A Vision in Death Celia Roman, 2021-06-28 When people touch me I foresee their deaths The visions are mine Only I can choose what to do about them While traveling cross country searching for the blood and pain I d foreseen in a vision I landed in rural Ohio courtesy of a kindly soul Lou was a good woman a solid faithful salt of the Earth type And on Friday she was going to die I d long ago learned that nothing I did would deter fate s course But I couldn t leave Ohio without trying to save Lou Fate though had more in store for her than a simple death by hit and run Far more And her fate brought me face to face with a terror from my own past a terror I had to stop before it used Lou to unleash the wild magic and create something much worse than the death I had foreseen A prequel to the Kaya Fox Series

**the World, Death, and Hell** Ellis Wynne, 2019-12-20 In *The Sleeping Bard Or Visions of the World Death and Hell* Ellis Wynne weaves an intricate tapestry of allegorical narrative steeped in metaphysical inquiry and moral reflection. Written in a rich evocative style that combines elements of both the Welsh literary tradition and the reflective contemplations found in early modern spiritual literature, Wynne's work contemplates the human condition through a dreamlike series of visions. This book, influential in its time, serves as a profound meditation on mortality, the afterlife, and the dichotomy between the earthly and the ethereal, revealing the psychological and spiritual struggles of humanity in the face of divine judgment and existential uncertainty. Ellis Wynne, a prominent figure of 17th century Welsh literature, was deeply influenced by the socio-political and religious upheavals of his era. His background in theology and his engagement with the pivotal questions of life and death drove him to undertake this ambitious work. By immersing himself in the rich cultural and philosophical milieu of his time, Wynne crafted a narrative that resonates with the universal quest for meaning and salvation. Readers seeking a profound exploration of life's ultimate questions will find great value in this haunting allegory. Wynne's masterful use of language and poignant themes encourages introspection and offers an invaluable historical perspective, making this text essential for anyone interested in the intersection of literature, spirituality, and human experience. **The Making of the Alice Books** Ronald Reichertz, 2000 Analysing Lewis Carroll's Alice books in the context of children's literature from the seventeenth through the nineteenth century, Ronald Reichertz argues that Carroll's striking originality was the result of a fusion of his narrative imagination and formal and thematic features from earlier children's literature. *The Making of the Alice Books* includes discussions of the didactic and nursery rhyme verse traditionally addressed by Carroll's critics, while adding and elaborating connections established within and against the continuum of English language children's literature. Drawing examples from a wide range of children's literature, Reichertz demonstrates that the Alice books are infused with conventions of and allusions to earlier works and identifies precursors of Carroll's upside-down looking glass and dream vision worlds. Key passages from related books are reprinted in the appendices, making available many hard-to-find examples of early children's literature. *The Throne Room Vision* Ahmed Musa, 2024-12-15 Step into a realm of divine

**Occult Roots of Religious Studies** Yves Mühlematter, Helmut Zander, 2021-06-08 The historiographers of religious studies have written the history of this discipline primarily as a rationalization of ideological most prominently theological and phenomenological ideas first through the establishment of comparative philological and sociological methods and secondly through the demand for intentional neutrality This interpretation caused important roots in occult esoteric traditions to be repressed This process of purification Latour is not to be equated with the origin of the academic studies De facto the elimination of idealistic theories took time and only happened later One example concerning the early entanglement is Tibetology where many researchers and respected chair holders were influenced by theosophical ideas or were even members of the Theosophical Society Similarly the emergence of comparatistics cannot be understood without taking into account perennialist ideas of esoteric provenance which hold that all religions have a common origin In this perspective it is not only the history of religious studies which must be revisited but also the partial shaping of religious studies by these traditions insofar as it saw itself as a counter model to occult ideas
