Reed, 2013-07-12 Since the turn of the new millennium English language verse has entered a new historical phase but explanations vary as to what has actually happened and why What might constitute a viable avant garde poetics in the aftermath of such momentous developments as 9 11 globalization and the financial crisis Much of this discussion has taken place in ephemeral venues such as blogs e zines public lectures and conferences Nobody s Business is the first book to treat the emergence of Flarf and Conceptual Poetry in a serious way In his engaging account Brian M Reed argues that these movements must be understood in relation to the proliferation of digital communications technologies and their integration into the corporate workplace Writers such as Andrea Brady Craig Dworkin Kenneth Goldsmith Danny Snelson and Rachel Zolf specifically target for criticism the institutions skill sets and values that make possible the smooth functioning of a postindustrial globalized economy Authorship comes in for particular scrutiny how does writing a poem differ in any meaningful way from other forms of content providing While often adept at using new technologies these writers nonetheless choose to explore anachronism ineptitude and error as aesthetic and political strategies The results can appear derivative tedious or vulgar they can also be stirring compelling and even sublime

As Reed sees it this new generation of writers is carrying on the Duchampian practice of generating antiart that both challenges prevalent definitions of art and calls into question the legitimacy of the institutions that define it

*Wearing the Niqab* Anna Piela, 2021-01-14 Bringing niqab wearers voices to the fore discussing their narratives on religious agency identity social interaction community and urban spaces Anna Piela situates women s accounts firmly within UK and US socio political contexts as well as within media discourses on Islam The niqab has recently emerged as one of the most ubiquitous symbols of everything that is perceived to be wrong with Islam barbarity backwardness exploitation of women and political radicalization Yet all these notions are assigned to women who wear the niqab without their consultation niqab debates are held without their voices being heard and when they do speak their views are dismissed However the picture painted by the stories told here demonstrates that for these women religious symbols such as the niqab are deeply personal freely chosen multilayered and socially situated Wearing the Niqab gives voice to these women and their stories and sets the record straight enhancing understanding of the complex picture around niqab

and religious identity and agency      **Immigrant Youth, Hip Hop, and Online Games** Barbara Franz, 2015-08-13 Anti Muslim racism with its attendant xenophobia and the fear of Salafist hostility are two of the most essential problems facing Europe today Both result from the enormous failure of the continent's integration policies which have either insisted on immigrants rigid assimilation or left immigrants to fend for themselves This book radically breaks with contemporary approaches to immigrant assimilation and integration Instead it examines non institutional approaches that facilitate immigrant inclusion through the examples of three alternative small scale projects that have impacted the lives of urban working class youth specifically with second generation immigrant roots in Vienna Austria These projects involve online gaming hip hop as an art form and social work as emancipatory pedagogic practice commonly referred to as street work This book investigates working class teenagers social networks and describes an online game designed to provide a platform for interaction between non immigrant and immigrant youth who usually either do not interact or display prejudice when they engage each other Hip hop can provide both a necessary outlet for alienated youth to articulate their frustrations and a highly effective tool for transforming inclusion conflicts Social work with marginalized youth is crucial for successful inclusion Specifically individual support in small scale settings provides a unique opportunity to open up spaces for discouraged and disaffected teenagers to gain self worth and dignity While the book focuses on identity formation and the teenagers agency it argues that only projects that include both newcomer and native can aid in overcoming exclusionary attitudes and policies eventually allowing some form of social bonding to take place      **II.
