia College, 1988. *Buddhism in Comparative Light* Hajime Nakamura, 1975 Buddhism and Christianity differ in origin and the transformation they underwent on encounter with indigenous cultures. Despite these differences, they have comparable histories, particularly in expansion and acceptance. This comparative study of Buddhism and Christianity probes the religious consciousness far below the surface of dogma and tradition and tries to show what Buddhism and Christianity have meant to true followers and what each gave to all truly religious men. This study is written from the standpoint of the modern thinker; its appeal is principally to Western readers describing Buddhist history, thought, and practice in greater detail. The treatment is selective, concerned as it is only with the comparable features of the two traditions which are to some extent shared by all great religions of the world. *The Advertising Red Books*, 2008-07 Suzuki:
