Vincent Berg Grappling With Survival:

Grappling with Survival Vincent Berg, 2013-01-26 Book 2 of the Great Death series A Post Apocalyptic world unlike any other Instead of banding together or fighting each other here the survivors find a world with few resources little trust and no desire to intermingle Fears of disease prevent survivors from reaching out for help How does society survive if the survivors won't participate A follow up to Love and Family During the Great Death It's much less bleak and reading the first book isn't strictly necessary so those who couldn't handle the first shouldn't be afraid of this one Picking up after everyone else has died David and Alice try to determine who if anyone has survived and why they did The series of plagues they survived proved effective as society is laid bare but they realize they must organize the reluctant survivors as the Great Death isn't finished and further disasters await

The Moral Case for Abortion Ann Furedi, 2022-01-27 This revised and updated edition of the 2016 bestselling work sets out the moral arguments for a woman's right to decide the future of her pregnancy Drawing on traditions of philosophical and sociological thinking it presents the case for recognizing autonomy in personal private decision making about reproductive intentions Further it argues that to prevent a woman making this decision according to her own values is to undermine the essence of her humanity The author explores how true respect for human life and regard for individual conscience demands that we support a woman's right to decide and that support for her right to terminate her pregnancy has moral foundations and ethical integrity This second edition features a foreword by US abortion provider and reproductive justice advocate Dr Willie Parker as well as additional chapters that consider the rights of doctors and nurses to withdraw from abortion provision on grounds of conscience Furedi also surveys the rapidly changing landscape of the abortion debate including the rights of women in the aftermath of Trump's presidency debates politics and religion in Northern Ireland and the Republic of Ireland and the differing levels of provision across Europe

Anthropological Optimism Anna J. Willow, 2023-04-25 This book theorizes the roles of optimism in anthropological thinking research writing and practice It sets out to explore optimism's origins and implications its conceptual and practical value and its capacity to contribute to contemporary anthropological aims In an era of extensive ecological disruption and social distress this volume contemplates how an optimistic anthropology can energize the discipline while also contributing to bettering the lives communities and environments of those we study It brings together scholars diverse in background career stage and theoretical approach in a collective attempt to comprehend the myriad intersections of anthropology and optimism The challenges of the COVID 19 pandemic have recently underscored the larger longer term catastrophes of climate change ecosystemic collapse social injustice and antipathy toward scientific knowledge and those who produce it In this context exceedingly few anthropologists feel comfortable observing and documenting passively while their research communities face unrelenting waves of unnatural disasters We need to act But we also need to hope Discontent with the state of the world and cultural anthropology's turn to increasingly positive future oriented and engaged work have converged to unleash

a courageously optimistic anthropology This book is a timely springboard for this impactful and emergent approach

Encyclopedia of Unaired Television Pilots, 1945-2018 Vincent Terrace, 2018-10-12 Covering the years 1945-2018 this alphabetical listing provides details about 2,923 unaired television series pilots including those that never went into production and those that became series but with a different cast such as *The Green Hornet*, *The Middle* and *Superman*. Rarities include proposed shows starring Bela Lugosi, Doris Day, Humphrey Bogart, Barbara Stanwyck, Orson Welles, Claudette Colbert and Mae West along with such casting curiosities as Mona Freeman not Gale Storm as Margie in *My Little Margie* and John Larkin as Perry Mason long before Raymond Burr played the role. **Italian Politics** Martin J. Bull, James L.

Newell, 2005 This wide-ranging book seeks to unravel the complexities of post-1992 Italian democracy. It takes as its point of departure the dramatic political tensions of the early 1990s and evaluates these against the background of an analysis of the First Republic that predates these changes. Martin Bull and James Newell, renowned scholars of Italian Politics, argue that the early 1990s revolution in Italian party politics should be seen both as a major cause of subsequent changes in the political system and as a consequence of longer-term still on-going changes in the Italian polity. The book explains how we can understand in this light the mixed success of the parties in attempting to act as autonomous vehicles of reform and therefore why if we are witnessing a transformation to a Second Republic many of its key features still remain to be shaped. Each of the thematic chapters clearly juxtaposes Italy as it was before the 1990s with Italy today thereby evaluating the degree to which the early 1990s can be seen as a watershed. In this way the book offers a novel account of both contemporary political developments and their historical significance in the context of the Italian political model that took shape in the period after 1945. This will be essential reading for all students of Italian and Comparative Politics who will find the clarity and breadth of the book invaluable. Equally scholars will be fascinated by this new and compelling argument. *The Wireless World* Simon

James Potter, Friederike Kind-Kovacs, 2022 *The Wireless World* sheds new light on the transnational connections created by international broadcasting using a single analytical frame to draw together the periods from the pioneering days of wireless through WWII and the Cold War to the decades since the fall of the Berlin Wall to reveal key continuities and transformations.

But with changing economic times and the race for ratings the networks gradually dropped made-for-TV movies while basic cable embraced the format especially the Hallmark Channel with its numerous Christmas-themed movies and the Syfy Channel with its array of shark attack movies and other things that go bump in the night. From the waning days of the broadcast networks to the influx of basic cable TV movies this encyclopedia covers 1,370 films produced during the period 2000-2020. For each film entry the reader is presented with an informative storyline, cast and character lists, technical credits, producer, director, writer, air dates and networks.
