Vienne Au Crépuscule Des Templiers:

Vienne au crépuscule des templiers Roger Lauxerois, 2014-12-15T00:00:00+01:00 En 1308 le pape Clément V choisit la ville de Vienne pour réunir un concile général qui devait clore les procédures engagées contre l'ordre des templiers et ses membres. Que représentait alors cette petite cité épiscopale qui aux portes du royaume de France se maintenait pourtant encore dans la dépendance de l'Empire romain germanique ? Dépendance qui du fait de l'éloignement ne portait pas ombrage l'autorité de son archevêque. Pourtant l'église de Vienne n'était pas des plus riches. La ville tirait certes avantage de sa situation sur le Rhin que l'on pouvait traverser grâce à un pont en pierre doté d'une ancienne tour gendarme. Sa monnaie servait de monnaie de compte dans un grand quart Sud-Est et elle participait au dynamisme des courants commerciaux rhodaniens. Une aura de légendes le jour et la nuit de Ponce Pilate les reliques du martyr saint Maurice les chansons de geste renforçaient le prestige de la cité dont les monuments ne laissaient pas indifférent le visiteur. Parmi eux la cathédrale romane qui connaissait depuis le XIII^e siècle de interminables travaux de rénovation et d'agrandissement. C'est là qu'eurent lieu les séances solennelles du concile entre octobre 1311 et mai 1312. Comment en est-on arrivé à la suppression de l'ordre des templiers manière de compromis entre le pape et le roi de France ? Que sont devenus ceux qui avaient fait l'objet d'enquêtes hors du royaume de France ? Les commissions du concile de Vienne eurent d'autres affaires à examiner qui étaient alors parmi les préoccupations sensibles de l'église : les mouvements théologiquement déviants et considérés comme hérétiques : biguines et bigards les divisions au sein de l'ordre franciscain la question de la croisade contre les infidèles et la mission en terres musulmanes dont le philosophe théologien Raymond Lulle se fit le défenseur en défendant les positions averroïstes. *The Persecution of the Knights Templar* Alain Demurger, 2019-01-01 The trial of the Knights Templar is one of the most infamous in history. Accused of heresy by the king of France the Templars were arrested and imprisoned had their goods seized and their monasteries ransacked. Under brutal interrogation and torture many made shocking confessions denial of Christ desecration of the Cross sex acts and more. This narrative follows the everyday reality of the trial from the early days of scandal and scheming in 1305 via torture imprisonment and the dissolution of the order to 1314 when leaders Jacques de Molay and Geoffroy de Charnay were burned at the stake. Through first hand testimony and written records of the interrogations of 231 French Templars this book illuminates the stories of hundreds of ordinary members some of whom testified at the trial as well as the many others who denied the charges or retracted their confessions. This is a deeply researched and immersive account that gives a striking vision of the relentless persecution and the oft underestimated resistance of the once mighty Knights Templar. **Fairs, Cities and Merchants** Jean-Louis Gaulin, Susanne Rau, 2025-03-31 Today it has largely been forgotten that fairs played a decisive role in trade and finance in pre-modern Europe. In the Middle Ages and Early Modern period many cities endeavoured to obtain a fair privilege and attract as many merchants as possible. Through the economic activities and infrastructures provided a supra-regional spatial configuration gradually emerged which was not only made up of places

within a region but across the whole of Europe and in some cases the wider world The contributions in this volume are based on a project jointly funded by the French Agence Nationale de la Recherche and the German Research Foundation which focussed mainly on fairs and cities in France the Holy Roman Empire and Italy In chronological terms they cover the period from the end of the Champagne fairs ca 1320 to the success of the Besançon fairs ca 1580 to 1630 which epitomised a new type of fair The geographical focus has been extended to include fairs and trade routes in Eastern Europe and China temple fairs This overall view makes it possible for the first time to analyse the functions of the various market forms in their regional context and in their development from the exchange of goods to the credit market and financing government debt but also the deep integration of the merchant culture into urban and religious culture Based on archival studies and the integration of artefacts new graphs and maps this volume provides a new look at the history of annual markets and fairs In addition to functional aspects spatiotemporal aspects such as disputes over fair dates visiting rhythms the transport of goods and routes by land and water are dealt with Credit activities transport of goods and mobility of merchants trading families and companies point to the highly developed transnational dimension of pre modern trade The volume concludes with a presentation of the project database its functionalities and opportunities to participate

La persécution des Templiers Alain Demurger, 2015 L'Affaire du Temple est l'un des plus intrigants procès de l'Histoire C'est celui qu'un roi de France Philippe le Bel fit un ordre religieux militaire international et puissant pour défendre la Terre sainte et traverser lui un pape sur lequel il voulait asseoir son autorité Accusés d'hérésie les templiers de France furent arrêtés et emprisonnés le 13 octobre 1307 et leurs biens saisis Interrogés et torturés ils firent des aveux stupéfiants qui contribuèrent leur chute Ce journal relate le quotidien d'une affaire qui s'étend sur cinq ans jusqu'à la suppression de l'ordre en 1312 au concile de Vienne et se prolonge encore deux ans avec la mise à mort de Jacques de Molay et de Geoffroy de Charnay en 1314 Il fait sortir de l'ombre plusieurs centaines de templiers certains ayant avoué mais
